Gate-keeper—Elias Fanning.
Agent—L. C. Burkhardt.
Meets at Albany, on the second Tuesday of each month.

Home Interests.

To Purify Tallow.—In order to obtain tallow quite free from smell, and to preserve it for a long time without becoming rancid, the following simple process may be used: The fresh tallow is melted in boiling water, and when completely dissolved, and consequently hot, is washed through a linen filter, then rendered solid by cooling and washing with water, lastly separated from it carefully by pressure. It may be melted at a moderate heat and preserved in earthen vessels covered with a bladder, paper or good closing lid. If the linen filter is not thick enough to keep the other ingredients from passing through besides the liquid tallow and water it is better to repeat the filtration. Tallow thus obtained may be used for ordinary food: for pomades, by the addition of pure olive oil; for salves and plasters, by the addition of white wax, and may be kept well preserved for a time, as free from smell as when first prepared.

To Clean Marble.—To clean marble stained with iron rust, apply lemon-juice to it with a clean rag and wash with warm water. It soiled with dirt wash it with soap and Paris white.

Furniture Oil.—Mix half a pint of olive oil with one pound of soft soap. Rub them well and apply the mixture to your oiled furniture with a piece of dry cotton wool. Polish with a soft, dry flannel.

For Bleaching Muslin.—One pound of chloride of lime to forty yards of muslin; soak the muslin in soft water over night, melt the lime in a pot of water; then put the muslin in for half an hour; then rinse three times; soak in soft water over night; then hang out to dry.

To Polish Tins.—First rub your tins with a dry cloth; then take dry flour and rub them with your hands; afterwards, take an old newspaper and rub the flour off, and the tins will shine as well as if half an hour had been spent rubbing them with brick dust or powder, which spoils the tins.

Good Table sauce.—Take one gallon of tomatoes, wash and strain in three quarts of water until nearly done; strain through a

sieve; add two tablespoonsful of each of these spices: ginger, mace black pepper, allspice, nutmeg, and one of cayenne pepper; boil down to one quart; pour in half pint best vinegar, and then pass through a hair sieve. Bottle in a half-pint bottles; cork and seal securely and keep in a cool place.

Cleaning Lace.—Point, or any kind of fine lace, may be cleansed easily by soaking it in a preparation of sapoline and warm water. If this is not procurable, ammonia may be used with almost equal effect. Let it soak till fit to rinse in pure warm water; then lay it on the ironing-board over clean linen, and iron lightly on the wrong side with a cool iron. Afterward pin the lace on the linen-covered board, inserting a pin in every loop to keep the pattern clear.

How to keep butter Cool.—Get a large flour pot, plug up the hole with a sound cork and seal it. Now put a quarter-brick or other square, heavy body in the bottom, to serve as a support for a second, but smaller pot, which must be plugged up in the same manner. Place a dish under the outer pot, and cover with any cover you please provided it be not metallic. Now fill the space between the inner and outer pot with water. The butter will keep as firm as a rock, as cool as a cucumber.

Cure for Poison Oak.—Dissolve one ounce of gum-shellac in six ounces of sulphuric ether; cork tightly in a bottle. Bathe the surface where the irritation appears with cold water, and wipe dry; then apply the above solution. The ether will evaporate, leaving an elastic coating of gum impervious to the air. In about two minutes the most distressing case of poison oak can be relieved entirely of all unpleasant sensation. As the coating peels off, apply more of the solution, and in twenty-four hours the cure is performed.

Scissoring.

On the contrary—Riding a mule. Spicer calls his dog Ralph Waldo Emerson, because he is a great thin cur.

What is that which no one wishes to have, and no one wishes to lose? A bald head.

Rhode Island has passed a law giving discharged convicts one-tenth of their actual earnings.

What Sodom was to Lot's wife so is the back breadth of a woman's dress to another woman.—*Dunbury.*

A young lady in Vermont is six feet seven inches high, and she isn't stuck up either, says the *Boston Post.*

An Omaha girl introduced a romantic mode of suicide. She stuffed her lover's letters down her throat until she was suffocated.

Australia which produces black swans, has recently developed a vast deposit of white coal, which burns readily with brilliant flame.

A Virginia railroad has been made to pay \$25 for killing a rooster and all other roosters in the State are crowing over the verdict.

At a fashionable clutch in New York the contribution plates are carried round by young ladies to the great benefit of the treasury.

From 1,500 to 2,000 vehicles pass a given point on Broadway, New York, in an hour, while in London the number through Cheap-side is only about 1,200 per hour.

Lotus kissed a New Orleans young man who presented her with a gold medal. A Milwaukee editor says if the Government will establish a mint in that town he will be going to keep it busy turning out medals until Lotus's engagement is over.

CLABSON MASHAM who has a strong appetite for liquor, sent for five temperance women to pray with him. They went, and through their efforts, he says, he is on the road to reformation.

A little child named Kays, of Salem, had one finger cut off by a brother last week. Edge tools, sulphate of zinc and matches, are bad playthings for children.

Boston has so much red tape in its poor-office that it takes five days to send a peck of potatoes to a starving family, and by that time the family have either been supplied with turkey, or are over the valley.

A man describing a Western hotel, says: You can sit there and think that you wouldn't be surprised to behold Cleopatra in her barge, with 'a bonnet off her jib,' come sailing through the room on the placid bosom of an ocean of oxtail soup, and eating a pearl as big as a water-melon.

A Cleveland paper asserts that seven young men, accompanied by ladies, have recently been stopped on Erie street, in that city, by a colored woman who asked them for "a dollar and forty cents dat you owe me for washing." The gentleman, in his confusion, pays the demand, which he does not owe.

A company is to be organized in Louisville to hunt out thieves, murderers, lost persons and lost property, with a view of recovering the rewards offered. It is said that parties have on record rewards amounting to \$80,000 for those who have committed murder, arson, horse theft, and other crimes. Districts are to be assigned to expert detectives, who are to be paid a fixed salary, but the rewards recovered are to be paid to the company.

The will of Miss Sophia J. Snow, of Boston, bequeathing \$82,000 to various charitable institutions, has been admitted to probate. The will reads as follows: "I forbid all person or persons to break this my last will and testament, and who ever attempts to break it, or breaks it, may he, she, or they find no peace for mind or body in this world, or in the world to come."

COLEMAN'S No better evidence of the efficiency of Dr. J. S. Coleman's Compound Extract of Eucalyptus can be desired, than the following summary of cases, treated with this remedy alone, by that eminent physician, Dr. DAVID W. STEIN, in the U. S. Marine Hospital, San Francisco, reported in the *Journal*, No. 1873, Dec. 16, 1871.

No. Cases Treated.	Cured.	Not Cured.
Scintillat. eye	5	5
Chills and Fever	19	19
Typhoid Fever	3	0
Inflam. of Kidneys	4	1
Diuretic	10	7
Incontinence of Urine	3	3
Stricture	6	4
Inflam. of Bladder	27	25
Hemorrhagia	13	10
Dysentery	7	7
Inflam. of the Heart	4	3
Chronic Diarrhoea	12	9
Gonorrhoea	15	15
Dropsy	8	3

Completely corroborative of the above are the reports of the experiments with Eucalyptus by Dr. Lorrimer, of Berlin, Prussia, and Dr. Keeler, Chief Physician of the Austrian Railway Co., published in the *Ann. 364, Jour. July, 1872.* It will be found very efficacious in obstinate cases of Dysentery, Bronchitis, Hacking Cough, Chronic Sore Throat, Leucorrhoea, etc., and in nausea during pregnancy.

\$1,000 REWARD
FOR AN
Incurable Case!
