

The new State Capitol building at Carson, Nevada, has been accepted by the Commissioners.

John Rogers, cashier of Pegeesoot National Bank, Brunswick, N. J., is defaulter in the amount of \$30,000.

The War Department has no advice of the death of Gen. Crook, reported to be killed by Indians in Arizona, and the report is discredited.

Money in New York is reported plentiful at 2 1/2. The disbursement on account of September interest in gold thus far, amounts to \$1,800,000.

At the four days meeting of the Dexter Park Association which closed in Chicago on the 26th August, Goldsmith Maid won the \$5,000 prize in three straight heats. Time, 2:23 1/2, 2:20 1/2, 2:22 1/2.

Hovey, Republican, has been elected joint representative to the Washington Territory Legislature from Jefferson and Kitsap counties, to fill a vacancy. The vote for him was nearly unanimous.

Berlin journals contain official articles commenting on the discussions in Versailles intimating that they tend to weaken the confidence of Germany in the power of the French Government to fulfill its engagements.

From Paris we learn that Faidherbe resigned his seat as Deputy because Revets of the Committee decided to report in favor of making the Assembly now sitting a Constituent Assembly.

Shultz has been heard from. It is now stated that he passed through Southern Oregon into California, and it is believed was one of the gang who robbed the stage near Red Bluff a few days ago.

The Daily Oregonian of August 28th appeared on unusually heavy paper looking as neat as a pin. We hear that Mr. ... has purchased a new outfit, and will soon send out his paper in a new dress.

By the collision of a passenger and freight train, August 26th, on the Philadelphia and Erie Railroad, conductor Hymonal, engineer McCormick, fireman Brown, Lockhaven, Ward, Billfort and Mrs. P. Reich, were killed.

By advance sheets of the census, as officially and finally revised, it appears that the population of the States and Territories is 48,355,983. Oregon is given 90,123. Following is the population of the four great States: New York, 4,382,859; Pennsylvania, 3,521,791; Ohio, 2,485,200; Illinois, 2,539,891.

There are reports from Brazil of a Republican movement breaking out. In a new journal, called the Republica, a manifesto is published setting forth that the existing form of government should be abolished, and one adopted which will secure to the people a Democracy.

The wife of John Huillerl of St Louis having read in the papers that it is dangerous to light a fire with kerosene, thought she would be on the safe side by using gun powder. She has only one eye now, but as she has no hair to comb, and the state of her face will not permit the use of powder, the difficulty in making her toilet is not so noticeable.

From Athens, under date of August 26th, it is stated that during the storm in Samia, a town on the Turkish frontier, the lightning struck a powder magazine which exploded with a terrible report. The destruction to property was great. The residents panic stricken fled to the country.

It is the opinion of experienced miners that somewhere between Boise river and Boise basin there are excellent mineral deposits in an old channel of Moore's creek. The indications are that the present bed of that stream is not the channel in which it ran when the gold washings from the mountains above were going on.

The Democracy of Ohio are in a peck of trouble, as will appear more clearly from the following dispatch dated Louisville, August 22: A rumor prevails here that General McCook, Democratic candidate for Governor, will be compelled to withdraw from the ticket as he has from the canvass. It is said he is partially deranged. Should McCook withdraw, an effort will be made to induce Gen. Ewing to take his place, but there are doubts as to the success of the movement.

From Charleston, South Carolina, we have this: The medical Society held a meeting and declared that yellow fever of a mild type exists to a limited extent in Charleston, that it is in one neighborhood, and that the first case was on the 27th of July. During the month that has elapsed there have been 95 cases and 9 proved fatal. The disease does not seem of a character adapted to spread. Difference of opinion exists as to the probable spread of the disease. The Board of Health announces that there are indications that the disease is assuming an epidemic form.

Close of Volume Three.

