GEORGE TURRELL PAYS THE HIGHEST price for all kinds of Country Produce. Remember the address, Turrell's, First street. 43-4.

NEW TO-DAY.

From Crooked River. Junction Ranch, Crooked River, August 3, 1874. Misses, Editors—Dear Sirs: You will please give this correspondence place in your columns. On the night of the 28th of June, the Pinte Indians commenced by stealing a horse at the Warm Springs, 3 miles southwest of Camp Harney. On the night of the 10th of July they took one from Mr. Reuben Kiger, at myser Beaver Valley. On the night of the 14th of July two were taken from Mr. Luther Ellis, at Lower Beaver Valley, and on the night of the 14th, five were taken from A. Hackleman, at Junction Ranch, at the forks of Crooked river. After a short consultation, we concluded to call for aid from the military stationed at Camp Harney. We made up one dispatches, on 11 started on Tuesday, the 10th, in the evening, for Camp Harney, at which place I arrived at 12:15 on the 10th of July. Found the Post-Commander, Major Trimble, absent in search of a deserter, who had deserted, carrying off some money belonging to a fellow soldier. The Major returned early in the evening, and received me very kindly. He forwarded my dispatches same evening to Camp Warner, to the District Commander, Gen. Weeden. Major Trimble asked me what number of men we needed, and I told him seven or eight. He sent Sergeant Lausberg and six privates, with Mr. Frank McLean acting as guide to the expedition. Left Camp Harney on the morning of the 20th of July for the Ranch, to take the trail of the Indians: arrived at the Ranch on the morning of the 23rd, started on the trail same evening; followed it south some eight miles, and camped for the night on west branch of Camp Creek. Started early on the morning of the 21st, trailed thirty miles over a broken country, with a great abundance of rocks and juniper; saw a large hole of copper-bearing quartz during the day's march; also a fine band of antelope; camped for the night in a deep valley in the Desert Mountains. After supper, I went scouting to get some of trail; found it bearing south west from camp. On the morning of the 24th were on trail early; as we followed it during the morning it bore more easterly, passing at about 8 o'clock the first camp made by the Indians since stealing the horses from our ranch. At this camp they had killed and dried some mountain sheep for food. At 10 o'clock passed the Mountain Springs, on the Yreka and Canyon City road. After leaving the Mountain Springs, the country was very barren; during the day traveled about thirty-five miles, and camped for the night at the Glass Buttes, on head of the South Fork of Crooked river, at a small spring on the north side of the mountains. The country around the Buttes is thickly covered with native glass of every color. Mr. McLean went scouting, and I went hunting. McLean discovered the trail bearing more to the southwest, and the trail of Elkins' horses interesting the one we were following, which enticed our men greatly. I killed a large fat buck, which we carried into camp. On the 28th, started on trail a few minutes after sunrise; direction in the morning southeast, to Durand's creek—distance fifteen miles. There the Indians had camped for the night, in a cove. We followed their trail up the narrow, rocky defile, through which the trail makes its way from the mountains to the desert. Lost the trail; found it again, after a diligent search, following what seemed to be an old emigrant road leading northeast in the direction of Harney Valley, through a low pass in the mountains, to the east side of Wagon Rim mountains. Here we saw a squaw and two Indian children digging emus. They hid in the grass, but we hunted them up. She said that she was Wee-waw's squaw, and that Plutes, with American horses were gone to Camp Warner. She was evidently much alarmed, and wanted to send one of the children off with a message of some kind. We put them under strict guard, and with orders to keep them there until we scouted the country in search of the Indians with the stolen horses. Found their trail to bear southward, toward Camp Warner. Saw some more squaws, who were much alarmed; released the squaw, traveled south a few miles, and encamped for the night at a large spring branch, east of the Wagon Rim mountains—distance traveled, thirty-five miles. Saw, at Durand creek, plenty of cattle tracks, which we supposed to be those of the Indians. On the 27th, started early in the morning, trail leading south, and very hard to follow; lost twice, but found it again soon. About nine o'clock found another camp made by the Pintes, at a secluded spring in the center of a cluster of buttes. At this camp they had killed some antelope, roasted crickets, had a feast and dance, and their numbers seemed to have increased rapidly. From this camp they traveled south, soon coming upon a high tableland or divide, connecting those buttes with the Juniper Mountains south of here. Followed the trail to the north side of the Juniper Mountains, to a large spring, where they had made another camp. We also camped at this spring—distance traveled, thirty-five miles. I scouted, after supper, and found that the trail led to the southward, over a spur of the Juniper Mountains. At a spring on the south side, found another camp made by the Pintes, at which they had killed antelope. We found shoes at these camps, which they had pulled off the horses, to make the trail difficult to follow.

25 PER CENT SAVED BY BUYING NEW GOODS

KLING & CO., ALBANY, OREGON.

Just Received an entire new stock of the Most Fashionable Goods of the Season
