The REGISTER is issued twice each week (Wednesdays and Saturdays mornings) at the low price of three dollars per year, in advance. Call at the office, corner of First and Perry streets, and subscribe.

A TRAGEDY—TWO MEN KILLED.—It again becomes our painful duty to record another of those awful tragedies which always send a thrill of horror like an electric shock through a community. On Saturday afternoon of last week, a party of men were gathered at Back Head Saloon, on Ames' Creek, near Sweet Home Valley in this county, engaged in a shooting-match for beef. Among the number assembled were three brothers named Shirts, and a man named Van Emerson. During the progress of the match, a quarrel between Emerson and James Shirts grew out of the loading of a gun, and the men proceeded to fight it out in the old style. In the course of the melee, Shirts knocked or threw Emerson down, jumping upon him, and was giving him "Hail Columbia" with his fists. This didn't seem to suit Emerson, who drew a large knife and commenced prying Shirts there-with. Shirts jumped up and ran, when Emerson also arose, and ran after him. A younger one of the Shirts, then threw a rock at Emerson, who whirled around, and Hi Shirts being near him, he went for him, stabbing him just over the left breast. Hi then struck Emerson a blow with a stick he held in his hand, with sufficient force to break his neck, and kill him almost instantly. In a few minutes thereafter Hi also died, from the wound inflicted by the knife in the hands of Emerson. This seems to be the facts in the case as near as we could get at them. The younger Shirts—the one who threw the rock, at least—was arrested and brought into the city on Monday. We believe the two men that were killed were unmarried. Joseph Shirts had a preliminary examination before Judge Tandy, on Monday, and was bound over in the sum of \$2,000 to answer at the next term of the Circuit Court, on charge of manslaughter, the evidence not showing clearly whether the death of Emerson, was the result of the blow from the stick in the hands of Hi Shirts, or from the force of the rock thrown by Joseph Shirts.

REED'S PANORAMA—Will be unrolled, on Friday evening next, at the Pacific Opera House, and as it will be the last chance our citizens will have to see it here, all should make it a point to attend.

MARRIED—October 20th, 1873, at the residence of the bride's parents, near Knox's Butte, by Rev. D. S. Oakes, Mr. Sylvander Dawson and Miss S. L. Haight—all of Linn county, Oregon.

They deserve their fate, but nevertheless they have our blessing.

REV. DR. E. R. GEARY—Will preach at the M. E. Church this (Wednesday) evening. All are invited.

SPRING CHICKENS—Are in market, but what spring the grocer couldn't tell us.

Resolutions Adopted.

At a meeting of the Farmers' Excursion Party, held in Astoria last Friday, the following preamble and resolutions were adopted:

WHEREAS, We, citizens of Linn County, Oregon, have just completed an examination of the harbor and surroundings of Astoria, and are convinced beyond a reasonable doubt of the following named facts; therefore,
Resolved, That in our opinion there are good harbor facilities for the largest class of sea-going vessels at Astoria.
Resolved, That the depth of water on the Columbia River Bar (24 feet at the lowest and 34 feet at high tide) is sufficient to admit the largest and more profitable class of grain vessels.
Resolved, That the cost per ton, freight, on wheat or other commodities from Astoria to Liverpool should not be greater than from San Francisco to the same point.
Resolved, That the rate of insurance from the Columbia River should not be greater than from San Francisco.
Resolved, That the true point of the wheat producers of Oregon should be, and is, to place their grain at tide water within their own State borders.
Resolved, That the press of Oregon be requested to publish these resolutions.

Why Women Procrastinate.
 If a man has a business appointment he is very apt to take his hat and be punctual in meeting the engagement.
 If a woman says she will be at a certain place at a certain time to attend to business matters it would be dangerous for anyone to sit down and wait till she came.
 She begins the day talking about the matter. She wonders how the thing will be? Whether the other party will forget the appointment? What she had better wear? How she shall comb her hair?
 Finally, after hurrying around for two hours and getting half dressed, somebody enters in to gossip awhile, and stops until it is too late to attend to business that day.
 "Another day will do just as well," the woman says to herself, and so perhaps a week passes before she brings herself to attend to a little task which when begun only requires fifteen or twenty minutes' time.
 If men delay and put off from day to day, it is not because they are bothered about the many little things which trouble women, especially what they shall wear.
 Few men dress oftener than once a day, excepting Sundays, and that is the reason why many men dread to have Sunday come.

ON MONDAY NIGHT—The members of the Albany Brass Band secured a conveyance, and were driven out to the residence of Mr. Haight, some six miles from the city, where they serenaded the newly wedded pair, Mr. and Mrs. Dawson, in good style. Of course the boys were treated handsomely, as Mr. and Mrs. Haight are known far and wide for their hospitality and large heartedness.

