They enjoyed their trip very much, although the road home was long and rough as they both rode a newly purchased motorcycle.

New Pipe Organ Installed in Hillsboro Church

The first item in the improvement program of the Congregational church is already a reality, the new Wurlitzer organ. The instrument was installed Thursday and used for the first time at the Children's Day services Sunday. It is a two manual and pedal Clavier, having great, swell and pedal organs with almost endless tone combinations. The controls range from echo to main, augmented with expression and crescendo pedals giving the reverent cathedral organ tone traditionally associated with divine worship. The organ performed perfectly under the management of Miss Jacqueline Barney to the pleasure and appreciation of the entire congregation. The present installation is more or less temporary; the sound cabinet will possibly be relocated in favor of better reproduction.

The Children's Day service under the leadership of the junior choir and the Church school was a delight to the unusually large number of attendants.
