**SEWING MACHINES.**

**THE CELEBRATED Euck Eye Sewing Machine.**

Price \$45; without table, \$25

Eight reasons why the Euck Eye Sewing Machine is superior to all others:

1. It is the simplest shuttle machine made.
2. It has less wear and tear.
3. It has no small springs or compound cranks.
4. It is better adapted to a large range of work without change.
5. It has less pieces of machinery.
6. It is less liable to break needles than any other machine.
7. The shuttle will wear longer than the shuttle in any other machine.
8. That it has the best feeding device, which will never wear out, get out of order, break needles, feed unevenly, slip or stretch threads, or pucker the seams so that one part of the fabric will come out shorter than the other, which all other feeds are liable to do. It makes every stitch of an equal length. It is stronger than other feeds. We can take a strong piece of cloth, and put one end in our machine and the other end in any other machine, and guarantee that our machine will take the cloth from the other, in consequence of the superior strength of the feed.
9. It is the only feed strong enough to feed thick soft leather, sewing on shoe soles. No matter the cloth or any other aid is required.
10. It has no complicated machinery, and therefore is not liable to get out of order. It has a beautiful movement, making nearly two thousand stitches per minute.

The Euck Eye Sewing Machine makes the lock stitch, the same as the Howe, Wilson, Singer and Florence, alike on both sides. We offer a premium of one hundred dollars for any machine on this coast that will make a stronger or more elastic stitch than the Euckeye. For full particulars address, **MIXER & PEARSON,** Gen.
