

### Bottled Goods Rocked Off Shelves By Quake at Buxton; Egg Hunt Held

By Mrs. Elva Tolke  
BUXTON—No great damage was done here by Wednesday's earthquake. The Red and White stores reported some breaking of bottles and falling from the shelves. Most people experienced a feeling of sickness and dizziness. One man, catching up with the weeds as they kept moving out of his house.

WBA today met in their hall Thursday with the bank donors. Mrs. Edna Davis, whose birthday is being celebrated, presided at the afternoon business meeting. The Ladies Aid of the Buxton Lutheran church returned home Thursday from Cambridge, Neb. The ladies left here March 8 and were accompanied in Nebraska for a time. They returned to Buxton on Monday, March 19. They started home April 8 and came through New Mexico, Arizona, Nevada, California, visited Grand Canyon and various points of interest. They visited an Indian reservation at Sinal, Arizona, where Rev. Lutz spent some time. Rev. Lutz preached to the Indians.

### Public Invited to Benefit Party

Howdy Folks: Do you suppose Joe Stalin gets mad at himself when his conscience dictates to him?

General Clay says we'll stay in Berlin in spite of Joe.

Which would indicate that when Stalin attempts to mould the future of Germany, he's working with tough "Clay."

Just as a random thought, those flaps on the Berlin air lift must feel pretty much like Clay pigeons.

Somewhere we read that what Russia wants in Eastern Europe is a blank Czech.

Well, as we've said before, Joe is the one who "mucks" best.

Just as you know what the best buy in lubrication is, it's our MARFAK Lubrication, of course!

# REAL VALUE FOR YOUR DOLLAR!

## DODGE "Job-Rated" TRUCKS ARE LOW PRICED!

Dodge value is at its highest peak in 20 years. Study the interesting chart at the left. Dodge maintenance costs are at an all-time low... due to a wealth of engineering features and advancements. In addition to features listed in the chart, consider these Dodge engineering advancements that are yours today... not one of which was available 20 years ago.

Connecting rod bearings are removable. Oil screen is of the floating, not fixed, type; a rotor oil pump replaces the old gear design. A water distributing tube increases engine efficiency.

Valve seat inserts substantially prolong engine life, increase gas economy, and reduce frequency of valve-grinding jobs. Vast improvements have been made in piston design; top piston rings are now chrome-plated, insuring better compression, longer cylinder wall life.

Famed Amola steel replaces alloy steels in springs and axle shafts. Hypoid rear axles replace the spiral bevel type, and rear axle shafts are shot-peened.

There are 7 frame crossmembers (including a channel-type bumper) instead of 4. Added features include voltage-control regulators, stepped hydraulic brake cylinders, and 35- instead of 20-ampere capacity generators.

VALUE features in the new "Pilot-House" cabs... not present in '29 models... include 7-step seat adjustment on famed "Air-O-Ride" seats; slanted "V"-type windshield; safety glass; 4-point rubber, instead of rigid mounting; 57 1/4" seat width as against 45 1/4"; outside gas tank filler, instead of under seat, and many more.

So... if you're using worn-out or "high-mileage" equipment, stop and think! Consider your present costly maintenance expense, in the light of the savings you would make with modern, advance-design Dodge "Job-Rated" trucks.

Remember, Dodge "Job-Rated" trucks... in every weight class... are priced with the lowest. Take advantage of current low prices, and switch to Dodge "Job-Rated" trucks... now!

Come in! We'll show you a truck "Job-Rated" to fit your job... save you money... last longer!