This number closes Volume Three of the ALBANY REGISTER. For fifty-two weeks we have labored to edify and interest the readers of the REGISTER, devoting all our time and whatever of ability we may possess to that end. The result is before you. If you deem the REGISTER worthy of continued support, we ask you not only to come forward with your renewals for another term of fifty-two weeks, but to induce as many of your neighbors and friends to come with you and subscribe for the REGISTER as you can influence so to do. The larger and more generous the subscription, the better and more interesting will be the paper. We purpose doing fuller justice to the wants of the people in the coming year than we have in the past. We are able to promise this because the means in our hands are superior to those of the year gone by, and because that great Teacher, Experience, has added materially to our knowledge of these wants and desires. Our next number will appear in an entire new dress throughout, and greatly enlarged. It will contain more than three times the amount of matter heretofore given, and will be afforded at the same old price—three dollars per annum, in advance, for a single copy. If each reader of the REGISTER for the past year would hand in one new name along with his own renewal, our subscription list would be doubled. Will not each subscriber do this much for us?

Good News for Farmers.

San Francisco telegrams, during the week, have informed us that unusual activity has prevailed there in the wheat market, and prices have advanced very rapidly. The price at the present writing is largely in advance of that of the corresponding period of last year, it being quoted on the 28th of August at \$2 42 @ 2 50 per hundred pounds; while last year, on the 28th of the same month, quotations were but \$1 55 @ 1 70. All things considered, the present is the most favorable year the producers of Oregon have ever had. Buyers in this city are freely offering one dollar per bushel—a very fair, paying price for wheat. The Portland Bulletin states that the wheat receipts in San Francisco the present year are much smaller than for any previous year for many years, for the same period. To August 23d, of last year, the receipts were 125,749 sacks; to the same date of the present year, the receipts were 62,509 sacks—a falling off of 63,240 sacks, or more than one-half. Our producers can judge for themselves, taking their data from the above figures, whether to hold their wheat for still higher prices, or to sell at the present remunerative price. This advance in prices happens at an opportune season, as farmers generally have not disposed of their crops, and will be left to choose for themselves, whether they will take the "chances" on a further advance or a sudden decline in the market.

FRIGHTFUL LOSS OF LIFE.

On the 27th of August the telegraph brought us the intelligence of steamboat and railroad disasters in the East and South, that were truly appalling. At Revere, seven miles from Boston, an accommodation train was run into by the lightning express, making a complete wreck of the train, killing some twenty-one passengers and wounding some forty or fifty others. This happened on the evening of the 26th. On the morning of the same day, on the Philadelphia and Erie road, near Westport Station, a mail and freight train collid, causing the death of six, fatally injuring three, and wounding and maiming some dozen others. On the 27th, near Mobile, Ala., the steamer Ocean Wave exploded her boiler, creating terrible destruction among her two hundred passengers. Sixty or seventy persons were killed, and many injured. Out of one family on board, consisting of seven, six were killed. Only three of her officers escaped. Such terrible loss of life demands the closest investigation, and it is to be hoped the authorities will probe the causes of these several accidents to the bottom; and if there be blame let the guilty suffer the extreme penalty of the law.

ENTERED INTO HIS REST.—Mr. Behrman has retired from the management of the Olympia Standard, and his valedictory appeared in the last issue of that paper. Mr. Brown announces his permanent withdrawal from party service and partisan politics. He will not permit himself to be classed with the "spoil-buffers," who, in their passion for place, fling to the winds the ancient principles of the Democratic party.

The New York Herald says General Hancock, from present appearances, will be "Pennsylvania's favorite son" in the Democratic presidential convention, and he seems to be the favorite among the Southern Democracy inclining to the "New Departure." Mr. Stephens, of Georgia, and all the old departure leaders think, with Mr. Greeley, that it is too soon yet to talk of the party candidate for the succession; and he is waiting for something to turn up.

STEPHENS RISES TO EXPLAIN.—Alexander H. Stephens, of Georgia, has declared his settled determination concerning the New Departure. He affirms that if the Democratic national convention adopts a platform in agreement with the Ohio resolutions—accepting the "fraudulent" fourteenth and fifteenth amendments, as he states it—he will himself depart in search of a new party.

Financial and Commercial.

Gold 112 1/2. Currency: Buying 88 1/2; selling 89 1/2.

