

Albany Register.

LOCAL MATTERS.

POST OFFICE RE-ENTER.

MAILS ARRIVE:

From Railroad (north and south) daily at 12:30 P. M.
From Corvallis, daily, at 10:30 A. M.
From Lebanon, tri-weekly, (Monday, Wednesday and Friday) at 10:30 A. M.

MAILS DEPART:

For Railroad (north and south), daily, close prompt at 11:30 A. M.
For Corvallis, daily, at 1:50 P. M.
For Lebanon, tri-weekly, (Monday, Wednesday and Friday) at 2 P. M.
Office hours from 7 A. M. to 8 P. M.
Sunday, from 12 M. to 2 P. M.
Money order office hours from 9 A. M. to 4 P. M.
P. H. RAYMOND, P. M.

SODAVILLE AND WATERLOO.—Sodaville is about seventeen miles from this city, at the foot of the hills, while Waterloo is on the roaring Santiam, about three miles farther, or twenty miles from this city. There is a good road all the way, and as the distance is comparatively nothing, both places are extensively patronized, especially on Sunday. There are a large number of people camped at Sodaville, having gone there to get the benefit of the waters from the spring. Last Sunday there were, it is said, several hundred visitors there. At Orleans there are two fine springs—a high water and a low water spring—quite a distance apart. During high water, when the Santiam is on the rampage, and the lower spring is entirely covered with water, the upper spring furnishes cold, sparkling, delicious soda; as soon as the waters fall, and the lower spring assumes its "normal condition," the upper spring goes entirely dry. To our taste the soda from the Waterloo springs is much more palatable than any of the other springs, although there are to be found just as many advocates of Sodaville and Finlay's—which latter is still farther up the Santiam, among the huge boulders and towering mountain peaks. Quite a number of invalids are at present quietly enjoying life at Waterloo, which consists in boating, fishing and drinking soda. A foot-bridge leads across the rocky bed of the river from the town to within a few feet of the opposite shore, where the lower spring sends up its cooling, sparkling waters. The river rushes and roars and foams over its jagged, rocky bed, torn into numerous channels, making a noise that can be heard for miles. There is just enough danger, in crossing the rude bridges thrown across the several channels, cut through the rocks by the boiling, rushing waters, to arouse the mind, quicken the pulse, and send the blood through veins and arteries with increased speed. A fine lumber as well as grist mill is located here, the former having a capacity of 7,000 feet of lumber per day. The mills, we believe, were erected by the late Morgan Keys, and the best lumber in the valley has been furnished here. One of these days some enterprising man will erect a fine hotel near the springs, and reap a rich harvest therefrom.

PALOUSE COUNTRY.—From Mr. A. P. Flory, who arrived down from the Palouse country, Washington Territory, on Friday last, we learn that that section of country is enjoying prosperity; that the stories in relation to the depredations by crickets are stretched—grown larger by travel. The crickets have done little or no damage, and the growing crops have not suffered. The grass is green and luxuriant, and stock are "rolling fat." His county, Whitman, will turn out 80,000 bushels of wheat at the coming harvest—a huge yield for a first crop. Ed. Beach is turning out some of the finest kind of lumber, for which there is good sale. A grist mill is to be erected about the center of Palouse valley before Fall. A large number of emigrants, via Humboldt, were reported on their way to settle in the Territory. Mr. Flory came down by land, making the trip in fifteen days.

OFFICERS ELECTED.—The Good Templars' Lodge of this city, have elected the following officers for the new term, commencing August 5th: A. N. Arnold, W. C. T.; D. E. Taylor, W. S.; Starr Mealey, W. F. S.; A. T. Arnold, W. T.; Miss Ida Rideout, W. M.; Miss Minnie Allison, W. I. G.; R. Fox, W. O. G. and Host.

HOT.—"Ain't it hot, though?" has been the popular salutation in these parts, for some days. Handkerchiefs have filled full and dripped with the perspiration sopped from the faces of slowly oozing mortals. Small rivulets and rills have flowed down arms, bodies and legs, leaving dabs of suspicions wet here and there on the clothes and saturating the socks until it would squish in the boots. The sun has been the cause of it. The old shiner has caused the people to rain through their pores, instead of rolling up clouds to pour down rain. He has caused the thermometer to indicate from 80° on up to 100°, in the shade. It's too bad. It's miserable to sweat so. It taps one of much loose moisture and runs it straight through the pores of a starched shirt with impunity, leaving him dry and that full, which he must pack around. The emptier he gets the more he wants to drink, causing more sweat to come, which wets things more, and the squish in his boots speedily becomes a sonorous squish. We in Albany, though, are not the only ones who have been suffering from heat. They have been "biling" East, and across the briny main they have almost sizzled as they have blistered in the sun. Eighty-five in the shade is 'orrid for John Bull, and he wipes and puffs, and gasps, and goes around red in the face like a boiled lobster, groaning for a breath of cool air.

