NEW DECG STORE .- To-day we present the card of Messrs. A. Carothers & Co., druggists, Bartram & Fanton Sewing Machines, direct who have established themselves in the house formerly occupied by the late firm of P. Spink & that they are simple in construction, easily under-Co., (of which Mr. C. was a member), dealers in stood, make an elastic stitch, fasten their own stoves, etc., where they have opened out a neat stock of drugs, perfumery, patent medicines, and about on castors, (a convenience no other maall other articles usually kept in a first-class drug chine possesses), have extra attachments for all establishment. The senior member of the firm is kinds of fancy work, and are always in running a thorough and practical business man, a firstclass apothecary, and having heretofore pursued a liberal policy in the transaction of business, has without noise, will not soil the operator's clothes, built up a reputation that will prove extremely beneficial to him in the new enterprise. As the new store will be kept open night and day, it will prove a great convenience to our citizens. Read their card.

FROM BROWNSVILLE. - From a resident of Brownsville, who called on us Wednesday, we learn that business is very fair, and that the health for this time of the year, is better than usual. A committee is appointed to meet in Brownsville next Saturday, to take the necessary steps for the formation of a temperance party. The committee is composed of men of both political parties, and one of the planks in the platform of the new party will be to support no man of either of the political parties-Damocrat or Republican-whe uses or favors the use of alcoholic stimulants as a beverage. Growing crops are reported in splendid condition, giving promise of a large yield. From the same gentleman we learn that, on last Sabbath, Mr. Robert Cochrane, of Lane county, was united in marriage to Mrs. America Howe, of North Brownsville. The roads are reported as very "heavy," and the present delightful rain-fall is not calculated to make them "lighter." Plowing, which had only fairly commonoed, has succumbed to the before-mentioned rain-fall.

KNITTING MACHINE.—As will be seen by ref-erence to our new advertisements to-day, Messrs. S. S. Markham & Son, of this city, have been appointed sgents for the sale of "Essick's Cli-max Kuitter." This is one of the simplest ma-chines yet constructed to it. " chines yet constructed in its line-one of its chief recommendations. It will knit a man's sock in thirty minutes, making the regular old-fashioped knitting needle stitch, or loop, with several others, if desired. It narrows or widens at the option of the operator—in fact, making a com-plete sock, and you are not compelled to sow in the heels and toes as with other machines. It is made entirely of iron and steel; its extreme thers, if desired. It narrows or widens at the length but 121 inches, its greatest breadth but 5 inches, and its weight but six pounds. It can be held in the hand, or attached to the table by the all on them. Read the advertisement and go and examine the "Climax Knitter."

Sr. VALENTINE'S DAY.-By the unanimous consent of McCormick, Monday, the 14th day of February, is set apart for the special use of St. Valentine, and we expect our young people will generally take advantage of the privileges granted on said day, in sending and receiving poetic and prose effusions. Ed. Freeland, at the post-office book store, has a large list of comic and senti-mental valentines, which he will call at low prices. First come, first cerved.
