ENLARGING .- We intended to enlarge the REGISTER the present number to the extent of four columns, but could not obtain the needful help. "No preventing providence" this journal will appear next week as a twenty-eight column paper. We should very much like to increase the size still more-say to a thirty-two column paper-and if our friends desire it, they have only to make it known by sending in new subscribers. We have been treated in that line very fairly of late, and if our friends continue their exertions in our behalf, we shall soon have a list that will justify us in the outlay consequent upon such enlargement. Send them in. No better time than now, at the commencement of the volume.

DAILY REGISTER .- The first number of the DAILY REGISTER will appear on Tuesday morning. Persons wishing it left at their places of residence or business houses, will please give their names to "Star," who will call on them to-day. Persons wishing to bring their business prominently before the people of Linn county, can insert advertisements in the Daily on the most reasonable terms. Advertisements should be handed in today or by Monday noon. This is an opportunity that no business man will miss.

CIRCUIT COURT .- Linn County Cireuit Court convenes on the 25th of next

PARTLY CORRECT.-The Sacramento Union, of last Saturday, among the awards of premiums at the California State Fair, prints this: "John Barrons, of Lynn county, Oregon," two first preon Club wheat. If the name had been printed John Barrows, Linn county, Oregon, the item weuld have been about correct. Somebody must have been after the Union.

Sold.-The Steamer Ann was sold by U. S. Marshall Young, at Corvallis, on Wednesday last, for the sum of three thousand eight hundred and twenty-five dollars. It was bought in for the Long Tom Navigation Company, says the Corvallis Mercury, and will be put, into the Long Tom and Willamette trade, as a freight and passenger craft.

EGGS WANTED .- Mr. B. Brenner offers thirty cents per dozen, for the next thirty days, for fresh eggs. He is also receiving a fine stock of fall and winter dry goods, etc., which he is offering at the very lowest prices for eash or produce. While visiting the County Fair, don't fail to give him a call, and examine goods and prices for yourselves.

INQUIRIES .- Persons often call at our office to inquire where they can purchase farming lands-who has a farm for sale. If persons living in Linn county, who have farms for sale, will leave their direction, the number of acres and quality of land they have for sale, we will be in a better position to answer such inqui-

COUNTY FAIR .- As the time approaches for opening the County Fair, the excitement grows more intense; and, judgng from the talk, should the weather not prove stormy, the Fair of '69 will discount all previous fairs in every respect. We are a progressive people.

NEW Goods .- Who would not dress fine when they can get a a bran new suit, vest, pants and coat, for \$22 50 ?-nice clothes, too. Messrs. Blain & Young's got 'em, and slathers of new goods just up from Frisco, besides. Now is the time to get that new suit for the Fair, awful low. Go in to day, and pick 'em out.

Notice.-Stewart P. Brock, administrator of the estate of Alvin M. Brock, gives notice to those having claims against the estate, to present the same within six months from the date of the advertisement, which sec.

Horses .- Quite a large number of animals in the horse line have been in the course of training at the Fair grounds for the past few weeks, and it is more than probable that this department of the show will be better represented than any other, next week. Let 'em went.

How ABOUT IT ? .- Who is going to try for the premium offered by the L. Co. Ag. Society for the best Velocipedist. Rumor has it that some of the Salem boys intend carrying off the prize. Don't

RAILROAD .- The Oregonian says that 500 tons of railroad iron, for the East Side, is now on the way to Portland from San Francisco by the Falkinburg and Almatia. A lot of material consisting of car wheels, spikes for the rail, etc., together with a hoisting engine for constructing bridges, are already on the ground.
