San Francisco Legal Tender rates... New York Gold quotations...

ARRIVED.—The fire engine purchased in San Francisco for this city, has arrived, and at present is stored in Messrs. Beach & Monteith's warehouse...

PLOWING MATCH.—On last Saturday, the 8th instant, a plowing match came off at the Linn County Agricultural Association's grounds...

OPEN FOR STOCK.—We have been informed that the Willamette Valley and Cascade Mountain Wagon Road is now open for travel...

FARMERS' CLUBS.—These institutions are quite popular in the older States, and are said to be productive of a greater amount of good than anything yet originated for the benefit of the agriculturist...

NEW GOODS.—By reference to our advertising columns this morning, it will be seen that Mr. P. C. Harper, well and favorably known to most of our citizens, has opened a large stock of new goods in the building on north side of Front street...

FOURTH OF JULY.—Of course "our folks" don't intend to let the glorious Fourth go by without a celebration. In the "haulets" all around us steps are being taken to appropriately pass the day...

TROPICAL.—Monday was a snollygoster and no mistake. The mercury chalked up about 95° in the shade, while out where the sun had a fair shake, the tube of our thermometer was too short by at least seventeen miles to let the spirits have anything like a square deal...

ELEGANT.—A friend sent us an exquisite bouquet on Thursday last. It contained twenty-five different varieties of flowers. The artistic skill displayed in its arrangement, showed a rare and cultivated taste, and a subtle appreciation of the beautiful.

PERSONAL.—Mrs. Alexander starts for Walla Walla, W. T., next week, hoping that the climatic change may prove beneficial to her health.

Miss M. McMechin intends going to Walla Walla, the first of the week, to engage in teaching in that place. Bon voyage.

Mr. George Price left us on Thursday for Harrisburg or vicinity, where he will engage in "teaching the young idea how to shoot," for a period. Success be his.

W. R. Sewall, Esq., of the Cosmopolitan, Portland, called on us Friday, in fine spirits and health.

John Curry, a brother typo, swapped a few words with us yesterday. He was "macking" for home.

WOOL.—Mr. Scott, of the firm of Harild & Co., who has purchased some 10,000 sheep in this and adjoining counties, has made a sale of the wool from the sheep to Messrs. Beach & Monteith of this city.

UNFORTUNATE.—We have been singularly "misfortunate" during the week, and it has been "nip and tuck" with us to get out a paper at all. However, better luck next time—or worse.

CITY COUNCIL.—In the matter of the reception or non reception of the fire engine, the Council, on Thursday night, laid the matter over for further consideration.

GOT THE SPURT.—A Western news paper says: "Of all the Western States or Territories, Oregon came the nearest to securing the appointment and confirmation of a complete change in her Federal officers before the adjournment. There were probably between one and two thousand appointments that failed of confirmation during the regular session for want of time."

Why does the operation of hanging kill a man? asked a medical professor of his class. "Because," replied one of the All the Oregon appointments have been made and confirmed except the Indian agent for Umatilla.

Boston expects her current expenses this year to be upwards of \$7,000,000.

Washing Clothes Without Labor.

THE Automatic Clothes-Washer AND BOILER!

Does this without any wear and tear, and does the work in from Twenty to Thirty Minutes!

and will fit any stove or range. They are used extensively in the East, and the following will show how they are regarded:

From the Toledo Commercial, April 22d, 1869:—"The Automatic Clothes-Washer."—The new method of washing clothes without labor as done by the "Automatic Clothes Washer and Boiler," is attracting, as might naturally be supposed, a good deal of attention.

From the Cleveland Plaindealer, March 12th, 1869:—"The Automatic Clothes Washer."—Nothing in the way of a patent has for a long time awakened such a general interest, as the above named invention.

Manhattan Life Insurance Co., OF NEW YORK.

Assets \$5,000,000 Annual Income 2,500,000 Surplus over Liabilities LARGER THAN Any other Company doing Business IN OREGON.

Advantages to Insurers.

Smallest Ratio of mortality. Expenses less than any Cash Company. Liberal modes of Payment of Premiums. Insurers receive the Largest Bonus ever given.

All kinds of Non-Forfeiting Life and Endowment Policies Issued. Policies Incontestable. All Endowment Policies and the Non-Forfeiting Life Policies, Non-Forfeitable after one Payment.

The following are examples of the operations of the last dividend—Policies issued in 1865, only four years ago:

Table showing Age, Amount Insured, Premium Paid, Policy, and Total Am't. Includes columns for Age, Amount Insured, Premium Paid, Policy, and Total Am't.

This is an entirely new plan, giving Insurers the largest return ever made by any Company in the same period.

The Company give credit when desired, of from 33 to 50 per cent. of premiums. An illustration of the advantages of the credit system as practiced by this Company, is the case of H. C. Coe, of Yorkers, who insured his life in this Company for \$5,000, in February, 1857, paying the whole premium in cash, \$118; at the end of the first year it was impossible for him to raise the amount of the premium then due, in cash, and he came to the office prepared to surrender the policy. Being told that he could give his note for the premium, he did so. His death occurred in less than seven months. His family are now in the enjoyment of the amount insured. Had he insured in an "all cash" Company, they would have been left unprovided for.

This is, in itself, a complete refutation of the absurd statement of "all cash" Companies, that it is injurious for the insurer to have the power to give a note under any circumstances.
