

## SEWING MACHINES.

# THE Finkle AND Lyon

## SEWING MACHINE

Is beyond question more perfect for

**All Kinds of Work,**  
than any other machine in use. It is a  
combination of

**Simplicity, Durability & Economy,**  
manufactured of the very best imported  
steel. The

## FINKLE & LYON VICTOR

is unequalled for quietness and ease of run-  
ning, self-feeding needle, perfect stitch,  
its operation is positive, enabling it to

**Run Over Seams and Turn Corners**  
without changing the tension, length of  
stitch, or stopping the motion of the ma-  
chine. Will sew any kind of material cut  
with straight and bias edge.

## WITHOUT BASTING.

entirely preventing the fitness of either  
side. It has a more perfect feed than any  
other machine. Takes all the stretch from  
the goods, operating with equal facility on  
the heaviest as well as the lightest fabric,  
leaving a seam alike on both sides, beauti-  
fully smooth, strong and elastic; is espe-  
cially adapted to the diversified wants of

## Family Sewing.

and is so simple in its construction that it  
can be used with *accuracy* by the most inex-  
perienced.

**Especially adapted to Tailoring and  
Leather Work!**

It will hem, fell, truck, gather and sew  
upon a band at the same time, which obvi-  
ates the tedious necessity of basting. It  
will do any kind of work done on a sewing  
machine, with less changing and adjusting  
than any other machine ever presented to  
the public. It will

## SOMETHING ENTIRELY NEW

## THE BANNER

Shuttle Sewing Machine,

With Table and Treadle Complete.

Stitch alike on both sides of the cloth, and  
cannot be unraveled.

3,000 stitches a minute, without noise,  
skipping of stitches, or breaking of  
thread.

First introduced in June, 1870.

Patented in the United States and all the  
principal countries of Europe.

The new BANNER SHUTTLE SEWING  
MACHINE is sold for less than any  
other first class sewing machine, and is  
guaranteed to be built in a more substan-  
tial manner, to have less working parts,  
run at a greater speed, to make less noise,  
to be more beautifully finished, to miss less  
stitches, and do a greater variety and bet-  
ter quality of work than any machine made  
in the United States, either high or low  
priced. All of its working parts are made  
of the best refined steel, every part made  
to a gauge and interchangeable. It uses  
newly invented, thread, silk and linen of any size,  
and works with equal facility on the thickest  
woolens or thinnest muslin. It will hem  
fell, truck, braid, cord, ruffle, blind, blind,  
quilt, stitch, seam, gather, hem-stitch and  
embroider in the most perfect and beauti-  
ful manner. No skill required to "set" a  
needle, as every needle is so made that it  
is impossible to put one in and get it wrong.  
Every machine is warranted for five years.  
Call at Register Building and see it.

The *Bulletin* has this: A bottle of  
arsenic should be in every family. It  
is recommended by physicians, and is  
a truly useful medicine. It is one of  
the few medicines that meet the re-  
quirements demanded of them you  
may rely upon it. It is used in cases  
of bruises, swellings and deep sores.  
Nothing is so equal in sprained joints  
and in broken limbs. Simply wash  
the parts affected. Dentists highly  
recommend it; it is applied for the  
toothache outside on the face and on  
the gums; it will relieve the pain and  
subdue the swelling. It will not cure  
the toothache; the forceps alone will  
do that where the case is a regular one  
of exposure of the nerve, inflamma-  
tion and pain.

A dispatch to London from Stral-  
sund on the 16th inst. reports that 80  
vessels were totally wrecked by the  
late gale. The town was considerably  
damaged by the inundation. The  
fishermen on the islands of Clogst,  
Daro and Hiddenzol lost all their fish-  
ing smacks and apparatus, and their  
houses and tents were greatly damag-  
ed. Nearly all the cattle on the is-  
lands were drowned. Wells were  
flooded from the sea, and the inhabi-  
tants are suffering for want of fresh  
water, food and shelter. The Govern-  
ment has dispatched a steamer laden  
with supplies to their relief. The  
island of Rügen also felt the disaster  
heavily. Many of its fishing boats  
were destroyed. Fields near the coast  
line were flooded. The loss of life,  
both on the islands and mainland is  
very great.

THE NEAREST SUICIDE YET.—The  
latest novelty in suicides comes from  
Cleveland, Ohio, where an individual  
who had drawn a blank in a lottery,  
went to his death after the following  
unique and elaborate fashion: He  
first produced a loaded revolver and  
connected it with clock-work so that  
it should be fired off at a certain time.  
He then got into bed, and, after plac-  
ing the pistol behind his ear, took a  
dose of chloroform. Under the influ-  
ence of the narcotic he then went to  
sleep. At the given time the clock-  
work pressed the trigger, discharging  
the pistol and landing the slumberer  
into eternity. This device is an ac-  
cession to the plain self-shootings and  
hangings of ordinary suicide, and, on  
its mechanical merits, seems neater,  
if not quieter, than the guillotine.
