New Tension in U.N. Feared as Result of Talk

Fears of new tensions between Russian and Western powers over atomic controls, disarmament, the veto and other critical issues swept through many United Nations delegations Wednesday as diplomats from 50 member countries debated the challenging policy speech hurled into the assembly by Soviet Foreign Minister Molotov.

The Soviet leader topped off his speech with a four-point arms reduction program, including a request for action by the assembly to try to get the United States to stop making atomic bombs. Molotov blasted Bernard Baruch, U. S. member of the U. N. atomic commission, for allegedly holding a "militant philosophy" leading toward a "new aggression." He attacked the American atomic control plan as designed to give this country an atomic monopoly, asserted abolition of the veto would wreck the United Nations, and demanded a U. N. report on American and British troops in foreign lands.

Baruch intimated that America would be willing to compromise some disputed points in its plan for international control of atomic energy, but insisted that this nation would not sign any atomic bomb agreement that would include the power of veto.

"In any agreement there must be provided full compulsion to obey it, binding upon those who assume the obligation to protect the world against this new weapon," Baruch said. "Once the treaty comes to life, there can be no veto against the daily operations of the international agency and no veto on swift punishment of the offenders."

Cotton Exchanges Closed

The nation's principal cotton exchanges suddenly were slammed shut Wednesday for the third time in less than two weeks after the price of cotton had tumbled by an extreme of more than $30 a bale.

War Fear Groundless

President Truman told the first session of the United Nations general assembly last week that peace must be attained and that fears of a third world war are "unwarranted and unjustified."

Churchill Claims Facts

Winston Churchill said Thursday he had "facts" and "evidence" to support his suggestion that the Soviet union had 200 divisions—more than 2,000,000 men—on a war footing in Soviet-occupied Europe.

Says Russians Deceived

British Prime Minister Atlee charged Thursday that Soviet leaders were building up a "wall of ignorance and suspicion" between the Russian people and the rest of the world and said earnestly "we must hope for a change."

To Air Veto Right

Soviet Russia, displaying a new spirit of agreement, abandoned Friday a bitter battle to prevent a complete airing of the politically-hot veto question in the United Nations assembly.

Stalin Answers Queries

Russia has 60 divisions in the west at present, she does not have the secret of the atom bomb, she still is interested in a loan from the United States and does not believe the veto power has been overworked, Marshal Stalin said in an exclusive interview obtained by an exchange of messages between London and Moscow.

U. S. Criticized

The White Russian republic's foreign minister Monday attacked the presence of United States troops in China and told the United Nations assembly that country was not calculated to maintain peace in the Far East.

Iron Curtain Rapped

Russia's "iron curtain" was pictured by several American editors Tuesday as a barrier to understanding in Europe. Members of the group which returned from a tour of U. S. occupation zones in Europe told a news conference feelings were tense along the east-west zone borders.

Nazi Doctors Indicted

The United States Friday indicted Hitler's personal physician, one woman and 21 more of the third reich's most prominent doctors and surgeons on charges of murdering untold thousands of concentration camp inmates in fantastic and excruciating "experiments."

Must Maintain Navy

Secretary of Navy Forrestal warned America Monday that the United States navy must be maintained as guardian of our liberties and to back the United Nations "to prevent the scourge of war from afflicting us again."

Had Poison for Months

Hermann Goering had the vial of poison with which he committed suicide from the time he was captured, and may have hidden it in his naval, a report by the four-power commission investigating his death said Saturday.

Ship Strike Ends

East and Gulf coast ship operators signed an agreement Saturday with leaders of the AF of L Masters, Mates and Pilots, who had been on strike for 26 days, and the U. S. maritime commission announced work would resume.

More to Left

Henry Wallace declared in Los Angeles Thursday night that if the Democrats fail to control the 80th congress "there is only one way in which they can get control back again and that is by becoming more progressive."

Suspend Lumber Tariffs

President Truman Friday suspended tariffs on timber, lumber and lumber products needed to relieve the housing emergency, but lumber spokesmen said the action "will have very little effect" on lumber products importation.

Labor Grab Protested

Representatives of both the United States and Great Britain formally protested Friday the mass removal of German technicians and skilled laborers from Berlin to new jobs in Russia.

