

"A" Bomb Movie To Be Shown at Grove Monday

"God of the Atom," a full-color scientific film depicting the atomic bomb problem, will be shown at two different places next week. The first being at 7:30 p. m. Monday at the Forest Grove Youth for Christ rally in the Forest Grove union high school auditorium, according to Albert C. Fuller, director of the rally. The second will be on Tuesday at 8 p. m. at the Bethany Baptist church, route 3, Portland, according to the Rev. Frank Frieson, pastor of the church.

In the 45-minute movie, recently produced by Dr. Irwin A. Moon in Los Angeles laboratories of Moody Institute of Science, scientific apparatus and diagrams are used to demonstrate the theory of atomic power. Then actual on-the-spot film records of the Nagasaki and Bikini blasts show the atom bomb in action.

"God of the Atom" is being shown by a special Moody film representative, R. Swanson. The film concludes with the presentation of the world crisis caused by the discovery of atomic power, and offers a unique solution to the problem. Since its release last September, an average of more than 75,000 people have seen "God of the Atom" in American schools and churches each month.

An exclusive feature of the film is a sequence portraying the giant 184-inch cyclotron at the University of California. Concrete walls have now been built around the interior of the cyclotron, which became dangerously radioactive.

Other features of the Forest Grove rally will be "Bob" Griffin of the Gospel Fliers who will bring a short message, and the Male Quartet of the Multnomah school of the Bible.

Arrangements have been made for a chartered bus to leave the Buxton General store at 6:30 p. m. Monday and stop at Manning and Banks. Large groups are expected to attend the rally from Timber, Gales Creek, Dilly, Gaston, Cherry Grove, Cornelius and Hillsboro.