LEG BROKEN.—On Sunday last a little son of Mr. Calloway, aged nine or ten years, we should suppose, met with a severe and painful accident at the soda springs opposite Waterloo. A shed has been erected over one of the springs for the benefit of those who wish to use the water, and under the shed seats have been arranged around three sides. There was a jam of visitors there on Sunday, and every available spot on those plank seats was occupied. So great was the weight on one of the seats that it gave way in the center, precipitating the occupants to the ground, while one end of the seat struck young Calloway, knocking him down and breaking his leg, in two places, between the knee and ankle.

THE LINN CO. FARMER'S UNION WAREHOUSE.—At Shedd, will be in good order for the reception of grain at the opening of the harvest season. It has been furnished with steam engine to drive elevators, and the facilities for receiving, handling and storing grain are not excelled anywhere in Oregon. Its facilities will be available to all parties alike, on same terms, which will be as low as are consistent with honorable dealing and fair profit. Sacks in any required quantity will be furnished on fair and equitable conditions. For particulars enquire at the warehouse, or at the store of A. Wheeler & Co. 48w3.

NEW DRESS.—Through some inadvertence we omitted to mention last week, the neat and elegant appearance made by the Oregonian since it has donned its new dress. It is now set in brevier, minion and nonpareil, broad-face, presenting a neat, clean appearance, creditable to all concerned. We are glad to see this evidence of prosperity on the part of our cotemporary.

MUTATION.—We learn that the Rev. Mr. Butler, who has been pastor of the Congregational Church of this city for years past, intends going to Dallas to fill the pulpit of the State Geologist, Rev. Mr. Condon, who takes charge of the College at Forest Grove. His departure from among us will be lamented by many warm personal friends.

COME DOWN.—A circular has been issued to the printers of Oregon, by the craft at Oregon City, asking their aid in the erection of a suitable monument over the grave of John Fleming, the "Pioneer Printer" of Oregon. We hope printers generally will respond.

CAUSE AND EFFECT.—The average Albanian looks tired these days; the fatigue being superinduced by his continued sopping of large sized sweat from his massive marble brow.

LOTS OF 'EM.—Waggons loaded with wool have been coming in quite numerous during the week.

PERSONAL.—Thos. G. Young, U. S. Marshal for Oregon, came up from Portland on Wednesday, going back on Friday.

A. B. Mencham, Esq., passed over the O. & C. Railroad, en route for Yreka, on Wednesday.

Rich'd. Williams, Esq., of Portland, came up on Wednesday.

Gus. Wheeler went to Salem on Tuesday.

Al. Wheeler, of Wheeler & Co., at Shedd, passed down the road to Portland on Tuesday.

Mr. A. P. Floy, of Washington Territory, called on Thursday.

Charles E. Warren, a practicing Attorney of Oregon City, gave us a call on last Wednesday.

Mr. O. L. Tompkins, of Harrisburg, called a few days ago. He was going down to Clatsop Beach, to get the benefit of old ocean's zephyrs for a few weeks.

Charley Cartwright came up from Salem on Tuesday—the same old tramp.

Mr. Eli Carter returned from Yaquina Bay on Saturday. Says the accommodations are good and the company excellent at the Bay.

Dr. Smith, of Halsey, was in the city on Thursday.

Prof. Francis, of Salem, called on Thursday.

Prof. Fowler arrived on Thursday. He will remain but a few days.

Mrs. Eli Carter, Mrs. Cranor, and others, are rusticated at present at Yaquina Bay.

Mrs. P. C. Harper, whose health has been poor for some time past, went to Waterloo on Wednesday to try the virtue of pure air and soda water.

Pat. Farrel has quit chiseling things out of marble, and gone to swopping sugar and calico for eggs, butter, peltries and bacon, at Lebanon.

L. Blain, of Blain, Young & Co., is preparing for a trip to "Frisco" to lay in a new "crop" of goods and things.

H. C. Clement went hence to Tacoma last week. The last we heard of him he was in Portland, still owning real estate in Tacoma.

ANNUAL ELECTION.—The stockholders of the Albany & Santiam Canal Company hold their annual election for seven directors to serve for the next twelvemonth at their office in this city, on the second Tuesday in September next.

ICE CREAM.—Mr. J. E. Smith favored the REGISTER office with an ice cream blow out last Saturday, which was appreciated. Smith is doing his best to help our people to keep cool, and his endeavors should be rewarded liberally. Patronize him.

WESTLAKE & HOWELL.—Are now engaged in building a large warehouse and agricultural rooms, on the corner of Ellsworth and First streets. The building will be completed in two weeks, at which time they will be ready to receive the coming harvest.

