THE COMING IMMIGRATION .- Mr. A. J. Dufur, who arrived at Portland on the Ajax during the week, from a visit of several months' duration to the East, informs the Oregonian that he has visited all the New England States, except Maine, all of the Middle States, all of the Northwestern States, except Minnesota, and spent several weeks in the Canadas, during which time he has seen and conversed with a great number of people, all of whom were anxious to learn something with regard to Oregon. His main efforts were directed toward showing the substantial men, of ample or moderate means, the advantages possessed by Oregon. He made no effort whatever among what might be termed the floating class-men who can pack their carpet-bags and start at a moment's notice. He gives it as his impression that the immigration during the Summer of 1870 will be largely in excess of any heretofore, and that the body of this immigration will be made up of substantial men, who come here to better their condition, and make a future home. This is the kind of population Oregon wants; men of energy, bone and muscle, who will go to work at once and help to develop and enrich the State. Let them stead of laying hold of present opportucome.

WILL THEY COME ROUND ?- Democrats who have used their influence and expended their money in times past, are now loud in their denunciation of the way matters are being managed, and threaten to desert the party if certain persons are nominated in Convention. As it is pretty certain that the candidates to whom they at present express so much aversion, have the strength and will be nominated, will they go back on what they have said, falsify their words, and vote the ticket without a "scratch ?" We are a little interested to know how much independence they possess, and whether, after being the main pillars of the party for years, they will now quietly and meekly consent to ke kicked aside as useless cumberers, by those, too, who have contributed less than nothing to the success of the party. Time will tell. OUT OF GRUB .- A purveyor for one of the parties of Democrats colonized in Benton county, came into this city the other day, and announced that his crowd rupted by the storm. were out of meat, and he wanted to be supplied on credit until after election. When told that the shop was not selling meat on that "lay out," he said that was the understanding-he was to be furnished with "grub" on credit until after election, and they were out and he must have a supply. If our Democratic friends wish to keep their bands of colonized voters from roaming, they must be a little more liberal with their cash, and keep the boys supplied with eatables. Don't, by your niggardliness, starve these fellows widow and children. out, else they may "throw off" on you.

CONVINCING LOGIC .- A comparison of the first year of President Grant's adnomical of Andy Johnson's, shows the Letter": receipts from internal revenue, with diminished taxes, to have been \$20,000,-000 more, and the government expenses \$60,000.000 less,under Grant than under publican Central Committee, held at Portland, Johnson. These figures are convincing, glare of a midday sun, for some hollow

All railroad lands must now be for Avery, which caused some of the dollars and a half per acre; and yet the Democracy in this county to boil over Democracy would prohibit actual settlers with indignation. Grover's chanches for the privilege of paying that price per the nomination seem to be cheering at acre with a railroad improvement, and

THE TWO PARTIES COMPARED .---Here is a comparison of the intents and diate this pretended friendship of the fills the bill :

While the Republican party addresses itself to the living present and proposes a truly American policy which looks to development of the country and its great future possibilities, the Democratic party presents itself as a clog and obstruction in the way of advancement; and, innities and helping to work out the destiny of the country, it expends its energy in a fatuous attempt to revive political uestions forever setded, and to undo what it could not prevent being done. Can such a party long survive on such a basis? Can these dry bones live?

NEW REPUBLICAN ORGAN .---- It is an-nounced that the Corvallis Gdzette has been purchased by Republicans of Benton county, and that hereafter it will espouse true Republican principles. Mr. S. L. Simpson, a young Oregonian of marked ability, will have editorial control of the columns during the campaign. We congratulate the citizens of Benton on their possession of an able champion in the cause of right and truth, and give the new paper a hearty welcome.

HEARD FROM .- General Jasper W Johnson, formerly of McMinnville, has wandered off into Douglas county, where he attempted to address the bed-rockers on the fourteenth and fifteenth amendments. The Roseburg Ensign, speaking of the effort, says : "As nearly all the Democratic papers in the State have prononneed this man a fool, we suppose the speech was intended as a burlesque on political oratory."
