BREVITIES .- The filling up on Second

street ordered by the Council, has been commenced.

The draining of the slough between Second and Third, on Ferry, should be attended to at once.

We were visited with a slight fall of rain on Wednesday night.

week; business fair. For a sweet-smelling and neatly arranged boquet, we are indebted to the politeness of Mr. and Mrs. J. Briggs.

Mrs. Morgan has removed from First street to corner of Second and Washington, late the residence of J. B. Sprenger. It is one of the pleasantest and most comfortable boarding places in the city.

J. E. Smith has opened a restaurant on First street, in the building formerly occupied by Mrs. Smith as a millinery establishment.

So far as we know, at present there is neither tailor or tailoring establishment

Several loads of wool have made their appearance on our streets during the week. Base Ball Club meets this evening at

5 o'clock sharp, for practice. Mr. Westfall is slowly convalescing. The operatives at the sash, blind and door factory of Messrs. Althouse & Co., have been as busy as bees during the week, filling orders and finishing up new

work. The plowing match for single plows come off at the Fair grounds at 10 o'clock

this morning. Let all who can, attend. Hon. J. Quinn Thornton called on us yesterday. He is at present residing at rates. See his card. EXCELSION BRICK MACHINE .- We took oceasion to visit the brick yard of

John S. McCallister, one day during the present week, and while there examined the new brick machine, the invention of Mr. McCallister. The machine is of very simple but ingenious construction, and for the manufacture of brick is far superior to anything we have ever seen, being able to turn out 25,000 brick per day with a sufficient number of laborers to off-bear the brick. We were informed that one of these machines, worked by in to-day's paper. The genuine merit, out 12,000 brick in one day. We exam- saving vessel is causing it to become a ined a kiln containing several thousand universal favorite wherever it has been surface, neat, well pressed corners, and at Mr. Conner's and look at it. were just such brick as a mason delights to see-in fact are far superior in every way to the ordinary brick made by hand. The inventor, Mr. John S. McCallister, of this place, has applied for a patent, as we stated some weeks since, which he will undoubtedly obtain, as nothing like it has ever been invented.. One of the machines, sold to parties in Salem, on the first trial, with six hands, made 1,000 brick in 27 minutes. Of course, the purchasers are highly pleased with it. Another of these machines has been sold and forwarded to the Dalles, to Mr. Abrams, one of the contractors on the U. S. Mint, building at that place. One of these machines has also been ordered by parties in Oregon City. McCallister & Co. have several machines building and completed at this place. The price of the Excelsior at the factory is \$300, complete, mounted on wheels and ready for use. Brick can be manufactured by using one of these machines at nearly one-half less than the ordinary cost of molding by hand, and the amount thus saved would, in a few weeks' work, pay for a machine in the reduced cost of hands required to manufacture the brick. We advise persons in this line of busi- Syrup, & gallon..... ness to apply at once to J. S. McCallister

RETURNED .- Chas. Harper, Esq., has returned to this city from a protracted visit to Puget Sound and San Francisco. In his journeyings he found no place whose future prospects seemed brighter than Albany. He has returned satisfied to stay, and has brought with him a stock of new and fashionable goods, which he is now opening for the inspection of his friends and the public generally, in the building adjoining Mr. John Connor, on First street. Drop in and get a sight at the latest styles.

ing to purchase.

BOOK AGENT .- Mr. G. W. Brock is canvassing this and adjoining counties for subscribers to Alexander H. Stevens history of the rebellion, and McKenzie's Three Thousand Receipts. The latter work is said to be invaluable to farmers; of the former we cannot speak, not having had the pleasure of its perusal.

LIFE INSURANCE .- The advertisement of the Manhattan Life Insurance Company, of New York, appears in our columns this morning, C. P. Ferry, General Agent, and A. J. Gross, Special Agent. This is a number one Company, and its rates of insurance and general manner of doing business, commends it to public patronage. Mr. Gross, while acting as special agent for this company, is also prosecuting Indian war claims before the department at Washington. Persons have claims for horses furnished or lost during the Indian campaigns, which have not been adjusted, are advised to put Weather cool and pleasant during the them into the hands of Mr. Gross, who will see to their collection.

> LOST OR STOLEN .- Mr. William Me-Cov, of Brownsville, warns the pulic not to purchase certain promissory notes, drawn in favor of Samuel Wilson, in October last, by parties mentioned in the advertisement, as said notes have been lost by, or stolen from him, and that he will proceed to collect the amounts of the several notes when due.

THE MAY PARTY .- The May party on Saturday last, at Hackleman's grove. is spoken of as a pleasant affair, and quite a treat to the children Rev. H. C. Jenkins, of the M. E. Church, delivered a short and appropriate address.

House and Sign Painter .- Mr. W Knight has established himself in this city, in the building on First between Washington and Calapooia, and offers his services to any needing signs or glazing done. Mr. Knight is a first-class mechanic, and work entrusted to him will be well executed at the lowest living

PERSONAL .- We had the pleasure of a call from our old-time friend, Dr. A. D. Ellis, of Portland. The Doctor is at present business and special agent for the Imperial Fire Insurance Company, of London, one of the oldest and most responsible fire companies doing business, and in this line, as well as in everything else he undertakes, he is a success.

FOR WASHING CLOTHES .- Attention is directed to the advertisement of the "Automatic Clothes-Washer and Boiler," four hands, in this city recently, turned cheapness and simplicity of this laborof these brick, nicely burned. They were used. It will do a large washing in an very regular in size and smoothness of incredible short time, and do it well. Call

> CITY COUNCIL-Met Thursday evening, May 6th, 1869. Present, Councilmen, Nixon, Comley, Mealey, Marshall and Hackleman. The Mayor being

absent the Recorder presided. Minutes of the previous meeting were | Home Office, 39 State Street, Boston.

read and approved. On motion, the Council proceeded to hear and correct grievances in assessments, and after hearing and adjusting all claims, and making all deductions claimed, the assessment roll was accepted from the Recorder showing the amount of property assessed in the city to be 8577,077.

On motion, the tax was levied at 5 mills on the dollar for the present year. Council adjourned.
