

JUDGE BOISE.—By a kind of political juggling, played very low down, Judge Boise was very nearly defeated. And although it is somewhat humiliating, after having performed the duties of Judge in this district and on the supreme bench for twelve years with such universal satisfaction to all parties, that he should receive such a meager acknowledgment of his distinguished services in that position, yet it is even a greater gratification to be assured there is a large majority of those who voted against him that are not only pleased but greatly rejoiced to have him returned as chief of the judiciary of this State, upon which he has reflected so much honor and for which he is so eminently qualified.

RICH QUARTZ.—Yreka dates to the 14th state that W. Mallory has discovered a very rich gold bearing quartz lode, about one mile north of that place. The rock when crushed in a mortar yielded an average of \$17 to the pound. Visitors are excluded from the mine.

BIG SHEAR.—The Butte (Cal.) Record says that G. W. Gridley has sheared nineteen thousand sheep the past season. His total wool crop will be 83,000 pounds, or 4½ tons, for which he expects to realize, at 25c per pound, the sum of \$20,750.

FROM JAPAN.—Japan has lately been considerably shook up by an earthquake. The volcano, Asayama, in the province of Sinshiu, is again in eruption, for the first time in four hundred years. A village near its base was destroyed, but no lives lost.

NOT SCARY.—When Joe Meek, the Oregon trapper, went to Washington as Territorial messenger, his good looks and relationship to President Polk made him a great favorite with the ladies. While promenading one evening, a lady inquired whether he had ever been married? "Yes," said Joe, "he had a wife and six children."

NEW DISCOVERIES.—Both of gold and silver, are reported in south-eastern Arizona, and of course the rush for that country has set in.

CONFIRMED.—The election of Judge Boise, by a small majority, is confirmed. If we have elected any of the State officers the telegraph don't mention it worth a cent.

WEATHER-CROP.—The Monterey (Cal.) Democrat of May 27th, says: The rains of the past week benefited the late crops—so say the farmers. Hay, already cut, was not hurt by the wet material. The prospects now are of a fair crop of barley and some wheat will be made. We have inquired particularly about flax, and the general opinion appears to be that it stands drought well.

ANTS IN HIS EAR.—The Grass Valley Union is responsible for the following: Yesterday a wood chopper came into town to consult Dr. Simpson. He stated to the Doctor that he had an uneasy sensation in one of his ears, and that he suspected that a little bug of some kind had got into the orifice.

COLORED SCHOOLS.—The Columbia river Rising.—The Columbia river.

WASCO.—The official returns from Wasco, received Friday morning, are as follows: Judge Wilson 2 majority; Grover is counted 8 majority, Chadwick 20, Fleischner and Patterson each 11. The Republicans of Wasco contend that villainous frauds were perpetrated by the Democrats having charge of the polls, and they will contest the election of the entire county ticket, and expect to win.

COSTLY.—The three miles of railroad, connecting the Pennsylvania Central and Camden & Amboy railways, at Philadelphia, cost the two companies building it three millions of dollars. The road runs through valuable property, and costly buildings were torn down to make a path for the remorseless "iron horse," which accounts for the immense cost of the road.

CLOSE.—The vote for Secretary of State, from latest dates, seems to be the "clearest yet." From the count as it stood on Thursday, there will not be eighty votes difference between Mr. Elkins and Mr. Chadwick. Mr. Elkins' popularity carried him away ahead of his ticket.

SEVERAL REPUBLICANS WERE DRIVEN AWAY BY THE JUDGES, and not allowed to vote, although they were well known residents of the county and offered to take the oath provided by law. We are legally and justly entitled to not less than ten votes on the State and 40 on the county ticket that were rejected. We can throw out from ten to twenty that voted their tickets illegally.

THE CITY OF SAN FRANCISCO, a Democratic city, has voted to aid a monopoly known as the Southern Pacific Railroad Company. There is a little bit of interesting history connected with this matter.

Wool Crop.—The Mendocino (Cal.) Democrat says: Our sheep raisers are now hauling off their spring clipping, which has been a good yield, and the returns for the same make money begin to appear again on the prospects. Wool is among the best exports of the country outside of the lumber trade, and sheep raising is admitted to be one of the most profitable businesses that a man can engage in.

A PLAYED OUT COMMUNITY.—The Oakland (Cal.) News says: A gentleman who has lately made a trip from Ellis Station south about one hundred miles on the west side of the San Joaquin, says that strip of territory is utterly dried up. The grain crop won't realize hay, even unless it is pulled up by the roots, and the hills are devoid of all pasturage not enough to camp on. This region that may be considered under cultivation, is from ten to twenty miles in width, and is completely cooked for this season.

SENIOR NYE ON "RUINED HUSBANDS."—The Washington correspondent of the Cincinnati Commercial heard Senator Nye give the following "opinion," just after the trial of McFarland, for the killing of Richardson, which resulted in acquittal:

WELLERISMS.—"How I love thee, none can tell," as the toper said to the gin bottle. "Walk in without knocking," as the paddy said to the pratice. "Don't be alarmed," as the steel trap said to the fox when it bit off his leg. "He is a great bore," as the block said to the auger. "I am not fond of such vanities," as the hog said when his owner put a ring in his snout.

WATER-TRUCK.—The Mendocino (Cal.) Democrat says: A man who has lately made a trip from Ellis Station south about one hundred miles on the west side of the San Joaquin, says that strip of territory is utterly dried up. The grain crop won't realize hay, even unless it is pulled up by the roots, and the hills are devoid of all pasturage not enough to camp on.

THE PUBLIC DEBT STATEMENT shows a decrease during the month of May, of \$14,310,963. Gold-bearing quartz is reported discovered in Hardon county, Illinois.

The Way it was Done in Wasco.

DALLAS, June 12, 1870. EDITOR OREGONIAN.—Democrats pretend that the poll books from two Republican precincts have not yet come in, and Republicans suspect that Democrats do not intend to have them come within the ten days provided by law. If they are not in it will be because Democrats deem it necessary to keep them out in order to "elect" their candidates, to all of whom they will give certificates, which they can do with as much propriety and more honesty than many other things they have done.

ALL OF THE MEN at work on the mint not in the county 90 days before commencing work were ruled out on the county ticket, and some on State ticket. Five votes were rejected because they had not taken out their full citizen papers six months before the election, though they were honorably discharged soldiers, and had been admitted to citizenship within the last two months.

DEATH IN THE BEER POT.—From the N. Y. Sun

We learn that a fortnight ago, Dr. Firmont, of Stagg street, near Leonard, and Mr. Fredrick Fries, a wealthy brewer on Bushwick avenue, Williamsburgh, laid a wager concerning the number of glasses of lager beer that each could drink. It was stipulated that the man who drank the least should pay the score.
