The Wood's Prize MOWERS!

Made by Walter A. Wood, the largest manufacturer of farming machinery in the world—with folding bar, two wheels, and all late improvements. It led the world at the Paris Exposition, and has found no peer since. It is compact and powerful, and just the machine for this coast, as every farmer will say who has one.

Genuine Haines

as improved, is the perfection of the Thrashing Machine. We have them from 20 to 40 inch, with new feed table, large shoe, double fan, elevator, double discharge, etc., made especially for the wants of this coast, after years of study. It has greater cleaning capacity than any other, and is every way perfect. No other machine has ever equalled the "Russell"; none can excel it.
