NEW ADVERTISEMENTS

TO PHYSICIANS. New York, August 15, 1868. Allow me to call your attention to my P. RATION OF COMPOUND EXTRACT CHU. The component parts are, BUCHU, Long Leaf CUBEBS, JUNIPER BEERIES. Leaf CUBEBS, JUNIPER BEERIES.

Mode of Hreparation:—Bucha, in-vacao. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu as prepared by Druggists, is of a dark color. It is a plane that emits its fragrance; the action of a flame destroys this (its active principle) leaving a dark and gintinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added to prevent fermentation; upon inspection it will be found not

mentation; upon inspection it will be for to be a Tincture, as made in Pharmaco s it a Syru;— and therefore can be used where fever or inflammation exists. In have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation, with a feeling of profound confidence.

I am very respectfully,

H. T. HELMBOLD,

Chemist and Droggist of 19 Years' Experience.

(From the largest Manufacturing Chemists in the
