U. S. Official Paper for Oregon.

SATURDAY, JUNE 11, 1870.

LATEST NEWS.—From the best information at hand as we go to press, we will have a little over three hundred majority, in the valley and coast counties, to pit against the eight hundred and odd majority received by Smith in the Eastern counties two years ago. The Republican majorities are: Marion 300, Multnomah 410, Clackamas 67, Yamhill 22, Washington 135, Clatsop 71, Benton 25—1,040. Tillamook, Coos and Curry may possibly augment this majority 150, which would give us a total of 1,190. The Democratic majorities are: Linn 244, Lane 220, Douglas 40, Josephine 40, Jackson 250, Columbia 11, Polk 40—845. Nothing definite has been received from the counties east of the mountains, but the probabilities are that the Democratic majorities will reach five hundred, which will elect the ticket by a small majority.

In the Legislature we have twenty members of the House and nine of the Senate, so far as heard from. We may secure a member from Umatilla and the Grant delegation.

RESULT.—Contrary to the expectations of those who ventured their two dollar gold and a half pieces on the success of the Republican State ticket on Monday last, Democratic seems to have been the favorite ticket from some unexplained cause. In fact the Democracy claim to have majorities ranging all the way from 350 to 800. We are rather inclined to the opinion, from the news that has reached us, that this claim of our political enemies is pretty well founded. The majorities may be smaller than the smallest or larger than the largest claimed, as, from the way we are informed Democratic judges and clerks of the election, in some counties, performed their duty, no majority is too large for them to attain. They went in to *win*, no matter at what cost. If the reports of the outrageous and unwarranted conduct of Democrats having charge of polls in some of the counties east of the mountains prove true, we shall not be surprised to hear the majorities they now claim more than quadrupled when the full returns are received. There is a slight hope that Jo. Wilson may be elected to Congress, but it is more because we wish it than for figures to show for the faith that is in us. If it proves on a full count that we have lost Judge Wilson, then we have only elected the Judge of the District, R. P. Boise. With the loss of Douglas county our hope for the Legislature vanished in thin air. As near as we can remember, without mincing matters, we are radically beaten, and our only consolation is to be found in the hope that two years hence we will return the compliment, only in a more radical and decisive manner. We are beaten but not disheartened.

The committee of Congress on Retrenchment has discovered that during our civil war, and while we were assisting the Mexican Government to drive away its foreign invaders, that same Mexican Government was carrying on a systematic plan of smuggling goods to and fro along the border, taking cotton into Mexico and in return supplying the Confederates with arms and ammunition. There has been a great deal of false sympathy wasted on this so called "Republic of Mexico," and the good turns done them by our people have been repaid with evil. People who have returned from a residence in Mexico, declare that the people of that country manifest their hostility to Americans whenever opportunity offers. Uncle Sam will have to teach them one more lesson, which will prove a lasting one.

The Chevalier ship canal project, for constructing a canal through the Isthmus of Darien, is likely to meet with a backset. It appears that the United States Government has a prior franchise from Nicaragua, obtained by a treaty signed by Mr. Seward in 1867, and one which the Nicaraguans could not sell a second time. This is the only franchise worth having in their dominions; and they appear determined to make the most of it, by selling it over and over again to whoever will purchase. The Chevalier sale is said to be the fourth one on record.

A grand hotel is to be built in the Yosemite valley, facing the Bridal Veil falls, by a company of French and English capitalists. It is supposed that a large French house in San Francisco is interested. A large force of men are likewise at work on the Mariposa and Yosemite turnpike. This road is expected to be finished by the middle of July next Travelers then will only have twenty miles of horseback riding to reach the valley.

The new Constitution of Illinois provides that "every person" who obtained a certificate of naturlization before Jan. 1, 1870, shall be entitled to a vote, and as the Naturalization laws admit of the naturalization of women, there are those who contend that such women can vote under this clause.

INCOMES.—The rate of taxation on incomes is reduced from five per cent. to three, and all incomes below two thousand dollars are exempt from taxation.

ELECTION RETURNS.

