Mr. D. M. Cook presented us on Tuesday with some of the finest cherries we have seen.

THE FOURTH OF JULY.—It is to be celebrated in this city with all the grandeur and so forth becoming a free and independent people. This statute it is official.

LITERARY.—The entertainment at the College tonight, under the auspices of the Literary Alliance, will doubtless be very interesting, attracting as usual a crowded house.

FINGER BROKEN.—W. J. Warren, Captain of the "Rattlers," broke the second finger of the right hand on Saturday, catching a ball "on the fly."

LAUNCHED.—Jase Wheeler's new canal boat, "Redjacket," was successfully launched last Saturday, and now only awaits the "coming of the waters" to go into the freighting business. As soon as the portion of the Canal running across the south and east of the city is finished, the waters will be let on, which will not be long. We suppose we should fail to do our whole duty if we did not say in closing, that the Redjacket "floats the waters like a thing of life," and we propose to say it if it costs a lawsuit!

BASE BALL.—On Saturday the base ball club of Monmouth and the Rattlers of this city played a very interesting match game, on the grounds of the Rattlers, not far from the College. At the conclusion the score stood 41 for the Monmouth boys to 23 for the Rattlers. The Rattlers had this disadvantage, their pitcher, W. J. Warren, had a broken finger, which didn't aid him to any great extent in pitching.

SILVER-PLATED WARE—BARGAINS.—Just received from the factory a large quantity of silver-plated ware, consisting of pitchers, casters, table and teaspoons, forks, etc., which we will sell at lowest prices—all of Roger's plate. Also, silver steel knives, etc. We will sell table spoons at \$3 per set; teaspoons at \$1.50 per set—warranted Roger's silver-plated ware. All other goods in proportion.

HIAC KEATAWA.—There are a large number of Indians prowling about the city. They serve no useful purpose by remaining here, but are a great annoyance to our people, especially to residents in the eastern end of the city, near where the Indians camp. Nearly every night the Redskins howl and dance and beat their drums, to the great disgust and annoyance of white folks. Can't the Indian agents call off these pests? We, in the name of many citizens, cordially invite Government officials to take their wards away, and keep them away.

PICNIC.—The Granger picnic at Roberts' bridge last Saturday was very largely attended, and those who attended speak of it in the most enthusiastic terms. Speeches were made, and waltzing music lent its spell to charm the hours away. Picnics will be the order this season—as promoters of sociability and good feeling, they have no equal.

The AMERICA is probably the lightest running sewing machine made. It makes the lock-stitch, is a most noiseless, never gets out of repair, and is a neat and compactly built machine. It has so many advantages over other machines that it is bound to eclipse all of them. Call at Eli Carter's office, and examine it.

LIBERAL.—As an evidence of the liberality of our people we chronic the fact that, on Monday, Mr. W. H. Dodd, agent for Wells, Fargo & Co. at this city, in a short time on Monday morning collected seventy-five dollars and twenty-five cents in aid of the sufferers by the rice flood in Mississippi. For hard times we consider this very fair. And this reminds us that late telegrams from the Governor of that state declare that thousands must perish if aid does not reach them soon. Everything they had was destroyed by the flood, and many have already perished from starvation. Let all who have to spare give liberally.—Money can be left with Mr. Dodd, at the express office, and it will be immediately forwarded to Mississippi by express, free of charge. Send in the money.

BUSINESS IS BUSINESS.—It is human nature to favor those who favor you, and do it honestly, is an undeniable proposition. A liberal advertiser in a legitimate and reputable business, is always a good fellow, as mean men never advertise. When you hear a man express contempt for the newspaper, set him down as a fool. If you want to test him and prove him a liar, give him a little puff, and see how pleased he will be, and how pleasantly he will speak to you. There is nothing that stings deeper or that is remembered longer than a little uncomplimentary notice in a newspaper. The recipient of such notice never will forget it. You may go on all your life saying pleasant things about persons and never get a word of credit; but when the first paragraph of reprimand appears, all the good you have ever printed is lost sight of at once, and you have a bitter and relentless enemy ever after. Every person wishing to purchase goods will search the advertising columns to see where they can be obtained in the greatest variety and at the lowest rate. While we are satisfied that every man of good business sense will advertise whatever he has to sell, we believe it is the duty of the publisher, other things being equal, to do what he can, whenever occasion offers, to favor those who favor him. For ourself, we propose to stay by our friends.

Some melancholy man, with a turn for Arithmetic, has calculated that the people who died in Philadelphia last year would have made a procession one mile long, ten a breast.

The ornationists in Rhode Island naturally go for Burdette for Senator.

The Singer Still Triumphant.

AT THE VIENNA EXHIBITION THE Singer received the Medal of Merit, the Medal of Progress, and three other Medals for superiority of productions.

These are the Highest Sewing Machine Awards at Vienna.

The Singer received all the MEDALS awarded to either of the competing Machines, and two Medals more than any other obtained. Then, in the name of truth, what is it that prompts people to claim recommendations for the Diploma of Honor! The fact is no Diploma of Honor has been given to any Sewing Machine Company. But immeasurably more valuable is

The World's Award

As shown by sales—proved by sworn returns to the owners of the principal Sewing Machine Patents—which last year amounted to two hundred and nineteen thousand, seven hundred and fifty-eight (219,758) machines, nine out of ten of them being for Family Use. This is over 4,000 more Sewing Machines than were sold by any other company during the same period and over one quarter of all the machines sold in 1877. These enormous sales are owing to the long-extended merits of the SINGER machines, which meet the wants of the public in superiority and simplicity of construction, and capability for great variety and excellence of work. That the users of Sewing Machines find these desirable qualities in the SINGER, beyond all others, is shown by the sales above given, aside from the awards of International Juries, either at home or abroad.