"A" Control Taken

The atomic energy commission, a government agency with power over this new force for war or peace, sprang to life Monday as President Truman named its five members, headed by David E. Lilienthal, chairman of the Tennessee Valley authority since 1941.

Coal Strike Off

The government Monday agreed to parley with John L. Lewis and President Truman announced positively that there would be no coal strike.

More Items Decontroled

OPA greatly expanded its decontrol program Tuesday night by removing price ceilings from radios, lamps, small electrical appliances, kitchenware, glassware and many other consumer durable goods.

Bigger Loaf Possible

The federal government Friday cleared the way for return to the full-sized loaf of bread, revoking the order which reduced the size of loaves 10 per cent last winter to save grain for famine relief.

Plane Crash Kills Boy

Leonard Cummings, 12, was believed drowned and his brother, Robert Lewis Cummings, 7, was rescued Tuesday after their unsuccessful attempt to fly a private hydroplane from the sandy beach of the Columbia river at Vancouver, where it had been parked a few minutes before by its owner.

Opposition to Gross Income Tax Summarized

To the Editor:

A summary of the opposition to the proposed new and additional three per cent tax on all gross income which is on the November 5 ballot and now known as the Little Townsend measure, will be helpful to voters. Seldom has there been such a united front from organized labor, the farmers, the veterans and business against a measure submitted to the people. Here is a summary of the opposition.

The Oregon State Federation of Labor (AF of L) has formally urged its members to vote 315 X No on the measure.

The Committee of Industrial Organization (CIO) at its convention in Portland adopted a resolution opposing the measure and has urged its member unions to vote against the measure.

The Brotherhood of Railway Trainmen has recommended to its lodge members to vote against the measure.

Oregon State Grange, through its executive committee, has recommended against the measure and Morton Tompkins, state master, in urging members of the local Granges to vote against the measure says if it passed it would "wreck the economy of Oregon."

The Oregon Farm Bureau federation has voted to oppose the measure and has repeatedly advised its members through its publication to vote against the measure.

The Oregon Farm Bureau in its recommendations to voters has urged a vote 315 X No against the measure.

The Yank Legion of veterans through its publication Yank News has urged veterans to oppose the measure.

Practically all chambers of commerce in Oregon have adopted resolutions against the measure.

Many co-operative associations, trade associations and civic clubs, including the City club of Portland, which makes the study of proposed legislation a major activity, have voted to oppose the measure.

The voters who are sincerely interested in voting right on this measure will value having the foregoing summary of the opposition.
—Walter W. R. May, secretary, committee against new three per cent income tax.

Don't you Believe it!

Have you been told . . That the proposed tax measures will NOT become property taxes?

Don't you believe it!

The truth is . . . Tax measures mean tax liens on your PROPERTY and ON YOUR INCOME, TOO!

Have you been told . . That the tax measures can be financed by "surplus income taxes" and will NOT mean additional tax burdens?

Don't you believe it!

The truth is . . . The so-called "surplus income tax revenues" now in the State Treasury will pay for ONLY ONE THIRD OF THE FIRST YEAR'S TAX! After that sum is spent, we'd IMMEDIATELY start paying INCREASED INCOME TAXES and INCREASED PROPERTY TAXES, TOO!

Have you been told . . That the proposed Basic School Bill will NOT add a new property tax?

Don't you believe it!

The truth is . . . The Basic School Bill proposes a NEW and ADDITIONAL tax of FIFTEEN MILLION DOLLARS!

Have you been told . . That funds from the Basic School Bill will be used to reduce the local school board's tax?

Don't you believe it!

The truth is . . . Local school boards would be PROHIBITED from using any of the Basic School Bill's tax money to reduce local school taxes.

Have you been told . . That the Basic School Bill will "equalize taxes" between large districts and small ones?

Don't you believe it!

The truth is . . . The Basic School Bill has NOTHING WHATSOEVER to do with equalizing assessment values.

HERE'S THE PLAIN TRUTH!

Look at the PRICE TAG before you vote!

Your living expenses are going UP! Your present taxes are going UP! Average salaries are going DOWN! Take-home pay is going DOWN! With incomes going lower, the State's income tax revenues will go lower, too. That means these tax measures must be paid for by increased property taxes. DO YOU WANT THEM? CAN YOU AFFORD THEM? Vote NO on all TAX MEASURES!
