LOCAL MATTERS.

LEBANON.-From Lebanon we learn that the citizens there have measured the Santiam river at the crossing near tint village, and find it to be 265 feet wide. The question of submitting a petition to the County Commissioners, requesting that a bridge be erected at that point, is being agitated. The citizens, feeling the absolute need of a bridge across the Santiam to afford a safe and permanent crossing, propose, if the county will pay a reasonable proportion of the cost, to raise what is lacking to complete the bridge by sub-· scription. That a bridge is needed at this point on the Santiam-that the material interests and welfare of both Lebanon and Albany demand its early construction-there cannot be a difference of opinion, and the wishes of eitizens in that portion of the county should receive a respectful consideration at the hands of the powers that be, at the earliest moment. The Messrs. icikins have about completed their spleudid mill, and will soon be able to Curr lout as filme florings anybody. Business has been very tair and health generally good. The exhibition at the Santiam Academy on Saturday night of last week, was a brilliant and entertaining affair, and was pronounced a grand success by the large crowd in artendance. The Academy, in the hands of Mr. T. L. Dugger, is winning golden opinions, and establishing a reputation as among one of our best institutions of learning.

FROM OCHOCO.-Mr. George Milliean, who left Ochoco on the 19th, aroring in this city on the 25th, brings the following intelligence from that valley: He says that the winter has been rather severe, but stock-men are having done so much hetter than they anticipated. In the valley there has been but little loss of stock, and these were cattle that were brought in late in the Fall, in a poor condition. Our late townsman, Jas. Eikins, Esq., who, it will be remembered, went into the valley late last Fall, is reported to have lost seven head of cattle. The health of Ochocoans should be good, as there isn't a physician in her borders, and but one minister of the gospel, and he fills no regular appointments. The cattle purchased by Mr. Jason Wheeler of Mr. Deckard, some a ceks ago a purchase, by the way, wherein it was thought Jase took ' ble chances" to lose-are all right, and in thriving condition. From John Day and Willow Creek the reports are very favorable-stock doing much better than expected. Tenl & Coleman, the big cattle men of the upper comtry, have some three thousand head. and they report a loss of only about one bundred head. In Tygh valley the weather has been more severe, and the loss of stock will be much greater tioned. For two months past the weather has been so severe there that stock have kad to receive feed regutarly. Mr. M. thinks that twenty to one of the most accommodating of gentieventy-five per cent. of the cattle in themen, and all business entrusted to him will be promptly and faithfully Ochoco will make good beef at the present time.

Blain, Young & Co., where he has on exhibiffon erayous, chromos, steel engraytrigs, lithographs, etc., which he will of spose of at very low rates. Some of the pictures of fruits, flowers, landes, etc., are perfectly splendld, and would be all emament to any parior. He also receives subscriptions to new and popular works. Among his subarcintion books is a new Illustrated liftilly bible containing over 200 anely executery illustrations, — beautifully sid the most perfect and compre gradie edition ever published. ATTEM THE PROMADES.—Our Republican friends will please remember that to-prorrow—Saturday, March 21—at 1 o'clock F. M. Labor, March 21 at I o'clock P. M., is the day appointed for holding meetings in the different precincts for the selection of delegates preclinate for the selection of delegates to represent them in the County Convention, which transpires Saturday week, March 9th, in this city. We hope that Republicans will not forget this matter, but on the contrary will esteem it a pleasure as well as a duty to attend and aid insecuring representative men as delegates. Let every one that possibly can go be in attendance. These primaries are of more importance, and should receive more attention at the should receive more attention at the hands of our people than they have heretofore received. Again we urge upon Republicans attention to this matter—be, on hand at the place of voting in your precincts at the time ap-nointed.

SCANCELY ANY!-There are, contrary to the usual custom, "quite a few" candidates for the county offices in Linn at the coming election. There are but thirty-nine candidates for the office of Sheriff among the Democracy, that we have any account of up to this writing, all of whom seem certain of the nomination. For the office of County Clerk, there are three men in this city who actually declare they are not seeking the office! The candidates for the office of County Pressurer were not very fice of County Treasurer were not very numerous, until it was announced the indone from the office amounted to \$2,500 or \$2,000, since when the office has advanced considerably in public favor, and may prove as big a bone as any. For the Legislature there are quite a number who are twilling," and for Representative in Congress patriotism and love of country runs so high just now, that it would be hard to find a bedrocker who would not be willing to accept the nomination. If we don't have a lively canvass it won't

The new bank is one of the most conveniently arranged and fittled up on the coast.
