

MIDDLE BLOCK HOUSE—CASCADES COLUMBIA RIVER.

VARIOUS ITEMS.

An editor's pocket was picked at Litchfield, Illinois, and he tried to make the public believe that he lost \$2.

Senator Wilson, when a boy walked 28 miles for a Sunday School book.

A cord of birch-wood made into clothes pins, gives forty dollars profit.

Half the depositors in the Massachusetts Savings Bank are women, and \$26,000,000 is the sum total of the amount deposited by them.

The population of Boston is about one-fourth that of New York, but the valuation of her property is fully one-half that of the latter city.

A Main advocate of Greeley gave as a reason for his choice of candidate that he has \$100,000 in Confederate bonds, which he captured during the war, and which he thinks will be valuable if Greeley is elected.

The New Orleans Republican says: We can guess what made Banks come out for Greeley. Dick Taylor wrote him a love letter couched in about these words: "My dear old Quarter-master—If you don't help us to regain the Lost Cause by supporting old Horace I'll blow that Red river cotton spec on you. Dust! Yours, Liberal Dick."

An exchange says: Senator Trumbull said in his Chicago speech that he joined Governor Oglesby "in rejoicing over the prosperity of the country," and, said he, "I join with him in glorying over the great deeds of the Republican party." But his Democratic hearers did not cheer the sentiment. Like a fallen woman, Senator Trumbull cannot help referring to the time when he was virtuous and happy.

A couple were recently married in Terre Haute, Indiana, after a fourteen years' courtship, during which they had each written and received two love letters per week, or a total of two thousand nine hundred and twelve.

Many of the oldest and staunchest Republicans of Massachusetts have written friendly letters to Charles Sumner, expressing deep regret at his recent political action. On his return to Boston Sumner found himself without friends. The friends of other days refused to call on him, and he so keenly felt the loss that he remained for several days in the rooms of his hotel.

Says the St. Louis Democrat: The Cincinnati Enquirer affects indignation over a recent paragraph in the Democrat, which propounded this conundrum: If stocks went down and gold went up on the mere rumor of a Democratic victory in North Carolina, what would be the effects on stocks and gold of the actual fact of Greeley's election? The Greeley organs may scoff and sneer as much as they please at such questions, but they are vital to the Presidential issue. The people of this country can never be got to hate Grant sufficiently to bankrupt themselves to defeat him, or to love Greeley well enough to incur national financial ruin for the sake of electing him.

HUMOROUS.

An editor out in one of the Territories has become so hollow from depending upon printing for a living that he proposes to sell himself for stove-pipe at three cents a foot.

The mother of a charming Danbury girl would not let her marry a conductor, because she didn't want her doors slammed off.

A Leavenworth editor doesn't now spend time watching the little busy wasp that gathered hnt in his sanctum to make its nest. He came in one day and did not observe that the wasp was sitting in his chair.

A man out West says he moved so many times during one year that whenever a covered wagon stopped at the gate, his chickens would fall on their backs and hold up their feet, in order to be tied and thrown in.

If you want a pair of boots to last four years, melt and mix four ounces of mutton tallow, apply while warm, place the boots in a closet, and go barefoot.

The editress of a Western journal apologizes for the detention of her paper. "Because of the arrival of an extra male."

Barium's gorilla was heard to remark, one hot day, that "he'd be— if he'd wear a hair overcoat much longer this hot weather for \$10 a week."

A Massachusetts paper publishes this outrageous slander: "Thirteen old maids from Vermont lately went to Wyoming Territory to get husbands. The men there said they preferred spawns, and the Vermont ladies are mad."

A good natured traveler fell asleep in a train and was carried a few miles beyond his destination. "Pretty good joke, this, isn't it?" said he to a fellow passenger. "Yes, but a little too far fetched," was the rejoinder.

A father was winding his watch when he said playfully to his little girl:

"Let me wind your nose up." "No," said the child, "I don't want my nose wound up, for I don't want it to run all day."

