"GAY" NEWS.

Farmers Can Ride and Plow.

BY SECURING ONE OF THE 'GAY" PLOWS Manufactured and sold for the very low price of

\$65 and \$75.

THE simplicity and practicability of this new Plow commends it favorably to the special notice of every farmer. It possesses a decided superiority over all other plows now in use. The wheels are four feet in diameter, and run on the unplowed land. Its entire construction is in no way complicated. The plow is managed in every manner with ease, and requires only two levers to be used in making any alteration. The superiority of the "Gay" Plow will be clearly shown by the following certificate:

We, the undersigned, citizens of Linn county, Oregon, having purchased and used upon our farms the "Gay" Plow, hereby certify that the same has given us entire satisfaction. Its facility for adjusting to suit the depth of furrow without for adjusting to suit the depth of furrow without moving from the seat, is simple and easy. We like the plow for its draught, because the same is brought to bear directly upon the plow-beam instead of the carriage; also, because it is strong and durable, all except the wood-work being constructed of wrought iron—no castings are used. The wheels running upon the solid land is an advantage over other gang-plows in striking off vantage over other gang-plows, in striking off land and in plowing, not having to make the necessary changes in the machinery, and the seat is always level, not throwing the driver forward or sideways as in other plows. Better work and more of it can be accomplished by the use of this

Plow than by hand.

We take pleasure in recommending the "GAY"

Plow to our brother farmers, as one having no A. S. LOONEY, W. H. GOLTTREE. E. W. PIKE, H. DAVIDSON.
