This simplicity and practicability of this new Plaw comments it favorably to the special notice of every larmer. It possesses a decided superiority over all other plaws now in use. The wheely are four test in diameter, and run on the anaplowed band. The entire construction is in no way complianced. The play is managed in every manner with the second requires only two levers to be used in undling any afterstion. The superiority of the "stay" Play will be clearly shown by the following certificate:

We, the undersigned, citizens of Lion county, Oregon, having purchased and used upon our farms the "Gay". How, hereby certify that the same has given us cactrosatisfaction. It facility for adjusting to said the depth of farrow without moving from the sent, is sample and ensy. We like the plow for its draught, because the same is brought to bour already upon the plow-learn instead of the carriage; also, because it is sitenge and durable, all except the wood work being constructed of wrought non—no cactings are used.

The wheels running upon the solid land is an advantage over other gang-plows, in striking of land and in playing, no having to make the necessary changes in the machinery, and the seat is always level, not the wing the deliver forward or sideways as in other plows. Better work and more of it can be accomplished by the use of this.
