Gate-keeper—Elias Fanning.  
Agent—L. C. Burkhardt.  
Meets at Albany, on the second Tuesday in each month.

## Scissorings.

THE NEW "INSECTICIDE."—Hot alum water is recent suggestion as an insecticide. It will destroy red and black ants, cockroaches, spiders, chintzbugs, and all the crawling pests which infest our houses. Take two pounds of alum and dissolve it in three quarts of boiling water; let it stand on the fire until the alum disappears; then apply it with a brush, while nearly boiling hot, to every joint and crevice in your closet, pantry, bedstead, shelves, and the like. Brush the crevices in the floor of the skirting, or mop boards if you suspect they harbor vermin. If, in white washing a ceiling, plenty of alum is added to the lime, it will also serve to keep insects at a distance. Cockroaches will flee from paint which has been washed in cool alum water. Sugar barrels and boxes can be freed from ants by drawing a wide chalk mark just around the edge of the top of them. The mark must be unbroken or they will creep over it, but a continuous chalk line half an inch in width will set their depredations at naught. Powdered alum or borax will keep the chintz bug at a respectable distance, and travelers should always carry a package of it in their hand-bags, to scatter over and under their pillows in places where they have reason to suspect the presence of such bedfellows.—*Germantown Telegraph.*

John C. Fremont is in San Francisco. A few years ago his presence there would have been the signal for a series of receptions and ovations, but now he receives but a passing notice. The notoriety he had achieved and the position he had created for himself have all been swept away, and to-day the explorer of the Rocky Mountains walks the streets of California's chief city comparatively unknown. When General Fremont was in France, he was arrested, tried, and found guilty of raising money on the Memphis and El Paso Railway bonds by false representations, and sentenced to imprisonment for a term of years. He made good his escape from the jurisdiction of the French courts, and came to the United States. His brother-in-law, Baron Boileau, who was tried under the same charge, was not as fortunate, and is now serving the term of imprisonment. Baron Boileau's wife, a daughter of Thomas H. Benton,

lately died abroad, under very painful circumstances. Her sister, Mrs. Fremont, is a woman of rare attainments and great ambition. Her hopes have withered; and she beholds her husband, who once almost grasped the highest prize in his country's gift, declared a felon by a friendly republic.

EDITORS BULLETIN: The laws of 1866, page 30, requires the Board of State School Land Commissioners to distribute the interest arising from the sales of school land among the different counties of the State by or before the first day of February each year. The Governor, Treasurer and Secretary of State constitute said Board of Commissioners. No distribution has been made the present year. Can someone, in the absence of the Governor, inform the public why said distribution is not made as the law requires?

### COMMON SCHOOLS.

Portland, May 22, 1874.

From Washington dispatches of May 17th we copy this:

It is stated at the Post Office Department that the contract for carrying the mails between San Francisco and the Sandwich Islands, entered into by Ben Holladay, will not be permitted to be used for the benefit of the British line steamers now running between those points.

The election of officers of the Willamette Manufacturing Company, took place at their office last Monday, with the following result: Directors—John F. Miller, of Salem, Edwin Russell and W. S. Ladd, of Portland. President of the Board and Managing Agent, John F. Miller; Secretary, Samuel R. Irwin. The mill will commence running on Monday next, with a full force.

The Tacoma *Tribune* says: The free use of paint and whitewash, coupled with the absence from the streets of anything like rubbish, has given Steilacoom a refreshingly clean and bright appearance. Were it not so terribly dull, it would be a charming little town. Much of the time there is not a human being to be seen on the streets, and the dwellings look as if everybody was asleep.

The late assessment of Pierce County, W. T., now being considered by the commissioners, reaches nearly one million dollars. It shows an increase of more than \$250,000 for the year.

We learn that the Oregon Military Road Company disposed of their road and lands to the Pacific Land Company of California, the first of the week. The amount paid was \$120,000, as we learn, \$50,000 being paid down.

The Grange of McMinnville is making arrangements for a grand Fourth of July celebration and a picnic, to be held on the camp meeting grounds, one mile from that place.

Santa Fe claims to be the very oldest settlement in the United States, and presents facts to show that she is older than San Augustine, Florida, which makes similar pretensions.

Two wings of the Republican party of Dakota have united in a call for a Territorial Convention to nominate delegates and Territorial officers, to be held at Elk Point, July 16th.

It is now thought that the U. S. Senate will probably be ready to adjourn in July.

The assessment list of Thurston County, W. T., foots up in round numbers \$1,450,000.

On Tuesday last, a native of New Granada got two of his fingers severed by the edge saw at Port Madison. He was taken to Dr. Alverson, who deemed it necessary to amputate them.

The Salem Flouring Mills are running night and day to finish grinding the 500 tons required to complete the ship Ceylon, now at Portland.

An old gentleman at Columbia Falls, Missouri, aged 83 years, was recently married, the ceremony being performed by his son, aged 61 years.

At the present time freights are looking up at San Francisco. Kinney & Co., of Salem, receive telegraphic offers of charters from Astoria to Liverpool, at £4 12s. 6d.—quite an advance on former charges.

A Colorado paper says that men out there will ride 15 miles to spark a girl Sunday night; but the women will ride double the distance to see a man hung.

The Salt Lake *Herald* says that, on Wednesday last, Constable Hampton received a dispatch from Topeka, Kansas, informing him that the man he escorted to Topeka is not old man Bender. No particulars were given in the telegram.

NEW TO-DAY.

## COLEMAN'S

No better evidence of the efficacy of Dr. J. C. Coleman's Compound

Extract of Eucalyptus can be desired, than

the following summary of cases, treated

with this remedy alone, by that eminent

physician, Dr. D. V. W. S. in the U. S.

Marine Hospital, San Francisco, reported

in the Annual No. 1873 of the Med.

Journal: **EUCALYPTUS**

No. 1873 of the Med. Journal, San Fran.

Completely corroborative of the above,

are the reports of the experiments with

Eucalyptus by Dr. Lorrimer, of Berlin,

Prussia, and Dr. Keeler, Chief Physician

of the American Railway Co., published in

the Am. Med. Jour. July, 1873.

It will be found very efficacious in ob-

stinate cases of Dyspepsia, Bronchitis, Hack-

ing Cough, Chronic Sore throat, Leucor-

rhoea, etc., and in nausea during pregnan-

cy.

Dr. Coleman's Double

Extract of Eucalyptus is a special prepa-

ration for the treatment of

FEV, and AGUE,

and is warranted to

cure every case treated

according to directions,

without the injurious

results of the usual Qui-

nine and arsenical re-

medies for that disease. Also pure fluid ex-

tract of Eucalyptus, in one pound bottles,

for physicians' use. Beware of imitations,

and take none but Coleman's. For sale

everywhere, and by Edge, Clark & Co.,

Druggists, Portland, Agents for Oregon.
