THE DRY GOODS FIGHT IN NEW YORK .- Eor several days a desperate fight has been going on between Stewart and Claffin, the kings of the dry goods market. Stewart started it by "marking down" below Claffin's figures. Claffin followed suit; Stewart cut down again; then Claffin; then Stewart; then Claffin again; then Stewart once more, and so the war has gone on for a week. Dry goods men tell me they never saw the market so excited as it is by this war between the two great houses. Both parties are selling at prices that are absolutely ruinous. Trade was so disturbed by their operations that the agents of the different mills held a meeting and decided not to sell to any one except at a certain fixed price. Stewart had been selling some lines far below the agents' priees (losing heavily of course,) and they thought to steady the market by giving Four hundred tons of Golden Chariot notice that they would not sell to any of its great prospective importance to the ore, crushed during the month of Feb- man who attempted to undersell them. ruary, yielded \$35,050-nearly \$90 per Stewart continues his "bear" operations, however, and the excitement is rising to tem of railways which is to build up and Pack trains and teams are in demand a fever. He has demoralized the markeventually make Oregon one of the first to transport freight from Kelton to variet to such an extent that it may take some weeks to restore steadiness. Several lines of seasonable goods are now going at a reduction of 30 to 40 per cent. from last week's prices. The fight is characterized by outsiders as "throat-cutting." Stewart's pugnacity and capital will carry him through, but houses not so strong as his will probably go by the board before the storm blows over .- N. Y. Cor. Boston Journal.

To the citizens of Albany and vicinity, and to the owners of Real Estate: We take this method of calling your attention to our place of busi-ness. Having determined to open a Branch Ofness. Having determined to open a Branch Office in your city, we can offer you a medium for obtaining purchasers—one that is appreciated by buyers, as it saves them much time and labor in searching for what they want. Our principal Agency, at Portland, Oregon, is thoroughly established, and the office so well furnished for giving information upon Real Estate, that it affords the most complete facilities for all parties having business in our line.

BY You incur no expense in placing your property on sale with us unless a sale is made.

CLIMAX KNITTER! N presenting the claims of this NEW KNIT-TING MACHINE to popular favor, we aim at no more than a brief and candid statement of

its actual merits. We confidently claim that the CLIMAX KNITTER is superior to all other mahines in the follwing respects : 1. Simplicity of construction and operation

2. Completeness and excellence of work.
3. Convenience of shape, size and weight of machine 4. Durability of machine.
5. Rapidity of work.

6. Cheapness. It is so simple in its construction and in its workings, that less than half the time is required to learn to knit on it than on others. With it the children of the household can do all the knitting. It is made entirely of iron and steel. A man't sock can be made in thirty minutes. It makes the regular old old-fashioned knitting needle stitch or loop, (with several others if desired); turns the heel, making it of as good shape as by hand, without any sewing; narrows or widens, at the pleasure of the operator, and makes a perfect toe. Any article that can be knit by hand,

an be manufactured on this machine.

Persons who wish to see the machine in opera tion, are requested to call on the agent in this city S. S. MAREHAM & SON, Agents for Oregon
