Sheep Wash.

WE TAKE PLEASURE IN DIRECTING the attention of the public to the "Glycerine Dip,"

which is unquestionably the most Efficacious Sheep Wash now in use. Sheep Wash now in use.

It is non-poisonous, does not discolor the wool, deadly to all parasites infesting the skin of Sheep and other animals, and warranted free from arsenic, mercury, mineral, and other poisons. An infallible Cure f r the Scab, perfectly harmless to sheep, and greatly improves the wool. It is also free from any of those caustic properties found in many other compounds, which render the wool dry and harsh, and are detrimental, not only to its growth and weight, but also to its marketable value.

It can be used with perfect safety at any season of the year, and has been found in practice, invaluable for the following purposes:

1st. For curing scab, killing aceri, ticks, and other parasites which infest the skin of sheep.

2d. For strengthening and adding lustre to the wool.

wool.

3d. For dipping Lambs, even while sucking ewes, as they cannot be injured by the material.

4th. For dipping Rams at any time of the year Without danger of producing the excertation which mostly follows the use of other dips, especially in the autumn season.

5th. For the cure of mange in borses and dogs.

6th. For the destruction of lice and vermin in

Fall directions for use accompany each package.

It has been used in California with the most attisfactory results, in verification of which we in the town of Labranch. where I will be constantly on hand to attend to the wants of the Mood growers should not fail to try this invaluable preparation, which we have every confidence to recommending on its own merits.