Since our last report wheat has advanced in price, in the San Francisco markets, from \$2 15 @ 2 25 to \$2 40 @ \$2 60, and is still considerably excited. This sudden and unlooked for advance is caused by the advance, in two days, in Liverpool, of 6d per quintal. The causes of this sudden advance in the Liverpool markets are the subject of much speculation. It is urged that one cause is the report that the crops in Scotland have been injured by the weather; another that the great Irish crop, the potato, is a failure; another that the cholera in Russia will prevent exporting wheat from the Baltic to England; but the most plausible reason given for the advance is the threatening attitude assumed by Russia toward Prussia—the Czar having issued a ukase permanently abolishing the privileges granted to German citizens. A war between these two powerful nations would eventually result in getting all Europe by the ears, and a "feast of blood" would result. In the event of such war England and France will look to the United States for their supplies of breadstuffs. If these signs of war shall prove genuine, prices may still further advance; but if, on the other hand, they shall prove unreal, and no war result from them, then prices may fall. Producers and purchasers alike must be their own judges in the matter—we but state facts as we get them.

Albany markets quiet. Wheat is in demand at \$1 per bushel. No other changes noted, butter commanding but 25c, eggs 30c, potatoes \$1 25 @ 1 50.

About Fairs.

Mr. Editor—Since our County Fair is so near at hand, I have been led to jot down a few stray thoughts, not on the subject of fairs in general, but of Linn County Fair in particular.

Let me first call attention to the following, taken from the Premium List, under the head of general remarks: "The people in general, and especially the ladies, are requested to furnish pictures and other ornaments for the Pavilion." This looks like a kind invitation, and it is also generous to allow the ladies a free admission; quite the thing in the present day of "ladies' privileges," what ever the coming "women's rights" may bring.

But it is not my purpose to discuss "women's rights" or privileges either, except as connected with our agricultural (?) Fair; and to get at the clearest understanding of the thing, let us study figures, for unless they "lie" (the very much I mean), our Fair aforesaid is (figure me an agricultural sham. To begin then with totals: The total premium list, first and second, including the five classes of cattle, seven classes of sheep, and five classes of swine, amounts to \$1,443 75; surely this is devious liberal things look a little closer. \$1,625, nearly two-fifths of the whole amount, is distributed in two classes and divided into seven premiums. These two classes are, one would suppose, representative classes; no one could possibly condemn a stranger if he should judge of the tone of the Fair from the two classes thus honored, and if the Linn County Agricultural Association represents the sentiment of the county, the spirit of the two classes mentioned must be the animus of this, the best agricultural county in Oregon.

What are the men most interested in these two classes—in the noble (?) art of horse-racing—they are commonly called horse-men, jockeys, gamblers, race-course bumpers, politely dubbed "the sporting fraternity," and these, judging by the premium list before me, are "par excellence" the nobility of our county, the true agriculturists, for whose benefit the Society exists.

Again, "The people in general, and especially the ladies are requested," &c. A word to the ladies: your total premium amount to about six hundred dollars—in other words if you fill the pavilion with articles useful and ornamental, things to gratify the eye and the palate, if you get for your butter, and cheese, and preserves, and bread, and cake, and flowers, together with sewing, and spinning, and weaving, and knitting, not to mention the numberless little arts which adorn and make comfortable our houses, and the Society's portion, for these you get a little more than—Class 4, No. 1, "Mile heat, 3 in 5, free to all \$500."

Space and time will allow but one or two more items. Let any sensible man look over Class 14, Mechanical Department, and see whether one first premium in the whole class will pay a mechanic for his ticket, his entry fee, the time and expense of taking any of the specified articles to the grounds, returning the same, and the risk of possible damage to the article. Is there a cabinet-maker in all Oregon who would let a bureau worthy of a premium go to the grounds and back for four dollars, or a sofa for two? Is there a carriage maker who would send a first class buggy there for the premium? Is there a blacksmith who would carry his four pieces of work out there and back for the amount he would have left, if he gained the first premium? or a tinner who would for two dollars, take ten pieces of ware, or a founder five pieces of casting? But perhaps some one thinks they should have public spirit enough to build up the Fair, and pay their own expenses, taking the honor for equivalent. My answer is, try the same theory with the horse-jockeys.

Finally, when you go to the fair, compare notes, see how low entries there are in Classes 1, 2, 5, 6, 7, 8, 12 and 14, and you will find that at least half the amount paid for premiums will go to the races.

Is this an Agricultural Fair? Read again the Premium List reads: It is better for a community to have fast horses, than well tilled farms, pleasant houses, wholesome food, good cattle and sheep, well made wagons, furniture and agricultural implements; in short, the ultimatum of this county is a fast horse. Each of them a fast horse, give me a hundred dollars, apiece to bet with, and surely their success in this life is secured; but what of the next, in such a school? W. R. B.

