QUARTZ MILL.—When a rich vein or lode of silver or gold bearing quartz has been discovered, a good location, as near the lode as may be, is secured, and a mill erected for crushing the quartz. Whenever a water-course is handy, the mill is erected near its banks, as the power furnished by water is much cheaper than any other. The old-fashioned wheel, as represented in the above engraving,

The Result of Greeley's Election.

In Wendell Phillips letter to the colored people, occurs this paragraph, which white folks may consider as well as colored:

If Greeley is elected we will spend the next four years in fighting over the war quarrels, the constitutional amendments, negroes' rights, state rights, repudiation and southern debts, and we shall have, besides, a contemptuous ignoring of the labor question. Its friends were at Cincinnati. The convention scorned their appeals, and Mr. Schurz himself affirmed that labor was not a live issue. President Grant means peace, and opportunity to agitate the great industrial questions of the day. President Greeley means the scandal and wrangle of Abby Johnson's years over again, with secession encamped in Washington. The saddest line to me of Mr. Sumner's letter was where he warns you colored men not to band together in the hostile camp and keep alive the separation of races.