Two brothers were to be executed for some enormous crime. The eldest was turned off first, without speaking; the other mounting the ladder, began to harangue the crowd: "Good people," said he, "my brother hangs before my face, and you see what a lamentable spectacle he makes; in a few moments I shall be turned off too, and then you will see a pair of spectacles."

"Myneer, do you know what for we call our boy Hans?" "Do not, really." "Well I will tell you. Der reason we call our boy Hans, it ish his name."

An exchange says:—This is the fifth trout caught this year from the same 'hole,' the total weight of which is six pounds. "Good," says the Ottawa Citizen, "now we know what a hole weighs."

DR. VANCELEVE'S Galvanic Abdominal Supporter

—AND— UTERINE REGULATOR.

THE MERITS OF THIS INSTRUMENT consist principally in the support it gives to the abdomen and spine. The belt is broad, supported by suspenders passing over the shoulders, and kept in shape by self-generating Galvanic Plates, which give a pleasant current.

The Regulator is also Galvanic: its Cup and Nozzles are made of Silver; its Stem, of Copper and Zinc, is hollow, that injections may be thrown through it, or into the neck of the Uterus. It can be so regulated by its thumb-screw as to meet any mal-position of the Uterus, and is unequalled in meeting any form of female disease.

Price, \$25. Patented August 15, 1871, by W. S. Van Cleave, Centralia, Illinois. Territory for sale, or will receive Royalty for manufacture. For State or Territorial rights to manufacture and sell on the Pacific Coast, apply to COLL. VAN CLEVE, Albany, Oregon.

SPECTACLES. MONEY CAN NOT BUY IT, FOR SIGHT IS PRICELESS!

But the Diamond Spectacles will preserve it.

WE NOW OFFER A GLASS TO THE public which is pronounced by the most celebrated opticians of the world to be the most perfect, natural, artificial help to the human eye ever known. They are ground under our own supervision, at our own manufactory, in New Haven, and are so constructed that the core or center of the lens comes directly in front of the eye, producing a

CLEAR AND DISTINCT VISION,

As in the natural, healthy sight, and preventing all important sensations, such as gimmering and wavering of sight, dizziness, etc., peculiar to all others in use.

These glasses are manufactured from minute crystal pebbles melted together, and derive their name, "Diamond," on account of their hardness and brilliancy. They are mounted in the best manner, at our own manufactory, in all styles of gold, silver, steel, rubber, and shell frames, of the best quality. Their durability can not be surpassed, and their finish is such as will suit the most fastidious. None genuine unless bearing our trade-mark, & stamped on every frame.

For sale by the principal opticians and jewelers, throughout the country. Manufactured by J. E. Spencer & Co., practical opticians, New York. For sale only by TITTS BROTHERS, Dealers in watches, clocks, jewelry, silver ware, etc., Albany, Oregon.

Entered according to act of Congress, in the year 1868, by J. E. Spencer & Co., in the clerk's office of the District Court of the United States, for the Southern District of New York. 3073

THE NEW FAMILY SINGER SEWING MACHINE, WITH ATTACHMENTS FOR ALL KINDS OF WORK.

It is fast winning favor in the household, as shown by the rapidly increasing sales. This NEW FAMILY MACHINE is capable of a range and variety of work such as was once thought impossible to perform by machinery. We claim and can show that it is the cheapest, most beautiful, delicately arranged, nicely adjusted, easily operated, and smoothly running of all the Family Sewing Machines. It is remarkable not only for the range and variety of its sewing, but also for the variety and different kinds of texture which it will sew with equal facility and perfection, using silk twist, linen or cotton thread, fine or coarse, making the interlock, decorative stitch, alike on both sides of the fabric sewn. Thus, beaver cloth, or leather, may be sewn with great strength and uniformity of stitch; and, in a moment, this willing and never-wearying instrument may be adjusted for fine work on gauze or gossamer tissue, or the tucking of turban, or ruffling, or almost any other work which delicate fingers have been known to perform.

Apply to S. H. CLAUGHTON, AGENT FOR LINN COUNTY, LEBANON, OREGON.