FROM GOOSE LAKE.—G. W. Riggs, just returned from Goose Lake, informs that the Dallas Republican there are 500 settlers in the valley, and the crickets have nearly destroyed the crops. Messrs. Davis, Woods and Clark, who went from Polk county to Pitt River last Spring, with stock, could find no location in that part to suit them, and Mr. Davis located on Link river, Messrs. Woods and Clark, when last heard from, were in Goose Lake country, talking of going to Eastern Oregon.

The Gazette, of New York, has information that the bodies of active third Assistant Engineers, G. W. McGowan, H. W. Moran, A. W. Mitchell and M. Shonberger, who were attached to the Monitor Iron Clad Weehacken when she sank in Charleston harbor on the sixth of December, 1863, have been taken from her wreck, having been found at their posts in the engine room.

SUPERIORITY OF OREGON WOOL.—At the Mechanics' Institute Fair in San Francisco there is on exhibition some of the wools of the Oregon City mills. The San Francisco Bulletin, in commenting upon the superior excellence of these fabrics, says of Oregon wool this: Oregon fleeces command 38c @ 40 cents.

The superiority of the Oregon fleeces is in the fact of their being cleaner, and of longer staple. The lack of rain in California compels woolgrowers to shear twice a year; while in Oregon, the larger amount of rain allows of a full year's growth.

From the Roseburg Ensign and Plaindealer we glean as follows: Jones Flouring was been sent to the Insane Asylum. His father was taken there a few weeks ago. Fires in the woods prevail all over the county. Three horse thieves—two Germans and a Frenchman—who stole horses from Mr. Kilgore, near Jacksonville, were arrested in Douglas county, Saturday morning, and taken back to Jackson county for trial.

John S. Weckly, who lives five miles south of Roseburg, has just threshed five hundred bushels of wheat from twenty bushels sown. It is the "Velvet Chaff" large white wheat.

Last week the schooner Bobolink arrived at Gardiner from San Francisco with a full cargo of merchandise for Roseburg and Oakland. She encountered the same gale that compelled the steamer Constantine to but into Port Ford, and her cargo was somewhat damaged by the bilgewater having been forced through the ceiling.

Farmers are by no means anxious to dispose of their grain at the present prices offered. The Monmouth Christian Messenger reports several attempts at burglary in Polk county. One night \$300 was taken from the safe of the Mill company.

What is quoted at 90 cents per bushel in Independence.

At Lincoln a large saw mill is in full blast, a grist mill is being built, and will soon be ready for business. Large amounts of grain are being stored there, and the prospects for the future are fine.

The Salem Statesman tells of the killing of a large buck by a brave woman with an axe and some deer horns over in the mountains toward the coast. Influenza is prevailing in Salem.

The Eugene City Guard notes the arrival of the first steam engine for factory use ever brought to that place. It is for a carpenter workshop.

The Jacksonville Times of August 26th says the mining dam at Big Bar in Rogue river has been broken through.

From the Statesman of August 26th we call as follows: In response to an invitation from prominent citizens, Mr. Wm. H. Newell will deliver an address on railroad matters, September 2nd.

Owing to want of teams the wheat shipment from Walla Walla down the river has quite ceased.

There are not a dozen cases on the District Court docket for the September term.

Cows with calf sell at from \$40 to \$50, and are not offered much at that.

Emigrants from overland continue to arrive in Walla Walla Valley—some on their way to Oregon.

The Firemen of Walla Walla realized \$100 from the Jail circus benefit and \$120 from the Firemen's Ball.

RIGHTS OF MARRIED MEN.—The following bill has passed one stage of the New Hampshire House of Representatives:

Marriage shall not hereafter render the husband liable for the debts contracted by his wife prior to their marriage. Second section—No marriage shall hereafter discharge the wife from her liability to pay the debts contracted by her before such marriage, but she and all property which she may hold in her own right shall be held liable for the payment of all debts, whether contracted before or after marriage in the same manner as if she continued sole and unmarried.

At the rate they are killing off the population in the East, by railroad collisions and steamboat explosions, there need be no visitation of cholera to swell the bills of mortality. A total of about two hundred deaths by railroad steam in two days is a shockingly prodigious slaughter.

