## The Centennial Anniversary of the Republic.

**FELLOW CITIZENS OF LINN.**—The undersigned committee appointed at the suggestion of the Hon. A. J. Duffur, Acting Commissioner for Oregon, call your attention to the Act of Congress of March 3d, 1872, "To provide for celebrating the One Hundredth Anniversary of American Independence, by holding an Industrial Exhibition of Arts, Manufactures, and products of the Soil and Mines, in the city of Philadelphia, in the year 1876."

It is intended by appropriate ceremonies, to celebrate the completion of the first century of our Republic, on the site of its birth, and amidst scenes hallowed by the early struggles and triumphs of freedom.

Suitable grounds are already provided, capacious and magnificent buildings will be erected in which to exhibit our national progress since our birth into the family of nations; setting forth the natural and industrial resources of the country, their development, and our progress in the arts that benefit mankind, in comparison with those of older nations.

The Exhibition will remain open six months, from the 10th of April, 1876. All the nations of the earth are invited to participate in the privileges of the Exhibition, which will thus be made a grand panorama of the world's progress.

Millions of our citizens, and vast numbers of other nations, will be attracted to the scene of this magnificent spectacle—the first International Exhibition in honor of Republican Government; the world bearing garlands to adorn the brow of Liberty, on the first centenary of her highest achievement.

This unprecedented occasion will doubtless arouse the spontaneous enthusiasm, pride and gratitude of our entire nation; will be the era of good feeling and patriotic union; and will be attended with a more impressive grandeur, than has ever heretofore been witnessed in our own, or even in other lands.

The preliminary preparations, and general direction of the Exhibition, is confided by law to a Board of Commissioners, consisting of one person from each State and Territory, nominated by their respective Governors.

A grand stock company has been formed under charter from the U. S.; the Body Corporate known as the Centennial Board of Finance, to terminate when the object of its creation shall be accomplished.

The Corporation consists of the persons named in the act and their legal successors; being two members for each U. S. Senator and one for each Congressman and Delegate.

The Capital Stock shall not exceed \$10,000,000, and is divided into shares of Ten Dollars each, and apportioned to the States and Territories in the ratio of population.

Two dollars in currency is to be paid at the time of subscription, on each share taken; not more than two dollars per share shall be assessed at any time, and 90 day notice given in each case. The receipts of the Exhibition will largely reimburse the fund, and the honor of the nation will be in pledge for the redemption of every liability incurred; so that it is improbable that the full amount of the subscription will ever be called for.

Parties properly authorized to take subscriptions will visit the different parts of the county with subscription books duly authenticated, and all moneys will be paid over to W. S. Ladd, Esq., of Portland, the Treasurer of the Commission for Oregon.

A finely engraved certificate will be issued to every stockholder, bearing the signatures of the President and U. S. Treasurer; these will be transferrable under rules and regulations to be made known, and will entitle the holder to the privileges of the Exhibition.

At the close of the Exhibition, all the property will be sold and the proceeds and other unexpended income, will be divided to the stockholders.

Other International Exhibitions have yielded a net income, and we may reasonably expect for this the highest pecuniary success.

Oregon has been allotted to her 2,000 shares, 200 to be taken in Linn county. The prospect is that over one third of this amount will be taken in the city of Albany.

The Executive Committee will take measures to address the people of the

different sections of the county at an early day.

This great national enterprise, appealing alike to our State pride, and patriotism, will not fail, we believe, to secure the heartiest response and be crowned with complete success.
