Buchu as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle) leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added to prevent fermentation; upon inspection it will be found not to be a Tincture, as made in Pharmacopæa, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exists. In this, you have the knowledge of the ingredients and the mode of preparation.

THE "SINGER" NEW

Family Sewing Machine, With Attachments for all kinds of Work,

Is fast winning favor in the bousehold, as shown by the sales of last year, amounting to eighty-six thousand, seven hundred and eighty one machines, which far exceed those of any other Company.

This new FAMILY MACHINE is capable of a range and variety of work such as was thought impossible a short time ago, to perform by machinery. We claim, and can show those whom it may concern, that it is the cheapest, most beautiful, delicately arranged, nicely adjusted, easily operated, and smoothly running of all the family Sewing Machines. It is remarkable, not only for the range and variety of its sewing, but also for the variety and different KINDS OF TEXTURE which it will sew with equal facility and perfection, using Silk Twist, Linen or Cotton Thread, fine or coarse, making the INTERLOCKED-ELASTIC-STITCH, alike on both sides of the tabric sewn. Thus beaver cloth, or leather, may be sewn with great strength and uniformity of stitch, and in a moment this willing and never wearying machine may be adjusted for fine work on gauze or gossamer tissue, or the tucking of tareletan, or ruffling, or almost any other work which delicate fingers have been known to perform. This new FAMILY MACHINE is capable of a man, one piecee wifee-Plentee fix all John paid up, but was determined (so pleased to find himself married "Mellican