OBITUARY ON TIPOLOGY.—A Dutchman, who in a fit of passion was swearing terribly, was reproved by a church deacon who chanced to overhear him.

"Why do you swear so, Hans?" said the deacon, "don't you know that it is a great sin?" "Yaw, I know it pesa sin."

"Do you know," said the deacon, "anxious to sound the depths of his religious teachings; "do you know who died to save sinners?" "Yaw," said Hans, "Got died to save 'em."

"Not God exactly, Hans, but the Son of God."

"So!" exclaimed Hans, a new light breaking in upon him; "vos it one of de peys? I tink als de vile it was de old man!"

Illinois has strange ways, even of committing suicide. In Warrensburg, recently, Mrs. Alice Day discovered that her husband had another wife, and shot herself dead. The husband, who was in prison for bigamy at the time, when he heard of the self-murder of one of his consorts, was so overcome by sorrow and remorse that, having nothing else within reach, he swallowed a box of brooks and eyes, a bottle of hair-dye, a brass breast pin, several pieces of glass, six vest buttons, and a small pen-knife. These miscellaneous articles did not prove fatal; but at last accounts Day complained of indigestion.

WILLIAM DAVIDSON, REAL ESTATE DEALER, Office, No. 61 Front Street, PORTLAND, OREGON.

The War in Europe Has at last come to an end and the friends of good order and stable government, have achieved what appears to be a complete success. Not so the war in Brownsville between the old and new systems of doing business, which has not yet reached a termination; and ready-payers continue to find at Wheeler's store an opportunity to get the benefit of their produce and forethought. Large additions have just been made to the stock, and people can probably supply a larger quantity of their wants from Wheeler's store, than from any other one establishment in the county.

NEW TO-DAY. Leffel & Myer's WATER WHEELS, SPHERICAL FLUMES, AND GENERAL MILL MACHINERY, J. F. Backensto, Agt., 5113 ALBANY, OREGON.

Notice to Farmers! THE UNDERSIGNED WILL PAY, UNTIL further notice, \$1 10 Per Bushel for Wheat, either on account, or in goods, delivered at Albany, Oregon. R. CHEADLE & CO. Aug. 26, 1871-5113

MONEY CAN NOT BUY IT, FOR SIGHT IS PRICELESS! BUT THE DIAMOND SPECTACLES WILL PRESERVE IT.

WE NOW OFFER A GLASS TO THE public which is pronounced by the most celebrated opticians of the world to be the most perfect, natural artificial help to the human eye ever known. They are ground under our own supervision, at our own manufactory in New Haven, and are so constructed that the eye or center near the nose comes directly in front of the eye, producing a CLEAR AND DISTINCT VISION.

As in the natural, healthy sight, and prevents all unpleasant sensations, such as gimmering and watering of sight, dizziness, etc., peculiar to all other kinds of spectacles.

These glasses are manufactured from minute crystal pebbles, melted together, and derive their brilliancy and transparency from the manner in which they are mounted in the finest manner, at our own manufactory, in all styles of gold, silver, steel, rubber, and shell frames, of the best quality. Their durability can not be surpassed, and their finish is such as will suit the most fastidious. None genuine unless bearing our trade mark stamped on every frame.

For sale by the principal opticians and jewelers throughout the country. Manufactured by J. E. BRIDGES & CO., practical opticians, New York. For sale only by TITUS BROTHERS, Dealers in Watches, Clocks, Jewelry, Silverware, etc., Albany, Oregon.

Entered according to act of Congress, in the year 1869, by J. E. Spenser & Co., in the clerk's office of the District Court of the United States, for the Southern District of New York.

NOTICE. WE WILL PAY FOR GOOD BUTTER 22 to 25 cents a pound, and 25 cents per dozen for EGGS, in trade. Persons that care to sell their butter and eggs, may call at the Cash Store of R. CHEADLE & CO. to make their purchases, as they are selling goods very cheap now. June 24-47 R. CHEADLE & CO.

A Beautiful LIFE SIZE PORTRAIT of Yourself for Only \$5.

A NEW AND WONDERFUL ART. THE undersigned will, on receipt of a photograph, miniature or other kind of a picture of any person, execute a full life size portrait, in the new and superior art of CRAYOGRAPHY.