BATHING.—The mouth of the Calipsoia is the place where the boys go to soak the outside of their hides, this warm weather. The way they disport themselves in the liquid element puts the little fishes to the blush.

VIEWS.—We are under obligations to our artist friend, Mr. Crawford, of Harrisburg, for several well executed views of Harrisburg and scenery adjacent. Mr. C. is one of the best artists in the State.

RELIGIOUS.—Rev. Mr. Okes preaches in the Pacific Opera House next Sunday, at 11 o'clock A. M. Prof. Fowler lecture at same place in the evening.

BUSTED.—The Odd Fellows picnic isn't to come off on the 19th prox., but has been postponed to the 27th moon. Selah.

MUCHEE WOOL.—One firm in this city has purchased 150,000 pounds of the spring clip of wool. Twenty-four cents a pound was the price paid.

A KINKY SUBJECT.—The Grover carried away from this port, on Wednesday, lots and snarls of wool, and snarls and lots keeps coming in.

WHEAT.—Buyers offering but 68 cents per bushel.

WOOLEN MILLS.—As the Santiam Canal will soon be completed to this city, a large amount of water power will be at our doors ready to be used in running machinery, etc., but so far no effort has been made to render this power useful. It is high time, therefore, that some steps be initiated, looking toward making it useful. As we have time and again asserted, a portion of this water power could be used to splendid advantage in propelling the necessary machinery for a woolen mill. And we also take occasion again to say, that there is no other industry that will prove of more general benefit to this community, nor one that will be productive of larger dividends to the stockholders, than a well conducted woolen mill. One of the best informed and most successful woolen manufacturers on this coast, a gentleman of liberal means and splendid business ability, stands ready to erect and put in successful operation a factory of this character in this city, investing largely in the enterprise himself, provided our citizens will aid the enterprise with the necessary subscriptions. If our people feel any interest in the matter, let them show their hands.

FINANCIAL AND COMMERCIAL.

Gold in New York 115½.

Wheat in Liverpool 11s 5d @ 11s 11d; Club 12s 2d @ 12s 4d.

Legal tender notes, 85½ @ 85½.

The demand for gold for Germany having been satisfied, the Bank of England has lowered its discount to 4½ per cent.

The wheat crop in the Eastern States is now ascertained to be in excess of last year, which was fully up to the average. The yield in California will fall off from one-fifth to one-sixth less than that of last year. The yield of wheat in Oregon this year is figured at between 2,000,000 and 3,000,000 bushels, besides other cereals. To move this enormous crop to market will require one hundred and fifty-six vessels of more than five hundred tons each. Whether it will be possible to secure that number of grain carrying vessels, or a sufficient number of vessels of larger carrying capacity, remains to be seen. The number of vessels already secured or chartered is small as compared to the number needed. And right here is the trouble—if the vessels can be secured the grain can be freighted to a good market where good prices can be obtained; but if the necessary tonnage cannot be secured the grain can not be removed, and the price of grain will remain down. Tonnage the world over, at the present time, rules high. We hope that sufficient tonnage to remove all our surplus grain can or will be secured, but we have no data at present which would warrant us in asserting that such is the case.

San Francisco quotations show wheat at \$1 15½ to 80 per 100 lbs for good shipping.

Portland quotations give wheat at \$1 50 per cental; oats 42½ @ 45c per bushel; hay \$10 @ 13 per ton; butter 15 @ 25c per lb; eggs 20 @ 22c per dozen; chickens \$2 75 @ 3 per dozen; wool, last quotation, 23½c per lb.

Eggs—Are selling at 18c per dozen; butter at 19c per pound.

A want has been felt and expressed by physicians for a safe and reliable purgative. Such a want is now supplied in *Parson's Purgative Pills*.

Henry K. Bond, of Jefferson, Maine, was cured of spitting blood, soreness and weakness of the stomach, by the use of *Johnson's Anodyne Liniment*.

The Wear and Tear of Life.

The cares, anxieties and misfortunes of life have as much to do with shortening it as disease. They are in fact the source of many ailments and physical disabilities. Nervous weakness, dyspepsia, anæmia, of the liver, displacements of the bowels, heartache, hypochondria and monomania are among these distressing fruits. It is therefore of great importance that persons whose minds are oppressed with heavy business responsibilities, or harassed by family troubles, or excited by speculation, or perplexed by a multiplicity of enterprises, or in any way overtaxed or overworked, should keep up their stamina by the daily use of a wholesome tonic. Thousands of persons thus circumstanced are enabled to bear up against the difficulties in which they are involved, and to retain their strength, health and mental clearness, by the regular use of Hostetter's Stomach Bitters. Diseases which are prone to attack the body when debilitated and broken down by over-much brain work or exhausting physical labor, are kept at bay by the resistant power with which this incomparable tonic endows the nervous system and the vital organs. At this season, when the heat is evaporating the elements of strength from every pore, an invigorant is absolutely essential to the safety and comfort of the public, and is required even by the more robust if they desire to keep their athletic capabilities in status quo. Hence a course of Hostetter's Bitters is particularly useful at this period of the year as a defense against the insidious disease called a "nervy stomach." It is the most potent of all preventive medicines, and for all complaints which affect the stomach, the liver and the bowels, and interfere with the perfect digestion and assimilation of food, it is the standard remedy.

