SAN FRANCISCO—AGRICULTURE

In the Field Again.

TREADWELL & CO.
with the old standard
HARVESTING MACHINES
so popular with all California farmers, with all the latest improvements, and many new ones for the harvest of '73.

The Wood's Prize Mowers

and Wood's Improved Self-Rake Reapers.

These machines are indisputably **THE BEST IN THE WORLD.** As a harvester, the Wood's Improved Prize Mower is confessedly without an equal yet before the country. These machines have been improved since first introduced, until they are now almost entirely a new machine. They are made by **Walter A. Wood** (the largest manufacturer of Farming Machinery in the world)—a man who keeps "up with the times," and who now builds and sells over **twenty-five thousand** of the World's Prize Mowers annually. It led the world at the Paris Exposition, and has found no peer since.

The Wood's Improved Prize Mower is especially adapted to Oregon. It has a **guiding or jointed bar with hand lever, two wheels, spring seat, and is made almost entirely of malleable iron, hard wood and steel.** It is **heavy, strong and durable,** and though compact and powerful, is of lighter draft than the other machines of equal weight. It is every way just the **mower** for Oregon, as every farmer will say who has one. And its price (\$130) is from \$15 to \$25 less than is asked for an inferior machine. Farmers will pay that difference; investigate before you buy, and see if you are getting anything for that extra profit—for it is proof, as no mower costs more to build than does Wood's. Send for a pamphlet before buying.

"Buy the Best."
Buy the Wood's Improved Prize Mower!

We offer also the **GENUINE HAINE'S HEADERS,** from 10 to 15 feet cut, improved by Walter A. Wood, having not only all the advantages of the old Illinois machine, but Wood's improvements, and also **Donne's Adjustable Reel.** No other Header has these improvements, and no other parties sell them. They are made especially for this coast, by Wood, at Hoosick Falls, N. Y.

The Kirby Self-Rake Reaper and Mower.

These machines are too well known to need description. Also the **"KIRBY CLIPPER MOWER"**—price \$75—the cheapest and for many purposes the best in the market.

How LITTLE LAND WILL KEEP A Cow.—On the first day of June last I commenced cutting clover for one cow confined in a yard inclosed by a high, tight board fence, with a stable attached in which she had been fed. She had no feed but freshly-cut clover from the 1st of June to the 15th of October, and all taken from one fourth of an acre of ground. She has averaged eighteen quarts of strained milk per day, from which my wife has made eight pounds of butter per week, during four and a half months. The cow is five years old, and a cross of the Ayrshire and Durham. She has given more milk, more butter, and of a better quality, than she has done on pasture. On one eighth of an acre I have raised one hundred and fifty bushels of sugar beets and carrots, which, with the two tons of hay, will keep her handsomely the balance of the year. The labor of cutting the clover for the cow is less than driving her three fourths of a mile to pasture; besides the manure saved is quite an item. In the dairy districts, the usual estimate is four acres to the cow, on the hay and pasture system, whereas, by soiling and raising roots, five eighths of an acre is found to be sufficient. I will state further what I believe, from nearly thirty years' experience, is true, that there is no crop so valuable for soiling as clover, no crop so many pounds of which, and of equal value of milk and butter, can be produced from an acre of ground. Sweet-corn is a good crop for late feeding, where clover will not grow, but not profitable for winter feeding.—Cor. Vermont Standard.

The South Carolina Legislature has enacted a law legitimizing the children of colored mothers by white fathers, who held them as slaves.

The price of illuminating gas has been reduced to \$2.25 per 1,000 feet in San Francisco.

(From the Mt. Vernon News.)
An Open Letter to Senator Trumbull from an old Friend in Southern Illinois.

Mt. VERNON, ILL., April 22d, '72.
Hon. Lyman Trumbull:

Hail, and farewell! My first vote was for you—I have not failed to vote with you ever since. My next vote will not be with or for you. No public man except Abraham Lincoln ever had my confidence more fully than yourself up to your vote on the impeachment of Andrew Johnson. Then my faith in you was shaken. Your recent Cooper Institute speech leaves no room for doubt, but forces me, however reluctantly, to say, farewell.

I hold no office, am seeking none; am little, and to fame unknown, and am likely to remain so; and compared to your greatness, only "as a fly on a bull's horn;" yet the class to which I belong is millions strong, and our power will be felt in November next. Mark the prediction.

Having aided to place you where you are, I claim the right to enter this my protest against your recent political treachery.

The Republican party has made you great in the land—placed your name high on the roll of honorable mention. You now propose to strike the hand that fed; in fact, to slap in the face the political mother from whence you have received naught but the milk of human kindness, and that most generously. Again I say, farewell.

Inordinate ambition is often fearful in its effects. It caused war in heaven, and doubtless most of the wars, strife, and misery of earth are its legitimate offspring. Andrew Johnson "swung around the circle" into the Democratic party, and thence to oblivion. I think your boat is headed in that direction. I don't wish to ride therein—have no confidence in the crew, and am, an forest to say, farewell.

I do not believe that Gen. Grant is the Republican party, nor that he has the power or disposition to control the party; but I do believe that Republicans whom the party have honored as they have you, sir, ought to hold their peace till the party adopts its platform and selects its standard bearers according to its usual forms; then if their action is such as you cannot conscientiously endorse, resign the place received from that party, and go before the people. Good men would respect such a course if they could not go with you.

Man proposes, God disposes. The Democratic party may plant, yourself and Senator Schurz may water, but Greeley cannot furnish the increase, however much he may know about farming. Your proposed alliance with "the world, the flesh and the devil" to destroy the party that has made you what you are, will in my opinion fail—utterly fail.

My hair is streaked with gray, a grandchild fondles around my knees—you are much older than I; time bears us rapidly on, on to that boundless future; the responsibility of the present is great, that of the future infinitely greater; where much is given much will be required. Oh that we may be able to shape our actions here according to the measure of that responsibility. Again I say, farewell.
A. B. BARRETT.