Following is the vote polled in Linn county on Monday, taken from the poll books as certified to by the judges and clerks of the different precincts. As we have not time this week to give them in tabular form, we merely give the majorities:

STATE TICKET.

For Congress—Jas. H. Slater 244 majority.

For Governor—L. F. Grover 265 majorit.

Secretary of State—S. F. Chadwick 201 majority.

Treasurer—L. Fleischner 316 majority.

Printer—T. Patterson 260 majority.

JUDICIAL TICKET.

For Judge of the 3d Judicial District—B. F. Bonham 265 majority.

For Prosecuting Attorney—N. L. Butler 354 majority.

COUNTY TICKET.

For State Senators—R. H. Crawford 247, and E. Holt 255 majority.

For Representatives—Geo. R. Helm 244, W. F. Alexander 240, Thos. Munkers 255, John Ostrander 246, Wm. S. Elkins 242 majority.

For Judge—J. J. Whitney 196 majority.

For Commissioners—Martin Payne 229, James Wheeler 241 majority.

For Sheriff—R. A. Irvine 280 majority.

For Clerk—A. C. Jones 89 majority.

For Treasurer—Jas. Shields 253 majority.

School Superintendent—T. J. Stites 214 majority.

Assessor—Jas. B. Sperry 244 majority.

Surveyor—Thos. Riggs 242 majority.

Coroner—Wm. Q. Stewart 248 majority.

It is unnecessary to remark in this connection that all the above named gentlemen are Democrats.

THE OREGON RAILROAD.—The Marysville *Standard* of May 21st says: Work progresses rapidly on the line of the California and Oregon Railroad. Four hundred and forty laborers are at work, and iron rails were laid, on the 19th instant, within one mile and a quarter of Nelson's Station V— and the grading completed about a mile north of this point. But notwithstanding the rapid progress, the V will be finished so as to enable passenger trains to run to Nelson's before next Thursday or Friday. There yet remains about six miles, which are partially graded, and one mile not broken. The pile-driver was removed on the 19th instant to the slough (branch of Butte creek), and it is anticipated that a passenger train will enter Chico on or before June 15th.

REMEDY FOR POISONS.—If any poison is swallowed, drink instantly a half a glass of cool water, with a heaping teaspoonful each of common salt and ground mustard stirred into it. This vomits as soon as it reaches the stomach. But for fear that some of the poison may remain swallow the white of one or two eggs or drink a cup of hot coffee—these two being antidotes for a greater number of poisons than any other dozen of articles known; with the advantage of their being always on hand; if not, a pint of sweet oil, lamp oil, drippings, melted butter or lard, are good substitutes, especially if they vomit quickly.

The editor of the Mobile *Reytster* relates that when he was in Washington, in the spring of 1861, as one of the Confederate Commissioners to Mr. Lincoln's Adminirstration, he met Gen. Goicououria, with a puzzled smile on his face. As they grasped hands, he said: "You are very queer people in this country. Here you are in the South in a revolt against the Washington Government, and I find you a representative of the *pronunciamento*, quietly walking the principle avenue of the capital of the power against which you have rebelled Why are you not in prison? Why don't they garrot you?"

City of Mexico dates to June 1st have been received, and report the Guaymas revolution ended for the present.

Violent earthquakes have occured in the State of Oaxaca, and in the city of that name 103 persons were killed, and 53 wounded. One third of the city is uninhabitable. The earthquake extended to the miners where 11 persons were killed and many wounded. Buildings in all parts of the State are destroyed.

There is a family of nine brothers and sisters in Maine whose circle has never been entered by death. The youngest is now sixty-three and the oldest seventy-nine, and their united age is 661 years. They have eighty children, 114 grandchildren and fifteen great grandchildren. The Showhegan *Reporter* is responsible for all these statements.

The news of a recent massacre of Jews in Roumania, received in this country, is disbelieved in London. The Continental News Agency of that city deny that any such massacre has occurred.

Gen. Espartero is credited with saying that he will refuse the crown of Spain, even if the Cortes offers it to him.

