Gym Vote Loses At Cedar Mill

By Mrs. Gertrude E. Pearson

CEDAR MILL—The bond election to provide for a gymnasium at the school which was held Monday, April 11, met with defeat. Votes cast were 76 against and 50 for the proposed bonds. Not considered by some of those opposing the measure was the program on standardization which school districts are to meet. In order to continue getting state aid, a requirement is a gymnasium. Under the present basic school equalization plan we are paying 25 mills tax instead of 18 mills. In case we do not show that we are making necessary improvements soon and we are cut on our state aid we will pay more tax without the improvements.

At the Community club meeting Wednesday evening at the school, a report by Claude Cover, chairman of the committee in schoolground improvement stated that the school property had been surveyed and that a contour map would be ready by the May meeting. It is the purpose of the committee to lay out a plan for a recreational area on the school ground. The property being considered is newly purchased by the school and still undeveloped.
