THE NEW FAMILY
SINGER

SEWING MACHINE,

WITH ATTACHMENTS FOR

ALL KINDS OF WORK,

Is fast winning favor in the household, as
shown by the rapidly increasing sales.
This NEW FAMILY MACHINE is cap-
able of a range and variety of work such as
was once thought impossible to perform
by machinery. We claim and can show
that it is the cheapest, most beautiful, deli-
cately arranged, nicely adjusted, easily
operated, and smoothly running of all the
Family Sewing Machines. It is remark-
able not only for the range and variety of
its sewing, but also for the variety and dif-
ferent kinds of texture which it will sew
with equal facility and perfection, using
silk twist, linen or cotton thread, fine or
coarse, making the interlock-de-clause-
stitch, alike on both sides of the fabric
sewn. Thus, beaver cloth, or leather, may
be sewn with great strength and uniform-
ity of stitch; and, in a moment, this will-
ing and never-wearing instrument may
be adjusted for the work on gauze or gos-
samer tissue, or the tucking of tarlatan, or
ruffling, or almost any other work which
dexter fingers have been known to per-
form.