Horace Greeley was reported very ill on Monday, and serious fears were entertained of his recovery

A San Francisco dispatch says the recently arrived party of Bostonians, returning from a sail around the harbor, which did not extend to Vallejo, repaired in mass to Landberger's champagne cellars where Arpad Harathzy spent two hours in explaining the complete process of champagne making in all its stages. None of the party drink intoxicating liquors, but 100 bottles of champagne were consumed in illustrating the condition of the wine in its various stages.

The St Joseph (Mo.) *Herald* is apparently not very well satisfied with the Governor of that State. Understanding that he is making some efforts for a renomination, it remarks that "although he is acknowledged to be the best, greatest and most brilliant Governor Missouri ever had or ever can have, yet almost all of the people in its part of the State have made up their minds to submit to the sorrow of attempting to get along without his valuable services after this year."

CONGRESSIONAL.—Hale's amendment, making exemption of $2,000 was adopted by 138 to 52. Judd's amendment, to confine the tax to invested capital, and Potter's amendment that the income tax cease after 1870, were rejected. Fenkleburg's amendment was adopted, limiting allowance for house rent to $500.

The debate on Beck's amendment, taxing Government bonds was very sharp principally between General Butler, Beck and Eldridge in favor of, and Schenck against. The latter denounced the proposition as flat reupdiation. Twenty nine Republicans, among whom was Sargent, voted in the affirmative.

FEMALE EMPLOYMENT.—The Parisian dry goods employers decline hiring the female element, on the ground that shopping is done nearly entirely by females, who prefer to purchase of males, as woman have little confidence in women, and that an adroit salesman can pass off upon women the worst merchandise where women would fail. This is an assertion which the woman's rights folks ought not to allow to go forth uncontradicted.

BLEEDING from the nose is always regarded as an unwelcome event, yet in the opinion of Dr. Hall, it always is beneficial, preventing headache or more serious illness, and sometimes arresting apoplexy or sudden death. Therefore it should be immediately arrested by applying a mustard plaster between the shoulders.

In one of our large cities, a short time ago, a Western editor was met by a friend, who taking him by the hand, exclaimed; "I am delighted to see you. How long are you going to stay?" "Why, I think" said the editor, "I shall stay while my money lasts." "How disappointed I am," said the friend, "I hoped you were going to stay a day or two."

"Dr. Mary Walker," says a Brenham (Texas) paper, "made her *debut* in the court-house to lecture upon her favorite theme, the equality of the sexes. Only one lady was in attendance. The speaker, after a few preliminary remarks, became so offensive—predicting that, in the social and political development of the age, ladies in the South would soon think nothing of marrying negro men, and especially those who had been elevated to official positions—that at this part of the programme four fifths of the audience left in disgust. The door keeper, too, having imbibed in too much 'tanglefoot,' was about this time *non est inventus*, and there was a general 'confusion worse confounded.'"

An analysis of the vote in the House on the proposition to abolish the income tax, shows that thirty Republicans and twenty eight Democrats voted for, and one hundred and nine Republicans and seventeen Democrats against.

Advices from Rome report a violent scene in in the Council between Bishop Marvel and Cardinal Bells during the discussion on Infallibility. The bitter language created much excitement.

A man said the only reason why his dwelling was not blown away in a late storm was because there was a heavy mortage on it.

Miss Clare Burton, a jig dancer now performing at the Adelphi Theatre, Boston, is not only a very exemplary lady, but also a member of a church.

The meanest man in the world lives in Chicago. He stole his wife's false teeth, and then got a divorce on account of her "physical defects."

A San Francisco correspondent writes: "By the last Panama boat there arrived a lady whose life is the centre of a century's tragedy—a lady whose constancy and devotion will be the theme of future homes, and far eclipse the fame of fabled Penelope. A cruel rumor, started some month ago, by a city paper, that a waif had drifted ashore near San Diego, containing mementos of the arctic heroes, reached her at Rio Janeiro, and so she hastens to San Francisco; distance, fatigue, age, all forgotten, in the wild hope that the sea may have revealed one of its sorrowful secrets. Poor lady! Eighty years old; twenty years desolate; still clinging with a heartsick longing to the idea that the ocean will yet tell the mystery of the past.

BREVITIES.—The age of reason—that in which you always give one.

