PARAGRAPHS.

Weather cool.
Roads splashy.
Three days of mist.
Schools fairly attended.
Municipal year half gone.
College vacation in two weeks.
Fine turnouts at Peters & Spidel's.
A. Carothers & Co. have doubled their soda business.
John Schmeer is doing a thriving grocery business.
Fresh groceries at Weed's—lots of 'em.
The strawberry season is about over.
Cherries are beginning to come into market.
The plum prospect is good, as also is the apple and pear.
The Newby warehouse will spread over an acre or so of ground.
Andy Hill came up from Portland the first of the week.
A new awning in front of Geo. Weller's place.
New county officers sworn in next month.
New threshers and cleaners at Dodd's.
Fresh goods at C. P. Harper & Co.'s. Call and see them.
Who wants to buy a print shop? Don't all answer at once.
The sun came out a little while on Monday.
Commencement at Albany College Institute on the 18th.
The price of coffee has fell a fraction.
Venison hams, dried, retail at 15c per pound—excellent grub.
Two and a half dollars is all the REGISTER costs for one year—two dollars to clubs.
Gus. Layton's new house will be ready to be "warmed" in a few days.
Dr. G. W. Gray is doing some splendid work in the dental line,—is extremely hard to beat.
Foshay is putting up a very neat residence on Baker between Fourth and Fifth streets.
Any quantity of tinware, stoves and such at John Briggs', at fair rates.
Business increasing. We got a subscriber from Minnesota last week.
Our sawmill men can't get out lumber fast enough to supply the demand.
Chances yet to be taken in the Louisville Library drawing. See the ad.
The late rains have clinched the grain prospect, and the yield will be large.
The new silver ware at Titus, Bourgardes & Co.'s is attracting a good deal of attention—it's splendid.
The Marshal is a success as a repairer of street crossings. Do it more.
No Fair for Linn county this year—the Company takes a rest. The stockholders say they can't stand so much loss.

At the school meeting on Saturday, the resolution to purchase grounds and erect a new school building was voted down.

If a man dreams the devil is after him, it is a sign he had better settle his subscription bill.

Dobbs thinks that instead of giving credit where credit is due, the cash had better be paid.

A lady had two canaries, one of which she named Wheeler and the other Wilson, because, as she said, neither were Singers!

At the firemen's election a few days since, Jos. Webber was unanimously re-elected Foreman—certainly a high compliment to Jo.

The man whose sands of life had almost ran out, has gone into the mullage business, and hopes to stick it out awhile longer.

A Maine woman has hair seven feet and five inches long—to long to be available for use in butter.

The gaudily arrayed maiden of the forest, with her attendant buck, gracefully swing up and down the Broadway of Albany, sometimes in twos and often in mores.

Billy Newhouse was united to a young lady of Portland, in this city, early Monday morning. The happy pair took the noon train for Portland.

Mrs. Cree, who took a second husband the other day, evidently wanted to cre-mate.

The Evening Express train did not arrive in this city from Portland until about 10 o'clock Monday night—an hour and a half behind time. On that evening, as the train started from East Portland, the locomotive and tender ran off the track owing to a misplaced switch, thus causing the delay above mentioned.

The Pendleton Tribune reaches us this week on the half-shell.

SILVER-PLATED WARE—BARGAINS.—Just received from the factory a large quantity of silver-plated ware, consisting of Pitchers, casters, table and teaspoons, Forks, etc., which we will sell at lowest prices—all of Roger's plate. Also, silver steel knives, etc. We will sell table spoons at \$3 per set; teaspoons at \$1.50 per set—warranted Roger's silver-plated ware. All other goods in proportion.

ANOTHER INVENTION.—On Monday we examined a new invention by Dr. Smith, of this city, which is certainly the neatest and handiest thing in its line that we have ever seen. It is a lead pencil sharpener, and is different from all other pencil sharpeners in this, that it remains on the pencil and acts as a fender to the lead. When the lead wears down to the wood, all you've got to do is to give the fender or sharpener a turn or two, and the wood is nicely cut away from the lead, and the point of the pencil nicely sharpened ready for use. It is certainly a very complete and handy invention, and as it can be afforded very cheap, will sell by the million. Dr. Smith is a genius, and bound to get away with a pile of chickamen on the strength of this invention. Success to our boys.

At the immense Democratic ratification meeting in Salem on Monday, at which there were no less than seven men bearing transparencies, a wagon containing the brass band, and Col. Tom Cann on horseback, Geo. R. Helm, Grover, and others made speeches.

Aim high but not so high as not to be able to hit anything.

AT JOHN GANTER'S OLD STAND, First street, ALBANY, OREGON

The Singer Still Triumphant.

AT THE VIENNA EXHIBITION THE Singer received the Medal of Merit, the Medal of Progress, and three other Medals for superiority of productions.

These are the Highest Sewing Machine Awards at Vienna.

The Singer received all the MEDALS awarded to either of the competing Machines, and two Medals more than any other obtained. Then, in the name of truth, what is it that prompts people to claim recommendations for the Diploma of Honor! The fact is no Diploma of Honor has been given to any Sewing Machine Company. But immeasurably more valuable is

The World's Award

as shown by sales—proved by sworn returns to the owners of the principal Sewing Machine Patents—which last year amounted to two hundred and nineteen thousand, seven hundred and fifty-eight (219,758) machines, nine out of ten of them being for Family Use. This is over 45,000 more Sewing Machines than were sold by any other company during the same period and over one quarter of all the machines sold in 1878. These enormous sales are owing to the long-tested merits of the SINGER machines, which meet the wants of the public in superiority and simplicity of construction, and capability for great variety and excellence of work. That the users of Sewing Machines find these desirable qualities in the SINGER, beyond all others, is shown by the sales above given, aside from the awards of International Juries, either at home or abroad.