ICE CREAM.—Mr. Smith (an uncommon name) has opened an ice cream saloon in the first story of the REGISTER building. We shall keep cool if there's virtue in ice.

HAY.—A great deal of hay has found its way into Albany barns during the week. The price charged has been \$7 per ton.

There are said to be between 500 and 1,000 people camped in the neighborhood of the several soda springs on the Santiam.

BUSY.—The numerous orders for soda that come pouring in on A. Carothers & Co. during the hot weather, keeps the boys busy and in good spirits.

SEASONED LUMBER, ETC.—For Rustic Ceiling, seasoned Mountain Flooring or Finishing Lumber, go to Briggs & Carter's planing mill, adjoining the saw mill in Albany, where they keep a good article for sale, and are prepared to manufacture Rustic Ceiling, match flooring, dress lumber, or do any other work in the planing mill line at short notice, and on reasonable terms. Doors, sash, moldings, etc., always on hand, at prices to suit the times. Satisfaction guaranteed. ED. R. M. CARTER, Superintendent.

BRICK WAREHOUSE—WHEAT AND OATS STORED.—C. D. Simpson, having rented the brick warehouse lately occupied by Messrs. Cowan & Co., is prepared to store grain at the coming harvest in good shape. Sacks furnished to order. Grain stored at my warehouse will be subject to the order of owners—they disposing of it as suits them best, merely paying me storage thereon. I am prepared to purchase Wheat, Oats, Wool, &c., paying the highest market price therefor in cash. Call and see. 45v5m2 C. D. SIMPSON.

A. WHEELER. C. P. HOGAN. C. B. WHEELER.

A. WHEELER & CO., SHEDD, OREGON, Forwarding & Commission Merchants.

Dealers in Merchandise and Produce. A good assortment of all kinds of Goods always in store at lowest market rates. Agents for sale of Wagons, Grain Drills, Cider Mills, Churns, &c., &c. CASH paid for WHEAT, OATS, PORK, BUTTER, EGGS and POULTRY.

MARRIED. On the 22d inst., at the St. Charles Hotel, by Rev. W. R. Butler, W. H. McFarland and Camille Harvey.

For a bountiful supply of cake and wine, the REGISTER boys make their best salams, and unite in wishing the handsome couple a long life of happiness.

New To-Day.

NOTICE.

THE STOCKHOLDERS OF THE ALBANY & SANTIAM CANAL CO. are notified that the annual election of the Company will be held at their office in Albany, Oregon, on the second Tuesday of September next, at 1 o'clock P. M., for the purpose of electing a board of seven directors for the ensuing year, and transacting such other business as the Company may require. D. MANFIELD, Secretary. July 23, 1878-4814

FARMERS!

Take Notice!

THE NEW AND WELL-ARRANGED Warehouse of R. Cheadle, with improved cleaning apparatus of ample capacity, is now prepared to receive grain for the harvest of 1878. Farmers wishing to store or sell wheat, who find it to their advantage to see me before selling elsewhere. As will be furnished with sacks to move their grain by calling on me. The highest cash price will be paid for good merchantable wheat at all times. E. S. MERRILL, an old citizen of Albany, of excellent business qualifications, has taken charge of the warehouse, and will superintend the receiving and delivery of all grain passing through it. R. CHEADLE. Albany, July 22, 1878-3n47m3

PROF. O. S. FOWLER, OF New York and Boston, WILL LECTURE IN THE PACIFIC Opera House, Albany, Oregon, on Thursday, July 31st,

at 8 o'clock P. M., on "Phrenology applied to life and self-culture," &c. On Friday, at same hour, the subject of the lecture will be "Love and Marriage." Saturday, at 2:30 P. M., to ladies only—"Female Health and Beauty," illustrated with French female models. At 8 o'clock P. M., to gentlemen only—"Marriage and Woman"; also illustrated. Sunday at 3 and 8 o'clock P. M., (free)—"God and Immortality." SEATS, TWENTY-FIVE CENTS. Consultation as to your own and children's Phrenology, self-culture, best business, health, &c., &c., at St. Charles Hotel, from July 31st to August 4th, only. Call early. 65f

ALBANY Collegiate Institute! Next term opens, Monday, September 1, 1878.

E. H. WARREN, President. August, 1878