By means of this newly invented art life size portraits are made, perfectly natural, and far superior in appearance and durability to photographs, engravings, or even oil paintings. They will not fade, but will last a lifetime. Perfect satisfaction guaranteed in every instance, or money refunded. Try it, and see secured \$25 every one who induces you to part with the portrait that you will get. Send your order enclosing the money, with your picture, and the return mail will carry you a life size portrait of yourself, which if not satisfactory can be returned, and the money refunded. Address, JAMES S. HAMBUGH, Mount Sterling, Ills. 46-47

NEW TO-DAY.

\$1,000,000! By Authority of a special act of the Legislature of Kentucky, of March 19, 1871, the Trustees of the Public Library of Kentucky will give a Grand Gift Concert AT LOUISVILLE, KY., On Tuesday, October, 31st, 1871, Under the direction of the best Musical Talent. 100,000 Tickets of Admission, \$10 Each in Currency; Half tickets, \$5; Quarter tickets, \$2 1/2.

Each ticket will consist of four quarters, value \$2 50 each. The holder is entitled to admission to the Concert, and to the amount of gift awarded to it or its fraction. Tickets number from 1 to 100,000.

ALL CITIZENS' BANK OF KY., IS TREASURER. All moneys arising from the sale of tickets will be deposited with the Citizens Bank, subject only to the order of the President and Treasurer of the Library, countersigned by the Business Manager. During the Concert, the sum of \$550,000 in Greenbacks will be distributed by lot to the holders of tickets in the following Gifts, viz:

Table listing various gifts and their values, including one grand gift of \$100,000, one grand gift of \$50,000, and numerous smaller gifts totaling \$1,000,000.

Seven hundred and twenty-one Gifts all \$50,000! After paying the expenses of the enterprise and the order of the President and Treasurer of the Library, the balance of the proceeds arising from the sale of tickets will be appropriated to the establishing of a FREE LIBRARY IN LOUISVILLE, KY.—TO BE CALLED THE Public Library of Kentucky.

The Concert and distribution will take place under the immediate supervision of the Trustees of the Public Library of Kentucky, who have consented to present at the concert and supervised the drawing and distribution of gifts.

The holders of tickets to which gifts are awarded will be paid on presentation of them or their fractions, at the office in Louisville, the second day after drawing and every business day for six months thereafter, and may be sent direct through any Bank or Express Company, and parties ordering tickets will be printed lists sent them. Parties forming Clubs and desiring information, will please address this office.

Tickets are like greenbacks—good only to the holder. There will not be there only One Hundred Thousand Tickets, instead of Two Hundred Thousand, as in the San Francisco Gift Concert, and that there is \$50,000 more distributed. I add that the awards in four months and paid \$488,000 to ticket holders from November 24 to 13th, 1870, and turned over \$100,000 to the Secretary due tickets not presented.

It will be particularly noted that it is a matter of impossibility for any person to know what the gift of any number drawn from the first wheel will be, until the sealed box, with amount of the gift printed thereon, is taken from the other wheel and opened in full view of the audience, therefore the larger gifts will not come out till towards the last, or in the middle of the drawing.

The drawing will take place in the City Hall, in the presence of the Public Library of Kentucky, under the management of C. R. Peters, who is the 200th number drawn, and was awarded and paid to a gentleman of the name of Orleans.

The numbers and Gifts are drawn by blind children from 8 to 14 years of age. The drawing will be extended to the 21st, and parties ordering tickets will be printed lists sent them. Parties forming Clubs and desiring information, will please address this office.

11 Tickets for \$100, 22 Tickets, \$255; 56 Tickets, \$500; 113 Tickets, \$1,000.

The undersigned, late principal business manager of the very successful Mechanics' and Library Gift Concert at San Francisco, California, has been appointed agent and manager of the Gift Concert in aid of the Public Library of Kentucky. His drawing will take place in the City Hall, and everything will be done to satisfy buyers of tickets that their interests will be as well protected as if they personally supervised the entire affair.

Manner of Drawing. There will be two glass wheels. One wheel will contain 100,000 numbers, plainly printed on leather cards. The other wheel will contain 21 boxes, each containing a gift. One tag or number will be drawn from the 100,000 wheel, and the first box drawn from the second wheel will contain a gift, neatly printed and sealed up, and the gift so drawn from the second wheel will be the gift of the tag first drawn, which is \$100, \$1,000 or \$100,000, as the case may be. The entire 721 gifts will be paid in full—it being intended no unsold tickets shall participate.