Grit is better in the character than between the teeth.

The person who had a finger in the pie was a cook.

The man of iron will has gone into the foundry business.

Never eat a "square meal." You may choke in trying to swallow it.

If silence is wisdom, why isn't laziness ability?

Eating house keepers are accustomed to see people with open countenances.

A prominent Rad in this city eats radish regularly at every meal.

The "inner man" is often hinted at in accounts of banquets. Who is he?

Chinese tailors never observe the fitness of things—or at least of patrons.

The man who kept a steady eye to business for several years squints badly.

The man whose belief was staggard is thought to have previously taken something.

Tom Hood says that all bald men are respectable. The roll of respectables in this country must then be gratifying by large.

Angling doesn't pertain exclusively to fishermen. Politicians, wife hunters, clergymen and many others, high and low, practice it as regularly as cocks crow or duns dun.

It has turned out as we surmised some time ago in regard to the management of the election in Wasco county. The Democrats had every judge and clerk of election in the county. They were predetermined to use their power, and did use it. First, they refused on the most trivial and unfounded pretext to receive votes. Men were ruled out who had the most undoubted, lawful right to vote. No Republican was allowed to be inside where the votes were received, and after the polls were closed the canvassers deliberately threw out a large number of votes This was the manner in which the "election" was conducted. Persons who were at the Dalles on that day state that the Republicans would not have been allowed to carry the county if there had been two hundred more of them who were legally entitled to vote. They who "managed" the thing were resolved to succeed in their purposes at all hazards. We shall be much mistaken if a Congressman or a Senator, "elected" by a fraud of this description, will ever obtain the seats they covet."—*Oregonian.*

The new constitution of Illinois, which is about to be submitted to a vote of the people, contains restrictions upon taxation and State and municipal expenses which are quite as stringent as the similar restrictions in the constitution of Oregon. The credit of Illinois, in case the constitution is adopted, cannot be pledged beyond the amount of $250,000, without an express vote of the people to that effect, except in cases of invasion or insurrection. The debts of counties, cities and towns are limited to five per cent. of the taxable property therein. The State is forbidden to "pay, assume, or become responsible for the debts or liabilities of, or in any manner give, loan, or extend its credit to, or in aid of, any public or other corporation, association, or individual." The same prohibition is extended to municipalities, but is to be the subject of a separate vote. Experience in Illinois has shown that restrictions of this sort are necessary to the public welfare.—*Oregonian.*

Williams has introduced a joint resolution authorizing the Secretary of the Interior to increase the compensation of Assistant Marshals, for taking the census, fifty per cent.

While regretting that the *Chicora* was prohibited from passing through the Sault Ste. Marie Canal, the Ottowa *News* protests against the adoption of retaliatory measures, as calculated to do much injury in the end. It also adds: "We should remember the interest of the Imperial Government as well as our own, and Great Britain has already enough unsettled disputes with America without our rushing her hot haste into new ones.

RELIGIOUS.—The Congregational Association of Oregon will meet on the 16th inst. (Thursday next), in this city. Ministers and others wishing to attend will be passed at half fare on the P. T. Co's. boat.

SODA.—Larry Mulligan made his appearance in our office, just as we were going to press, loaded down with soda in bottles. It makes a pleasant drink this warm weather, and we drink to Larry's health. Here's to you, Larry.

BERRIES.—Master Charles Elkins yesterday made "the office" a present of some fine large strawberries. Charley is quite a little man, and is as smart as a steel trap. Thanks, Charley.

THANKS.—We are under obligations to Messrs. Geo. R. Helm, A. N. Arnold and A. C. Jones for favors.

WASHINGTON TERRITORY.—Latest dates assure the election of Mr. Garfield by a large majority.

