SEWING MACHINES.

THE CELEBRATED

Buck Eye Sewing Machine.

Price \$45; without table, \$25

Eight reasons why the Duckeye Sewing Machine is superior to all others:

1. It is the simplest shuttle machine made.
2. It has less wearing parts.
3. It has no small springs or compound cranks.
4. It is better adapted to a large range of work without change.
5. It has less pieces of machinery.
6. It is less liable to break needles than any other machine.
7. The shuttle will wear longer than the shuttle in any other machine.
8. That it has the best feeding device, which will never wear out, get out of order, break needles, feed unevenly, slip on starched goods, or pucker the seam so that one part of the fabric will come out shorter than the other, which all other feeds are liable to do. It makes every stitch of an equal length. It is stronger than other feeds. We can take a strong piece of cloth, and put one end in our machine and the other end in any other machine, and guarantee that our machine will take the cloth from the other, in consequence of the superior strength of the feed.
9. It is the only feed strong enough to feed thick sole leather, sewing on shoe soles. No scapping the cloth or any other aid is required.
10. It has no complicated machinery, and therefore is not liable to get out of order.
11. It is the only feed movement, making nearly two thousand stitches per minute.

The Duckeye Sewing Machine makes the lock stitch, the same as the Howe, Wilson, Singer, and Florence, alike on both sides. We offer a premium of one hundred dollars for any machine on this coast that will make a stronger or more elastic stitch than the Duckeye. For full particulars address, **MINER & PEARSON,** Gen.
