NEW 1949 STUDEBAKER MODELS will go on display Friday at Busch Motor Co., 310 E. Baseline street. The company has continued the Raymond Loewy design and added new interior luxury. The Studebaker vision is especially notable in the Commander five-passenger Starlight coupe pictured.

New Studebaker Display Slated Locally Friday

New 1949 Studebaker passenger car models will be put on display here Friday by Busch Motor company, 310 E. Baseline street. The public is invited to inspect also the new show rooms recently completed by the company.

A long list of improvements in the new Studebaker is highlighted by an interior of luxury which in its modern touch produces an effect in keeping with the best in home decoration, according to A. H. Busch, dealer.

Busch pointed out that in some models the seat backs and cushions are in different and harmonizing patterns, set off by striking two-tone contrasts between upholstery and the sidewalls and headlining. In addition, he said, there is a notable stepping up in the performance of both the Champion and Commander engines.

As he pointed to the features of the 1949 Studebaker models, Busch issued a general invitation to the residents of this area to visit his new showroom for an inspection of the cars as well as to obtain an explanation of the latest improvements.

The unique, long-wearing, soil-resisting nylon fabric pioneered for automobile upholstery by the company in 1948 is continued in the Studebaker Land Cruiser but in a new colorful pattern. Alligator leatherette is used for trimming doors, arm rests and for upholstery piping in Regal Deluxe models.

Among other changes, Busch pointed to increased luggage space in the trunk, massive redesigned wrap-around bumpers and a parking brake with a push-button release to guard against accidental releasing of the brake.
