Special Ordinance No. 19.

Relating to wooden sewers up Broadalbin street.

Be it ordained by the Common Council of the City of Albany:

Section 1. That a sewer be dug along the east side of Broadalbin street, beginning at or near the railroad crossing on Water street, and thence south under the side and crosswalks to the southwest corner of block No. 17, on Third street; the sewer to be three feet wide on the inside and four feet at the beginning, and five feet deep crossing Second street and four feet deep at the place of termination, with a regular grade between said points.

Sec. 2. The sewer to be made secure from the place of beginning to the S W corner of block No. 17 on Second street, by being planked on the bottom from the beginning to the N W corner of block No. 8 on Second street, and by being planked on posts set upright every six feet, with cross pieces. The posts to be 4x6 and the cross pieces to be 4x4, and the cross pieces across the bottom 4x4, the crosspieces to be well framed together.

Sec. 3. The sides of the sewer to be planked upon posts on the sides from top to bottom from the beginning to the end, and six inches below the bottom from the end of bottom planking to the termination, and no cross pieces on the bottom, where no bottom is. The planking on the sides to be 1 1/2 inches thick, well spiked on, and the plank on the bottom to be 1 1/2 inches thick and well spiked down, and at all places where the water may run into said sewer that may be designated by the committee on building, the sewer shall be so constructed as to be secure from any breakage by the water getting under or along the sides thereof on the outside of the same, and the bottom at all places made so as to prevent any water getting under the same.

Sec. 4. All ordinances or parts of ordinances heretofore passed, relating to building sewers on the said east side of said street be and they are hereby repealed.

Sec. 5. This ordinance to take effect from and after five days after its publication.

Passed the Council, Sept. 30th, 1873. COLL. VAN CLEVE, Mayor. Attest: JOS. HANSON, City Recorder.

OFFICE Supt. of PUBLIC INSTRUCTION, SALEM, OREGON, Sept. 22, 1873.

To County School Superintendents, School Directors and Teachers, and all others whom it may concern:

I have the honor to announce to the first five readers and the reader of the Pacific Coast Series, with Hopkins' Manual of American Ideas in lieu of Sixth Reader, have been duly adopted by vote of the County Superintendents, for use in the public schools of Oregon for the four years ending October 1st, 1877. The votes of the Superintendents were cast as follows:

For first five readers and speller of Pacific Coast Series: Supt. Means, of Baker; Brown, of Benton; Noltner, of Clackamas; Canfield, of Curry; Todd, of Douglas; Holmes, of Grant; Adams, of Josephine; Hendricks, of Lane; Kutigli, of Marion; Grubbs, of Polk; Tripp, of Tillamook; Ingle, of Umatilla; White, of Union, and Robb, of Yamhill-16.

The first five readers of Harper's U. S. Series; Supt's, Fenway, of Clatsop; Stanley of Jackson; Stites, of Linn and Elliot, of Multnomah-1.

For first five readers of Wilson's School and Family Series. Supt's, Stephenson, of Wasco and Anderson, of Washington-2.

For Wilson's Speller; Supt's, Fenway, of Clatsop; Elliot of Multnomah and Anderson, of Washington-3.

For Saunders' New Speller, Supt. Stites, of Linn-1.

For Webster's Speller; Supt. Stephenson, of Wasco-1.

For Henderson's Test Words; Supt. Stanley, of Jackson-1.

For Hopkins' Manual of American Ideas in lieu of Sixth Reader; Supt's, Means, of Baker; Brown, of Benton; Noltner, of Clackamas; Hamilton, of Columbia; Canfield, of Curry; Todd, of Douglas; Holmes, of Grant; Adams, of Josephine; Stanley, of Jackson; Stites, of Linn; English, of Marion; Elliot, of Multnomah; Grubbs, of Polk; Tripp, of Tillamook; Ingle, of Umatilla; White, of Union and Stephenson, of Wasco-17.

For Hopkins' Manual, but not in lieu of Sixth Reader; Supt. Haecker, of Coos-1.

For Anderson's U. S. Historical Reader, as Sixth Reader; Supt. Hendricks, of Lane-1.

For Harper's U. S. Sixth Reader; Supt. Fenway, of Clatsop-1.

For Wilson's Sixth Reader; Supt. Anderson of Washington-1.

For no Sixth Reader; Supt. Robb, of Yamhill-1.

As soon as a supply of the books can be procured it is expected the schools will begin to introduce them, and that they will continue until all are fully introduced, after which the use of other books in their stead will be positively forbidden. Introduction must be completed by the 1st of March, 1874; rules in several cases and for special reasons upon direct application to the Board of Education further time is granted.

The customary introductory rates will be given by the publishers on the books being adopted.

Though Hopkins' Manual of American Ideas has been adopted in lieu of the Sixth Reader, it is expected that it will be used not merely as a reader but as a book for the regular instruction of pupils in the important study of the science of government. It is recommended that it be studied in all the public schools, if possible, whether they would otherwise use a Sixth Reader or not.

Newspapers throughout the State will confer a favor upon the patrons of the public schools as well as upon the Board of Education by publishing at least the substance of this announcement.

A Kansas highwayman, who didn't find any greenbacks in a farmer's wallet, made the farmer eat thistles, and lectured him on the meanness of going about "strapped."

There is a "farmers' movement" in Japan. It has been in existence a long time, showing special activity now and then, in seasons when peculiar causes of dissatisfaction exist, but never dying out. It is directed against officials and merchants, politicians and capitalists, as our farmers would call them. The movement is a fact of such importance and familiarity that it has appropriated a word of the Japanese vocabulary for its name, which would serve, doubtless, as an exact translation of our now familiar word Grange or Granger.

A JURY OF THIRTEEN.—Here is an exceptional case. Thirteen men recently served on a jury in North Carolina. It came about in this way: Chang, one of the Siamese twins, was summoned to serve as a juror. Thus it came about that the remarkable spectacle of thirteen men on a jury was shown. The party beaten in the suit now takes exception, on the ground that a man not a juror was in the room when the verdict was agreed on. It would seem that the court should not consider this quibble, for it is nothing else. The proper time to have raised the point would have been during the empanelling of the jury; failing to do so, the party waived all right to make objection. By the way, Eng must have had rather a dull time with nothing to do or say. It is a pity these brothers are so attached to each other.

MINNESOTA WHEAT CROP.—The Minneapolis Farmer's Union thinks it is folly to endeavor to convey the impression that the average yield of wheat in that State this year has been so much as from 22 to 30 bushels per acre. It says:

Now we make these remarks at the risk of being laughed at, but we shall set the yield of Minnesota this year at 18 bushels, on an average, and will not be surprised if it only goes 16. It is better at any rate to count on fair yield and be blessed with a large one than to estimate too high and afterwards be disappointed.

A FEARFUL TALE.—Once a careless man went to the cellar and stuck the candle in what he supposed was a keg of black sand. He sat near it drinking wine, until the candle burned low; nearer it got to the black sand; nearer and nearer, until the blaze reached the black sand—and as it was nothing else but black sand nothing happened.

We would not recommend the frequent or constant use of any medicine. It is important to take even a good article judiciously. Parsons' Purgative Pills are safe, prompt and reliable as a laxative or cathartic.