FOUND—That buggy wheel, after having been mourned as lost for many days, like the "prodigious son," has been found and restored to the "bosom of the family"—If we may be allowed the expression. It had laid hidden in Hackleman's pasture, and neither taken root or sprouted, but kept its shape, and was as sound as when taken from its place.

DIED—At the residence of Dr. Glass, Portland, on the 25th inst., Miss Mary E. Hardman, aged 19 years 3 months and 24 days. She was brought to this city on Monday, and buried at Lebanon yesterday.

SERENADE—The Albany Brass Band complimented us by a serenade on Monday night. The music was excellent, and we feel the compliment highly.

FINANCIAL AND COMMERCIAL.
 Gold in New York, 108.
 Legal tenders 90 1/4 @ 114.
 Wheat in Liverpool 12s 5/8 @ 12s 8d; club, 12s 9d @ 13s.

BAZAIINE'S SURRENDER OF METZ.—A Paris dispatch of October 10th gives this:
 The prosecution attaches great importance to the dispatch, delivered as it alleges, to Bazaine on the 23d of August, announcing McMillan's movement toward the Meuse, to join hands with the Army of Metz. Bazaine is charged with refusing to avail himself of the balloon service to communicate with the interior. Among the documents read at the trial of Bazaine, was one showing that there were 17,000,000 cartridges in the Arsenal of Metz, of which only 1,000,000 were used when the place capitulated, and when Bazaine said he had no ammunition the fact was he had no intention of fighting.

Either Brooklyn is in a bad way, politically speaking, or she is woefully slandered. The latest thing said about her in New York is this, by the *Graphic*: "The corruption in the municipal affairs of Brooklyn is even of a more virulent type than was the corruption of our own city government in the days of Tweed." If this be true, the Brooklyn officials must be the greatest thieves out of jail.

MacMahon is calling all army absences to their commands, and is filling Paris with troops. He says that he shall never separate himself from the Conservative majority of the Assembly, which had appointed him to power. This makes certain what has heretofore been suspected—that MacMahon is in the plot to strangle the Republic and foist Chambord on the throne.

Fever seldom makes an attack without warning, and may often be thrown off by soaking the feet in warm water, wrapping up warmly in bed, and taking two or three of Parson's Virginia Pills.

A Mississippian, just returned, says he regards *Johnson's Anodyne Liniment* as beyond all praise, and efficacious beyond any other medicine. It is adapted to a great variety of special cases, and it is the best pain curer in the world.

Cramps and pains in the stomach are the result of imperfect indigestion, and may be immediately relieved by a dose of *Johnson's Anodyne Liniment*. A teaspoonful in a little sweetened water is a dose.

Heavy oats are good for horses; none will deny that; but oats can't make a horse's coat look smooth and glossy when he is out of condition. *Sheridan's Cavalry Condition Powders* will do this when all else fails.

ALL WHO SUFFER from coughs, colds, bronchitis, croup, whooping cough, and the most to be dreaded of all, Consumption, can find sure relief in *Dr. Wisner's Balsam of Wild Cherry*, which always cures when other remedies fail.

SEED WHEAT.—Howell, Harper & Co. have for sale a choice article of Wheat for seed, such as Fall or White Winter, Clark and Chila Club, Sonora, &c., &c., all of which they will dispose of by exchanging for other wheat, or on other terms which will suit.

Natural Beauty—Protect the System.
 The human body is a machine, and therefore cannot endure forever; but, like a watch or a sewing machine, it will last much longer if properly regulated and duly repaired, than if no pains were taken to keep it in order. The great object of every one who desires a long and healthy life should be to put his body in a condition to resist the life-threatening influences by which we are all more or less surrounded; and no invigorant and corrective as present known, so effectively answers this purpose as the "Purifying Elixir" which, under the unobtrusive name of Hostetter's Stomach Bitters, has been for more than twenty years the standard tonic of America. In crowded cities, where the atmosphere is contaminated with the effluvia inseparable from large populations in marshy regions, where the soggy soil reeks with miasmas; on the prairies and in the forests, where every fall the air is tainted with exhalations from rotting woods and grasses, or decomposing leaves—in short, in every locality where malarial exists, this powerful vegetable and mineral is urgently needed. Fever and ague, bilious fevers, dysentery, congestion of the liver, jaundice, rheumatism, neuralgic diseases which are generated by infected air, impure water, or sudden changes of temperature, may be averted by strengthening and regulating the system in advance with Hostetter's Bitters. Autumn is always a season of pestilence, especially to weak, susceptible organizations. Even the more vigorous are apt to be in some measure depressed by the humid atmosphere, loaded with deleterious gases produced by vegetable decay. The fall is a period of the year when the renovation and regulation of the living machine is peculiarly important, and the Bitters should therefore be taken daily at this critical season.

A. WHEELER, C. P. HOUGE.
 C. B. WHEELER.
A. WHEELER & CO.,
SHEDD, OREGON.
