SEWING MACHINES.

THE CELEBRATED Buck Eye Sewing Machine.

Price \$45; without table, \$25

Eight reasons why the Buckeye Sewing Machine is superior to all others.

- 1. It is the simplest shuttle machine made. 2. It has less wearing parts. 3. It has no small springs or compound cranks. 4. It is better adapted to a large range of work without change. 5. It has less pieces of machinery. 6. It is less liable to break needles than any other machine. 7. The shuttle will wear longer than the shuttle in any other machine. 8. That it has the best feeding device, which will never wear out, get out of order, break needles, feed unevenly, slip on starched goods, or pucker the seam so that one part of the fabric will come out shorter than the other, which all other feeds are liable to do. It makes every stitch of an equal length. It is stronger than other feeds. We can take a strong piece of cloth, and put one end in our machine and the other end in any other machine, and guarantee that our machine will take the cloth from the other, in consequence of the superior strength of the feed. It is the only feed strong enough to feed thick sole leather, sewing on shoe soles. No sewing the cloth or any other aid is required. It has no complicated machinery, and therefore is not liable to get out of order. It has a beautiful movement, making nearly two thousand stitches per minute. The Buckeye Sewing Machine makes the lock stitch, the same as the Howe, Wilson, Singer, and Florence, alike on both sides. We offer a premium of one hundred dollars for any machine on this coast that will make a stronger or more elastic stitch than the Buckeye. For full particulars address, MINER & PEARSON, Gen. LATEST EVIDENCE.

CURE THAT COUGH!

USE THE BEST REMEDY.

Every day brings strong proof of the great value of this

Lung Balsam.

Dr. P. Meredith, Dentist, office No. 132 West Sixth street, states as follows:

Cincinnati, October 1, 1869.

Messrs. J. N. HARRIS & Co., Genl. Agents: About one year ago I took a cold, which settled on my lungs. A violent cough was the consequence, which increased in severity. I expectorated large quantities of phlegm and matter. During the last winter I became so much reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhea set in. My friends thought I was in the last stages of consumption, and could not possibly get well. I was recommended to try

Allen's Lung Balsam.

The formula was given to me, which induced me to give it a trial; and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. P. MEREDITH.

All afflicted with cough, or any throat or lung trouble, should use Allen's Lung Balsam without delay. J. N. Harris & Co., sole proprietors, Cincinnati, Ohio.

CAUTION! Do not be deceived, you who want a good medicine, and desire "Allen's Lung Balsam." Do not allow unprincipled dealers to sell you a preparation called Allen's Peppermint Balsam. See that you get ALLEN'S LUNG BALSAM, and you will have the best cough remedy offered to the public, and one that will give you satisfaction. For sale by

GREASE.—Messrs. E. Cartwright & Co., of the Albany Lard Oil and Soap Manufactory, are now ready to purchase any number of hogs, rancid butter, or anything in the grease line that will make soap, paying the highest market price therefor. This will be another source of income to our people, as they can now obtain the cash for all kinds of grease capable of aiding in the manufacture of soap—articles that hitherto were comparatively worthless. Everything in the "fat" line should be carefully saved, and brought to the manufactory. The manufactory is under the charge of Mr. McCord, whose soaps have always stood the first in the markets. His constant study is to improve, and we believe that the several different kinds of soap now produced by the factory are unequalled anywhere, either in quality or price. Read their card.
