April 12th - Nothing much to write about tonight so I will tell you some more about Colon. It is a small poor looking place. The natives are Panamanians who look like Negroes. To reach the town we ride with a few poor stage buses. It could never make the 15 minute ride to town. The bus is owned by the driver who can speak a little English. We got off at the U.S.O. which is the best looking building in town and it is none too good. Across from it are all sorts of little businesses, ranging from bars to radio repair shops.

The average business house looks like some of the old unpainted buildings down around Burnside with a few neon signs blaring on them. The streets are narrow and roughly paved with lots of traffic. Everything from horse drawn carriages to Buicks and Peoples are around on the sidewalks to sell as they did in Japan, instead they move around I don't know whether it is an improvement or not. The only thing that is prominent around here is the lottery sellers, they usually set up business near a bank with a coal oil lantern and there they sell lottery tickets to the natives. They seem to be quite the fiends for lottery tickets, hoping no doubt to make an easy dollar, but never winning in a life time. Most of the white people from the U. S. live on Gold Hill that is what the natives call it. Then there are the latins from the Latin American countries. These people work for the government or run their own business. We were told there are some good resorts inland but I am a sailor I had neither the time or the money to go visiting around that place.

April 15. You remember I said in the last of the last section of this letter that it was rough on the side. Well it got awfully rough. As a matter of fact we have had a couple of days of rough weather since then, today being the first day we could work in the supply office. We had pay day today, but just got through and it is only one in the evening. The weather was not as bad as that we had at Christmas but it came awfully close, and it really separated the men from the boys. I was even a little wossey myself, through it we lost a day.

I don't know what to say tonight except that I am awfully sleepy, you just don't get much sleep when you try to hold yourself in your rack and sleep at the same time. It just doesn't work out, but then I guess that I will survive the ordeal. The pay roll is all balanced and the thing is ready to be sent off and I am a free man here the rest of the evening. Wish this ship was going up and down the west coast instead of the east coast, but the saying goes "join the navy and see the world through a port hole," and that is what I am doing, even if we haven't many port holes. Next letter will be from Maine.
