resources of agriculture. manufactur-ing, lumbering, fishing and mining interests. THE ALBANY AND SANTIAM CANAL Now being built, is a sample of what is in store for the county of Linn and Oregon generally. This company was incorporated only a few months since, with a capital of \$30,000 ; it commenc-ed work on the 8th of October and will have all the deep cutting completed in January and the canal finished in a way. The design of the canal is to year. The design of the canal is to bring the water from the south branch of the Santiam river to Albany, a dis-tance of twelve miles. The outling from the river for more than a mile is an average of fifteen feet deep : twenty feet wide at the bottom and fifty

of these Bitlers. One bottle in such cases will convince the most incredulous of their curative effects. **Cleanase the Vitisted Blood** when-ever you find its impurities bursting through the skin in Pinpies, Eruptions, or Sores : cleanse it when you find is obstructed an: singgish in the veins ; cleanae it when it is foul ; your feelings will teil you when. Keep the blood pure, and the health of the rystem will follow. **Pins, Tape and other Worms,** inring in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist : There is scarcely an individual on the face of the cart whose body is exempt from the pres-ence of worms. It is not upon the healthy cleanents of the body that worms exist, bai upon the diseased humors and aliny deposites has breed these living monaters of disease. No system of medicine, no vermifuges, no anthelminitics, will free the system from worms like these Biters. **Meclaanical Diseases.**—Persons en-psignd in Paints and Minerals, such as Plumbers, Typesetters, Gold-beaters and Miners, as they advance in life, are subject to particip of the Dowesk. Monuments, Obelisks, Tombs,

teet wide at the top. This cutting will cost \$12,000. The balance on the canal will be through an open priarie teu miles, the cutting of which will not require to be deeper than four feet and will cost from \$1.500 to \$2,000 a mile. The fall from the Santiam river to Albany is a hundred feet and will require two locks on the line to control the water. The first and primary object of the canal is to afford an ample water power for all kinds of manufacturing purposes, so as to make Albany a great centre of manufacturing interests as distinguished for its woolen. agricultural and other manufactures as it is for its superior flour. The canal will supply at its completion at least water power for nine mills, with a fall for each varying from nine to twenty feet. The water-power can be extend-ed to great proportions. The directors do not intend to commit the common blunder of asking too much for watersites and the water-power; ou the con-trary, every facility will be offer d to encourage the investment of capital by manuficturers from all parts of the United States and Europe. More than 500,000 bushels of wheat were shipped from Albany last year and at least 1 .-000,000 from the county at different points between Albany and Harris-burg. In less than ten years from this, Linn county will produce 4,000.-000 pushels of wheat, for the hulf of the wheat soil is lying comparatively idle at present, and the average production can and will be doubled in that, time. The canal will be available for float

Mechanical Diseases, --Persons ch-raged in Paints and Minerals, such as Plumbers, Typesetters, Gold-beaters and Miners, as they advance in life, are subject to paralysis of the Bowels. To gnard against this, take a dose of WALKER'S VINEGAS Bir-russ twice a week. Birthess for sens, which are so prevalent in the valleys of our great rivers through-out the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennes-see, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vest tributaries, through-out our entire country during the Summer and Autumn, and remarkably so during sea-sons of unusual heat and dryness, are in-variably accompanied by extensive de-rangements of the stomach and liver, and other stoominat viscent. In their treat-ment, a purgative, exerting a powerful in-fully necessary. There is no cathartic for the purpose equal to DB. J. WALKER'S VINE-de State-Colored viscid matter with whitch the bowels are loaded, at the same timo simulating the secretions of the liver, and outer storement in the stress while speedily remove the dark-colored viscid matter with whitch the bowels are loaded, at the same timo simulating the secretions of the liver, and outer storements of the string's Evelf, White Weilings, Ubern, Erystpleias, Swelled neck, office, Scothaus of Matter with Arbeitons, of dores, Eruptiona of the String 'Neroson's minimution, Marcruin Arbeitor, other theometon of the String's Viney-mines have shown their great curative pow-tents.

cases. Br. Walker's California Vinc-gar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflammation (the tubercular deposits) the affected parts re-ceive health, and a permanent care is effected.
