Law Requires Registration of Automatic Guns

Firearms of the automatic type, such as machine guns, sub-machine guns, or any type of gun from which a number of shots or bullets may be discharged with one continuous pull of the trigger, must be registered with the commission of internal revenue, Washington, D. C., through the alcohol tax unit in Oregon, with offices at Portland, LaGrande, Klamath Falls, and Eugene, according to L. Dene Hickman, investigator in charge, of Portland.

Many of these firearms brought or sent into this country from abroad by members of the armed forces and merchant marine, either with or without certificates signed by commanding officers, have not been registered.

It is illegal to transfer firearms of the types described except by the payment fo the $200 tax as provided by law. However, if the firearms are rendered unserviceable, they may be transferred tax-free as war trophies upon submission of the proper form to the commissioner of internal revenue.
