CAN'T KEEP GRANDMA IN HER CHAIR

Now her Backache is better
Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

Weak kidneys of kidney function permit poisonous matter to remain in your blood. It may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headache and dizziness. Frequent or scanty urinating with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Dean's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Dean's gives happy relief and will help the 15 million of kidney tubes flush out poisonous waste from your blood. Get Dean's Pills.
