Potatoes! Potatoes! 500 BUSHELS POTATORS JUST RE-per bushel, by R. S. DUBOIS. March 11, 1871-274f

The Albany Register.

It will be remembered that the noted Frank P. Blair, of Missouri, asserted previous to the last Presidential election that if U. S. Grant was elected President of the United States he would never be succeeded by another; that in case another election was held, and he was des feated, he would declare himself Dictator, and, with the help of the Army and Navy, would continue himself in power ; that the principles of free government would be blotted out, and the one-man power be inaugurated in their stead. Contrary to the wish and hope of Mr. Blair, U. S. Grant was elected Chief Executive of the nation, and although he has been filling the position for more than two years, with credit to himself and honor to his country, the people have yet failed to see the slightest evidence leaning towards the usurpation of powers not fully and clearly warranted by the Constitution. Yet there are members of the Democratic party, taking their cue from Blair, who still echo the assertion that U. S. Grant does not intend to have a successor, but intends running the Government hereafter on his own hook. These alarmists are either fishing for gudgeous, or else they honestly believe their own assertions. If the latter proposition be correct, and they are truly persuaded of the intent and purpose of U. S. Grant to usurp the reius of Government immedi-

ately upon the expiration of his term of "coming Dictator" in every conceivableway, besides exposing his (as he supposed) secret designs upon the "liberties hyoscyamus. of the people." This being the case, houses. There is a meadow, large pasture, orchards, garden, &c., &c. It is susceptible of being divided into four farms, all of them having

However much faith these "alarmists" may have in their own predictions with regard to President Grant, they still seem to think there may be a chance that their prophecies will fail to connect, else why are they so terribly worried over the choice of a candidate to succeed the president of the U.S. Patent Office, for the week ending April 18, 1871, given below. They also inform us that of the 241 Patents issued for said week, Ohio received 20; Indiana 8; Illinois 16; Missouri 5; Kansas 1; Nevadol 1. ent Executive—the man who never in- da 1; Colorado 1.

WOOD'S HOUSEHOLD MAGAZINE .-Most heartily do we welcome the May number of Wood's Household Magazine. We hardly recognized it as it entered our office in its new spring clothes; but while admiring the color and quality of its dress, we were delighted to discover that it adorned our old friend. The improvements which have followed thick and fast in this Mugazine, show the enterprise and success of its publishers.

terprise and success of its publishers.

The heavy paper is a great addition as well as the cover, and its typographical appearance is unsurpassed.

Its contents are unexceptionable, and among its list of contributors are some of of the most noted writers of the day. We do not understand how Mr. Wood is able of the most noted writers of the day. We do not understand how Mr. Wood is able to do so much for so little money—never-theless we are very glad to acknowledge his achievements. The Magazine is furnished for the small sum of one dollar. Specimen copy free. Address S. S. Wood & Co., Newburgh, N. Y.

PETER'S MUSICAL MONTHLY-For May, contains sixteen pieces of splendid music, printed from thirty six full-size music plates, for which the publisher asks but thirty cents, or \$1 for the January, February, March and April numbers. There is no way in which so large an amount of new music can be obtained so cheaply as is afforded by this magazine. In the course of the year subscribers get \$50 worth of music for \$8, the subscription price of the magazinewhich is less than two cents for each piece of music. Send to J. L. Peters, 599 Broadway, New York.

SUDDEN DEATH .- Mrs. Graham, wife of the P. M. at Depot Slough, Yaquina Bay, died very suddenly on Saturday night, May 15th, of inflammation of the chest, aged about 50 years.

Wise Resolution.—Covington, Ky., had a case lately where a discarded lover murdered the girl who rejected his suit; whereupon all the timid old maids met together and unanimously resolved never to reject an offer.

Mrs. Myra Clark Gaines, the indes ble little lady whose suits to recev roperty in New Orleans to the ve many millions of dollars have me many millions of dollars have made he so celebrated, confesses to sixty-four years of age, but expects to live to be one hundred and twenty, and is as specially now as a young girl in her teens. The Sam Francisco Bulletin gives an ecount of a missionary's see who had been born and reared among the Ton Islanders, and who, naturally desirous of seeing a civilized country, obtained per-mission from his parents to visit the United States. He soon became dissat-United States. He soon became distriissed with fire Prancises, and extended
his travels as Arizona, where he was
murdered by the Apaches. The young
man had a faithful companion with him,
a rough frostieraman, and averaged his death by tilling the Apache

that, the Californian, in the innocence of
his heart, forwarded the Indian's spalp
by mail to the good missionary, believing
that the possession of that trophy would
serve him as a consolation for the loss of
his son.
