PTA Hears Speaker

P.-T.A. met Friday night at the school. Mrs. Otto George, program chairman, presented Mrs. Paul Patterson of Hillsboro as guest speaker on the subject "Will Federal Aid to Education Teach Citizen Responsibility?" Mrs. Patterson pointed out that although Oregon and other western states are able to support their schools without federal aid because of abundant water power which attracts major industries and has productive farm lands yielding large returns, many states in the south because of lack of industries and worn out farm land are financially unable to adequately support their schools and federal aid is a necessity. Mrs. Donnell then presided over the business session. L. Engelen, local principal, and H. Brookhardt, principal of the Sunnyside school in Portland, spoke on the importance of the proposed amendment to qualifications of voters in school elections and advised voting for bill No. 308. Mrs. E. P. Helf, president of Aloha Huber P.-T.A., told of the new study program of her organization, which is held the second and fourth Thursday each month on pre-school, elementary, adolescents and parents, respectively, and invited the Reedville group to join them. This program is heard over station KOAC at 10:30 on Tuesdays, she said. Mrs. H. Batelani and Mrs. George gave reports from the county council school of instruction, held last Tuesday in Forest Grove. Room prizes were awarded to Mrs. Brookhardt's third and fourth grade room. Refreshments were served in the dining room where Mrs. A. E. Witthoft was in charge.

The program of the group leaders, who are sponsored by the Associated Women Students under the direction of the dean of women, is to help freshmen women adjust to college environment. Their first activity was participation in the orientation week program for freshmen and new students. During the year they will have fireside gatherings to acquaint newcomers with each other.

PROTECT YOUR **PONTIAC** *WITH PONTIAC SERVICE*

The best costs no more!

Thousands of Pontiac owners all over the country have learned that regular servicing by their Pontiac dealer is the best, most economical way to keep their cars in top condition.

Our service is best for your car because our mechanics have been trained by factory experts and because we use factory-engineered parts and specially selected tools—everything geared to the one job of keeping your Pontiac at its very best.

The result is that your work is done faster—in such a sure-handed manner that it will "stay done". The cost of our expert work is no higher—in fact, is often less—than you would pay for ordinary servicing.

Our policy is very simple: *We do only the work called for*—we do it in an expert manner, we save you money by eliminating guesswork and makeshifts.

Give your Pontiac the best—have it serviced by your Pontiac dealer—for the best costs no more!

THE BEST PARTS ARE FACTORY-ENGINEERED PARTS!

Pontiac Factory-Engineered Parts are *exactly the same* as those built into your Pontiac at the factory. They always fit properly—they always perform properly and—like the best in servicing—they cost no more!

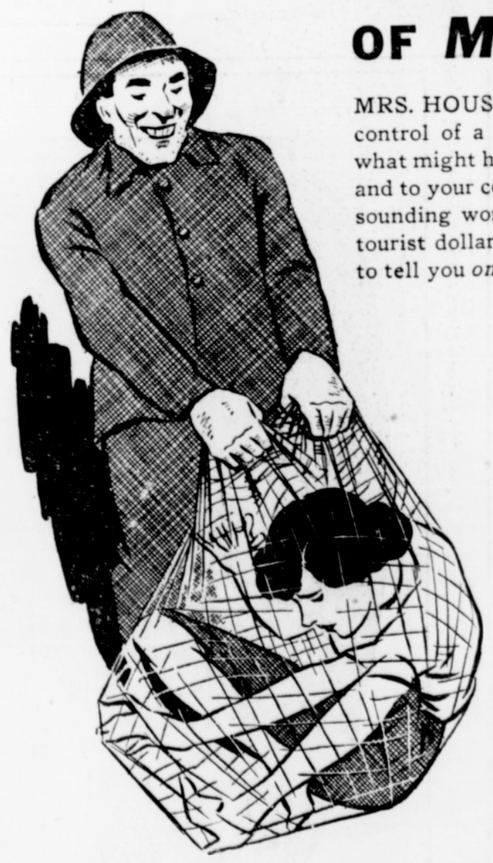
THE GILLNETTERS WOULD SNARE YOU WITH THEIR NET OF *MONOPOLY!!*



MRS. HOUSEWIFE... when *one* small group gains control of a food product's source can you imagine what might happen to the price of that food product—and to your cost of living? Throwing out a net of high-sounding words about "resources, sports fishing and tourist dollars" the Gillnetters' Union have forgotten to tell you *one thing*.

The initiative bill for the elimination of fixed gear in the Columbia River gives to the gillnetters 90% of all the catch on the Columbia River — the remaining 10% being caught by the Indians at Celilo.

The Oregon Fish Commission in its June, 1948 report, the *Oregon Voter*, and Oregon State Planning Board, all say the same thing. Elimination of fixed gear on the Columbia River does not act as a salmon conservation project—but in reality only means that *other gear* catch more and the *gillnets* will be *all* that are left.

What could happen to your food budget under a virtual monopoly? What might happen to salmon prices? You have had experience with other monopolies – what is your answer?

And bear this fact in mind—if the gillnetters did not want to gain absolute control—why would they initiate this monopoly bill? Both the state legislature and the Oregon Fish Commission have the authority to regulate all gear for salmon fishing, if it were necessary.

The bill to "eliminate fixed appliances" is *not necessary* — it only puts monopolistic control in the hands of a minority group — the gillnetters.
