Advanced Prices of Tea and Coffee,

Advices from New York state that

since December 1st the general advance

on teas has averaged at least five cents,

gold, per pound. Importers are of the opinion that this advance has not in

the least discounted the effect of the

anticipated duty, and that if a duty of ten ceuts, gold, per pound, is levied,

it will result in a corresponding ad-

varice in the market. The stock on

hand and to arrive is much lower this year than last. On December 20th the stock in the New York market was

has also taken a decided upward ten-

dency, having advanced, on an aver-

age, about four cents, gold, per pound

importers' explanation is a short crop

and not any discounting of the anticipated duty. Only about 50,000 bags are on hand at all the ports-not more

than half a month's supply. It is

deemed that adulteration will step in

to keep the prices down from any very

excessively high figures, even if a

Rumor says that the problem of the co-education of the sexes is to be solved

by a Pennsylvania college, which just

now is rather modest about divulging

its name. The process is simply this:

a department of cookery is to be estab-lished, a great kitchen to be built as an adjunct to the college, and the young lady students, after learning their lessons in Greek, Latin, mathe-

matics, etc., are expected to prepare

dinner for the whole establishment.
This is the penalty they are to pay for enjoying the educational privileges of the institution! We suppose that each treas the best cooks will receive the degree of F. F. W.—Fit for Wives.
