DWELLING BURNED TO THE GROUND - A fire occurred on Tuesday night, in this city, by which the dwelling of Mr. Wm. Colwell, on the corner alasm became general, so that the great body of | doubtedly pessesses talget as a "drawist." our citizens did not arrive at the scene of the conflagration in time to render any effective aid. rel, farniture, etc., in the upper rooms, w I made a clean sweep of by the flery element. Fortuntimous falling of "mist" kept everything damp. and in the destruction of it Mr. Coiwell has lost the labor of years, as it was all the property he hope that our estizens will respond liberally to the proposition to furnish him with the means to recapty handed by our pe ple.

It was asserted by per one on the ground in the early part of the fire that, if there had been an engine in discovering and developing the minobtainable at that time, the main building could eral resources of our State, well rewarded. have been savel entir ; that if we had had even a hok and latter company, the kitchen and THE ALBANY LEGISLATURE .- On main building saved. The executors of the estate of M. W. Mack, give notice to all having claims against the said estate, to present the same within six months from Nov. 21st, 1868, to them in Albany, for settlement.

The creditors of the estate of Robert Zuel, deceased, are notified by the executors, Walter Monteith and Samuel H. Althouse, to present their claims, with proper vouchers, within six months from the 23d of November, 1868, to said executors, at Albany, Oregon.

SELLING AT COST .- Mesers. Parrish & Co. advertise in our c lumus that they will sell goods at cost to close out businesss, and you can "bet say they will. They have a large stock of dry goods, clothing, etc., and it behooves everybody who need anything they have for sale, to buy while goods are going at such low figures. burn Another feature in their advirtisement it would be well to notice, and that is, the fact that they desire all those owing them to "fork over" the " scads." They actually find that they cannot sell goods on long credits and make the business Inerative-they must collect occasionally. Well you couldn't find a more deserving firm, or more accommodating gentlemen to deal with, than W. W. Parrish & Co. Now that's so.

TURNING .- If you are going to "set up house keeping," of course you need chairs, and if it really happens that you want a good chair, at reasonable figures, we advise you to look at John M. Metzler's stock, at his shop on First street, near Magnolia mills. He makes a strong, neat, durable chair, the kind to commence with. Then Nr. M. Makes a splendid spinning wheel, a regular "twister" and no mistake; and besides all this, he is "nearly lightning" on turning icters out of wood or iron-that's so. You "jest orter see" that turning-lathe work-it makes shavings of a sawlog in less than a "jiffy." Drop into his shop soon, buy a dozen or so of chairs, and see that lathe chaw up wood. It beats all.

DENTISTRY .- Dr. Geo. W. Gray expects to be absent from his office in this city the first two or three weeks of December, 1868, on professional business in the towns of Peoria and Harrisburg, stopping in each place a few days only. All persons living in the vicinity of the above named places, wishing first class dental operations, will do well to give him a call soon after his arrival, as business at his office compells him to hurry home again.

LINE COUNTY TEACHERS' INSTITUTE .- The seventh semi-annual session of this body will be held at Brownsville, commencing the 24th of December next. Various branches will be introduced and intelligently discussed, and interesting lectures, on educational topics, delivered. Teachers generally, and all others interested in educatich, should attend. For programme of proceedings, see eard in another column.

FIRE ENGINE.—We are informed by J. H. Lines, day'd, are notified to present them, competent authority, that a good fire engine, with hose carriage and hose complete, can be had for the sum of \$1,500. We are assured by the same authority deceased, David Froman and Francis L. Mack, that if an engine had been on hand Tuesday night when he arrived there, the main building could have been saved -and the saving of this building would have paid for the engine. Several citizens have offered to dig fire cisterns, at their own expense, provided the city will purchase an engine. What say our people? As we understand it, an engine cap be obtained and the city can pay for the same in two or more years-in fact, on its own term's as to the time the your bottom dollar" they will do just what they payments shall be made. GONE EAST .- The last ocean steamer that left Portland for San Francisco, carried as a passenger, Rev. Wm. Monteith. We believe it is the intention of this gentleman to take up a permanent residence in the East. He has the best wishes of many admirers and warm friends in Albany, for his future welfare and happiness.

SPECIAL TERM .- Judge Boise will hold a special term of Circuit Court for this county, commencing on December 12th, 1868, for the purpose of hearing the cause of Lyman W. Pomeroy, charged with causing the death of his wife by poison, some nine years ago.

FAVORS .- S. J. McCormick, of the Franklin Book Store, Portland, will accept our thanks for favors. McCormick's is the place to procure articles for Christmas and New Years presents.

CHURCH SERVICES .- Rev. E. R. Geary will hold divine service in the Congregational Church on to-morrow, (Sabbath) morning and evening.
