FINANCE AND COMMERCE.

Gold in New York, 100%. Legal tenders, 99 1/2%. Wheat in Liverpool—Average, 13s 2 1/2. Flour—124 1/2 to 13s 6d.

Since the publication of our last number, there has been a decided improvement in the general tone of commerce and trade throughout the world, especially in those districts where shipping is at command. The deficit in receipts of bread-stuffs in Great Britain has caused a material advance in wheat and, to a certain extent, other commodities sympathize therewith. It is evident, to-day, that there can be no great falling off in prices of grain for the foreign markets, as the leading buyers are short. There may be trouble in selling in our market, if the present cold weather continues, as even now vessels meet with great difficulty in reaching Portland, on account of floating ice in the Columbia river.

The demand for flour in Portland continues good, and we observe a growing disposition to open up direct trade with domestic as well as foreign ports. We note large shipments per California to Sitka and way ports, small cargo to Coos Bay, and purchases for shipment to the Sandwich Islands as well as to Liverpool. The usual amount goes to San Francisco. Puget Sound is also buying from Portland houses, instead of from California as formerly.

The oats market remains quiet, and will, until the crop of California is mostly consumed, when we may hope for better prices.

Money is comparatively easy in all those counties where facilities for shipping grain have been enjoyed. The drain from Portland to the interior has kept money tight there, and compelled those using more than their own funds to pay high rates of interest. A few weeks of good weather and an open river, will relieve all those sections of country that are now without funds.