THE LINN COUNTY TEACHERS' INSTITUTE—Was attended by a fair representation of the citizens of the county, and was characterized with unusual interest. The addresses delivered by Rev. E. R. Geary and Rev. Mr. Butcher were able and instructive. The discussions were marked with a generous good feeling, and with a zeal that showed an earnestness in the couse of education. A new Constitution was adopted, changing the name to the *Linn County Educational Society*. The principal object of the Society, according to the Constitution, is to furnish opportunities for free exchange of opinions among its members concerning school government, disputed points in any branch of education, different text books, and all other subjects calculated to promote the cause of education. The following resolutions were adopted, some of which called forth spirited discussions. *Resolved*, That it is the opinion of this Institute, that the clause in the school law, requiring Teachers to give public examinations on the last days of each quarter, and inviting the County School Superintendent to be present should be abolished. *Resolved*, That the school law should be so amended, as to make it the duty of the directors of school districts, to levy such tax upon the property of their districts, as may be necessary to enable them to make such provision for schools and school houses, as is now required by the law. *Resolved*, That the reading of the Bible should not be prohibited in our common schools. *Resolved*, That the thanks of this Society be tendered to Rev. E. R. Geary and Rev. Mr. Butcher, for interesting and excellent addresses; and also to Miss Mary Williams, Mr. F. M. Gray, Miss Alice Gray and Mr. H. C. Phillips, for the reading of essays; and also to the citizens of the vicinity, for their kind and generous hospitality. The officers for the next session, were chosen to fill the following places; Rev. E. R. Geary, President; J. V. Crawford, Vice President; N. H. Clayton, Secretary; Mr. Silsen and J. W. Mack, Executive Committee.

Adjourned to meet, July, 1871, at Leabanon.

PERSONAL.—Our old townsman, J. B. Sprenger, the popular and energetic proprietor of the Cosmopolitan Hotel of Portland, called on us Friday morning His hosts of friends here were pleased to see him looking so handsome and happy. The Cosmopolitan in Jake's hands is doing a "land office business." Success to Jake.

CHANGED HANDS.—The grocery establishment lately known as F. M. Redfield & Co's., has changed hands, and is now owned by Mr. Du Bois, whose card will be found in to day's paper. This gentleman proposes to keep good the former reputation of this house, and invites all old customers to call upon him and as many new ones as will. We can recommend him as a prompt business man.

FLATTERING.—The vote polled for Geo. R. Helm, Esq., is very flattering indeed, considering the great exertions in certain quarters (by Democrats) made to defeat him.

MARRIED.

In this city, June 8th, 1870, by A. N. Arnold, J. P., Mr. Theodore Burmester and Miss Dana Humphrey, both of this city.

Compliments received.

SLANDER REFUTED!

TRUTH VINDICATED!!

How Jones, or "any other man" voted in 1862 is a question of very little moment to most people. Whether Irvine or Richardson, both of whom are said to have filled the office of Sheriff acceptably in the past, shall exercise the functions for the ensuing two years, concerns us but little; but *the question* in which everybody has an abiding personal interest is—Where shall we buy our goods? Where can we get the greatest return for our money? Who can be right prices down to the lowest living rates and kept them there? Ask these questions of any one who has taken the trouble to investigate, and you are certain to get this reply—At Wheeler's store, in Brownsville. Wheeler is the man who is entitled to your encouragement and support. You who are wise will do well to heed the reply, and maintain and support the man who broke the combination. All kinds of country Produce taken in exchange for Goods. New Goods received every week. Cash paid for Wool, Bacon and Lard. Plows, Reapers, Mowers, Threshers, and other agricultural machinery for sale. Go and see them.

PAIN KILLER
PERRY DAVIS & SON PROVIDENCE R. I.
PROP.'S
1840 1870

The Great Family Medicine of the Age.

THIRTY YEARS

Have elapsed since the introduction of the Pain Killer to the public, and yet at the present time it is more popular and commands a larger sale than ever before. Its popularity is not confined to this country alone: all over the world its beneficial effects in curing the "ills that flesh is heir to," are acknowledged and appreciated, and as a PAIN KILLER its fame is limited to no country, sect or race. It needs only to be known to be prized.

THIRTY YEARS is certainly a long enough time to prove the efficacy of any medicine, and that the PAIN KILLER is deserving of all its proprietors claim for it, is amply proved by the unparalleled popularity it has attained. It is a SURE and EFFECTIVE remedy. Sold by all Druggists.

Price 25cts, 50cts, and $1 per bottle.