The Manager has already paid into the Citizens' Bank \$23,500 towards defraying the expenses and does not depend on sales of tickets to pay the extent of Printing, Advertising, etc. The public are invited to the utmost scrutiny as to the reliability of the entire affair.

Chas. R. Peters, Manager, Louisville, Ky. OFFICE: 120 Main Street, Johnson's Block. R. T. BURRETT, President; W. S. HALDEMAN, Vice President; M. W. CLUSKY, Secretary; CITIZENS' BANK, Treasurer.

Money received from sale of tickets in California, Oregon and Nevada, will be deposited with Wells, Fargo & Co., Virginia City, to await the drawing.

H. A. French, General Agent, Virginia City, Nevada. Who will supply tickets and furnish information. J. DOW.

DOW & CRANE, Sole agents in ALBANY, OREGON, INVITE THE ATTENTION OF THE PUBLIC to their full stock of the latest styles in men's and ladies' Boots, Shoes, Gaiters, Oxford Ties, etc., as well as to the very latest thing out in the line of Ladies' and Misses' Gaiters, Hosiery, Neckwear, Truss, Antiseptic Suspenders, and many other new and fashionable styles, just received at the City Boot Store, which they will sell as rapidly as they can find purchasers, and with first-class goods at the most reasonable rates. They respectfully invite you to come and see their stock. Boots, Shoes, etc., made or repaired to order, and

ALL WORK WARRANTED. 23-CITY BOOT STORE, First Street, first door west of Register Building—43 47-3

WE Mean Business! ALL PERSONS KNOWING THEMSELVES indebted to A. COWAN & Co., are requested to come forward immediately and pay the same. Remember this, and call at our store, corner Broad and First streets, and fork over. A. COWAN & Co. Albany, August 19, 1871-47.

NEW ADVERTISEMENTS.

To the People of Linn County WE WOULD RESPECTFULLY SAY We have opened an office in Albany, for the exclusive sale of Sewing Machines!

and would respectfully invite all those wanting a first-class machine to call at our office and examine the different kinds of machines now on exhibition. If you want a Buckeye machine, if you want a Florence machine, if you want a Wheeler & Wilson machine, if you want a Singer machine, if you want an American machine, or if you want to exchange machines, or if you want your machine put in good running order, call and see us. We are always ready and willing to show our machines. We will do our best to give satisfaction. Sewing Oil and Needles kept constantly on hand for sale. Old machines taken in exchange for new ones.

We wish to employ good, reliable agents to sell the Buckeye Sewing Machine, the best selling, the simplest and most durable shuttle machine on this coast. Liberal inducements offered. For particulars address, MINER & PEARSON.

Eight Reasons why the Buckeye Sewing Machine is Superior to all Others: 1. It is the simplest shuttle machine made. 2. It has less wearing parts. 3. It has no small springs and compound cranks. 4. It is better adapted to a large range of work without change. 5. It has less pieces of machinery. 6. It is less liable to break needles than any other machine. 7. The Shuttle will wear longer than the shuttle in any other machine. 8. That it has the best Feeding device, which will never wear out, get out of order, break needles, feed unevenly, slip on stretched goods, or pucker the seam, so that one part of the fabric will come out shorter than the other, which all other feeds are liable to do. It makes every stitch of equal length. It is stronger than other feeds. We can take a strong piece of cloth and put one end in our machine and the other end in any other machine, and guarantee that our machine will take the cloth from the other, in consequence of the superior strength of the feed.

It is the only feed strong enough to feed thick sole-leather, sewing on shoe soles. No soaping the cloth or any other aid is required. It has no complicated machinery, and therefore is not liable to get out of order. It has a beautiful movement, making nearly two thousand stitches per minute.

The BUCKEY SEWING MACHINE makes the lock stitch, the same as the Howe, Wilson, Singer and Florence—like on both sides. We offer a premium of ONE HUNDRED DOLLARS for any machine on this coast that will make a stronger or more elastic stitch than the BUCKEY. For full particulars address, MINER & PEARSON, GENERAL AGENTS, Albany, Or. 34-3.

22-Agents wanted in every town and county on this coast. Address MINER & PEARSON, Albany, Oregon.
