**CLIMAX KNITTER!**

Presenting the claims of this NEW KNITTING MACHINE to popular favor, we aim at no more than a brief and candid statement of its actual merits. We confidently claim that the CLIMAX KNITTER is superior to all other machines in the following respects:

1. Simplicity of construction and operation.

2. Completeness and excellence of work.

3. Convenience of shape, size and weight of machine.

4. Durability of machine.

5. Rapidity of work.

6. Cheapness.

It is so simple in its construction and in its workings, that less than half the time is required to learn to knit on it than on others. With it the children of the household can do all the knitting. It is made entirely of iron and steel. A man's sock can be made in thirty minutes. It makes the regular old-fashioned knitting needle stitch or loop, (with several others if desired); turns the heel, making it of as good shape as by hand, without any sewing; narrows or widens, at the pleasure of the operator, and makes a perfect toe. Any article that can be knit by hand, can be manufactured on this machine.

Persons who wish to see the machine in operation, are requested to call on the agent in this city.

In fact, almost everything usually kept in a retail store.

Having bought our goods on the best terms the market will afford, and selected them with great care, we feel warranted in saying that we can offer as great inducements to customers as any house in the trade, and hope, by strict attention to business and the wants of customers, to merit a liberal patronage from the public.

Remember the place! The house formerly occupied by D. Mansfield & Bro.
