SEWING MACHINES.

A BIG VICTORY!
FOR THE
New Wilson
Underfeed Sewing Machine!

IT WILL DELIGHT THE MANY friends of the
NEW
Wilson Improved Sewing Machine.

To know that in the stubborn contest for superiority in samples of work, at the great Northern Ohio Fair, their favorite has carried off the two great premiums—the Medal for best six specimens machine work, and the Diploma for best embroidery. As the great competition was in these two classes, it will be seen that the Wilson's victory is complete. We knew this would be so; it could not be otherwise. There is no talking down the fact that the New Wilson is the best Family Sewing Machine now manufactured—capable of doing the best work on any kind of goods, under all circumstances.

This award of the highest premium should and will silence the talk of that large class of sewing machine men who have made this machine the object of their special enmity, simply because it is a moderate priced machine and undersells their expensive ones.

Go and see the Premium New Wilson Sewing Machine, the best in the world, now on exhibition at Snow & Roos Art Gallery, 73 First street, Portland, Oregon, and remember you can buy this premium machine for \$50.

Elder Stover of Paris, Ky., who has preached for five years, is now eighteen years old.

Statistics show that not one woman in a hundred marries the man she loves.

He who receives a good turn should never forget it; he who does one should never remember it.

The population of Russia is 85,500,000 souls.

There are 100,000 women in Paris named Marie.

There are only 214 persons in Chicago between the years of 12 and 21 years who cannot read and write.

The Good Templars of Kentucky number 2,300.

Nearly \$1,200,000 are invested in herds in Colorado.

London supports a police force of 8000.

The length of the German mile is to be increased 33 per cent.

Central Park, New York, is to have a bronze Angel of Mercy, at a cost of \$125,000.

The Emperor William of Germany has recently bought a two-page letter of George Washington for two hundred dollars.

It took exactly three days and six hours to weigh the five hundred million francs recently sent by the French Government to Emperor William of Germany.

Few people know, and thousands do not know, that by sitting a glass fruit jar on a folded towel, thoroughly soaked in cold water, the fruit can be poured in boiling hot, with no more danger of breaking than with a tin can. Cut this out and paste it in your cupboard.

There are living of the family of the late Benjamin Reynolds, of Wayne county, seventy-six grandchildren, one hundred great grandchildren, and ten great great grandchildren. The great great grandmother is still living.

The oldest artesian well in Europe is at Lillers, in the Pas de Calais, France, and from its mouth water has flowed uninterruptedly for seven hundred and fifty-six years.

The Norwegian clergy are very fond of their grog. The preacher takes his spirits in the vestry, after his labors, and at clerical gatherings wine, beer and punch are liberally provided.

Du Chaillu, the celebrated African explorer, is back from his travels through Sweden and Norway, with fresh stores of information about that wild and comparatively little known region of Europe.

It is mentioned as a curious fact by old woodmen that the beech and sycamore trees are never struck by lightning, though found in close proximity to oak, hickory, and trees of other species, that have been seamed or torn to pieces by the subtle fluid.

"I am a missionary in my nursery," once observed a Christian mother. "Six pairs of little eyes are daily watching mamma's looks, as well as listening to her words; and I wish my children never to see in me that which they may not imitate."

A curious "roadster" made first time lately in Paris, easily distancing all competitors. This was nothing else than an ostrich from the Acclimation Society's Garden, which was harnessed to a light carriage and guided by long reins by its trainer. It is said to have proved very tractable in harness.

SUGAR FOR GLAZING CAKES.—Put into a vessel with a little water, the white of one egg well beaten and stirred well into the water; let it boil, and while boiling throw in a few drops of cold water. Then stir in a cup of pounded sugar. This must boil to a foam, then be used. This makes a beautiful glazing for cakes.

TOMATO CUSTARD.—This is said to be a beneficial diet for consumptives. It is made by straining finely stewed tomatoes through a coarse sieve, and adding two pints of milk and one pint of tomatoes four eggs and one teaspoonful of sugar. Bake in small cups, quickly.

HOW TO MAKE PUDDING QUICK.—Split a few crackers, lay the surface over with raisins, and place the halves together again; tie them closely in a cloth and boil fifteen minutes in milk and water. With a rich sauce it is elegant.

SMOKY LAMPS.—To prevent the smoking of a lamp, soak the wick in strong vinegar, and dry it well before you use it; it will then burn bright and clear, and amply repay you for the trifling labor.

In Virginia, S. H. Platt, Republican, is chosen to Congress.

The Tribune (N. Y.) has conceded to Grant 260 electoral votes at least.
